Re: Phase I Environmental Site Assessment
Madera Industrial Whse
325, 335, 345, and 355 South Schnoor Avenue
Madera, California 93637
CBRE Project No.: CB24US031726-1

Dear Joshua Magidson:

CBRE, Inc., a Delaware Corporation (CBRE), is pleased to submit this Phase I Environmental Site Assessment (ESA) on the above-referenced property on behalf of Ladder Capital Corp and any additional party referenced in Section 2.1.

We have performed a Phase I ESA of 325, 335, 345, and 355 South Schnoor Avenue, Madera, California in conformance with the scope and limitations of 40 C.F.R. Part 312 and ASTM E 1527-21. Any exceptions to, or deletions from this practice, are described in Sections 2.4 and 11.0 of this report. We certify that the Phase I ESA was performed by a qualified Environmental Professional as defined in 40 C.F.R. § 312.10(b).

We value the opportunity to assist Ladder Capital Corp and want you to know your business and trust in CBRE is appreciated.

Please contact Rachael Bailey at 202.609.6899 or by email at Rachael.Bailey@cbre.com should you have any questions or comments.

Sincerely,

CBRE, Inc. – Assessment and Consulting Services

Carolina Cortes Ortiz
Senior Environmental Site Assessor

Rachael Bailey, EP
VP, Environmental Assessment

Findings, Opinions and Conclusions Summary Table

Further information on the findings below can be found in the relevant sections of the report.

1.0 EXECUTIVE SUMMARY

CBRE has performed this Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Phase I Environmental Site Assessment Practice E1527-21 of 325, 335, 345, and 355 South Schnoor Avenue, Madera, California (Subject Property). The ASTM Standard was designed to meet the requirements of the United States Environmental Protection Agency's (USEPA's) All Appropriate Inquiries (AAI) into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at 42 U.S.C. §9601(35)(B). The purpose of this Phase I ESA was to assess existing site conditions and render an opinion regarding the presence of recognized environmental conditions in connection with the Subject Property in accordance with USEPA AAI requirements. Any exceptions to, or deletions from, this practice are described in Section 11.0 of this report.

The Subject Property, which is situated in an urban area characterized by mixed-use development, consists of a 18.66-acre tract of land, of which, 9.12 acres are improved with 4, 1-story, multi-tenant Industrial buildings that were constructed on-site in 2023 on the south portion, the north portion consists of approximately 9.54 acres of vacant land with one stormwater pond area on the northeast corner. At the time of CBRE's site reconnaissance, the Subject Property was operated as the Madera Industrial WHSE and was occupied by multiple tenants for commercial, and general warehousing purposes.

Historically, the Subject Property was agricultural land from as early as 1937 until the late 1950s, then vacant land from the early 1960s until late 2021, when the construction of the existing improvements started. The current industrial buildings were completed in 2022, and the Certificate of Occupancy was issued on May 18, 2023. No tenants of environmental concern were noted.

RECOGNIZED ENVIRONMENTAL CONDITIONS

A Recognized Environmental Condition (REC) as defined by ASTM Standard E 1527-21 is: "(1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment."

This assessment has revealed no evidence of RECs in connection with the Subject Property.

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

A Controlled Recognized Environmental Condition (CREC) as defined by ASTM Standard E 1527-21 is: "a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations)."

This assessment has revealed no evidence of CRECs in connection with the Subject Property.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

A Historical Recognized Environmental Condition (HREC) as defined by ASTM Standard E 1527-21 is "a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations)."

This assessment has revealed no evidence of HRECs in connection with the Subject Property.

BUSINESS ENVIRONMENTAL RISKS

A Business Environmental Risk (BER) as defined by ASTM Standard E 1527-21 is: "outlines a non-exhaustive list of "non-scope considerations" that includes but is not limited to asbestos-containing building materials, indoor air quality, lead-based paint, lead in drinking water, mold, and radon. The ASTM Standard was not designed to address Business Environmental Risks (BERs), which are risks that are not required to meet the AAI requirements but may have a material environmental or environmentally-driven impact associated with the current or planned land use. Non-scope items considered in this Phase I ESA are discussed in Section 8.0.

This assessment has revealed no BERs in connection with the Subject Property.

SIGNIFICANT DATA GAPS

A Significant Data Gap as defined by ASTM Standard E 1527-21 is: "a data gap that affects the ability of the environmental professional to identify a recognized environmental condition."

This assessment has revealed no evidence of significant data gaps in connection with the Subject Property..

RECOMMENDATIONS

Based on the findings of this assessment, no further investigation is recommended at this time.

2.0 SCOPE OF WORK

2.1 General

CBRE was retained by Ladder Capital Corp ("Client" or "User") to prepare a Phase I ESA, in conformance with ASTM International's Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process E 1527-21 and Client's Scope of Work on the Subject Property in accordance with our Agreement dated April 5, 2024, and the Conditions and Limitations described herein.

This report has been prepared to assist in the determination of whether to make a loan or loans evidenced by a note or notes (the "Notes") secured by the property referred to in the report or by a pledge of the equity interests in the borrower. With no prior approval, this report may be relied upon by (i) Ladder Capital Finance LLC, its employees, agents, servicers, legal counsel, successors and/or assigns and affiliates, (ii) the trustee of a trust created in connection with a securitization which includes any of the Notes or an interest therein, (iii) any purchaser or assignee of the Notes or an interest therein in determining whether to acquire the Notes or an interest therein, (iv) any rating agency involved in rating securities which represent a beneficial ownership interest in a trust fund that consists of mortgage loans or mezzanine loans including any of the Notes or an interest therein, (v) any investors purchasing securities issued by a trust or otherwise purchasing a loan with an ownership interest, either directly or indirectly, in the Notes, and (vi) any bank, financial institution or other company or firm providing any financing for which the Notes, or any interest therein, are the collateral for such financing, and their respective successors and/or assigns. This report may be used in connection with the offering materials for sale of the Notes, or an interest in the Notes, and in presentations to any rating agency, investors or lenders and CBRE, Inc. agrees to cooperate in answering questions by any of the above parties in connection with a securitization, sale or other transaction involving the Notes, or any portion thereof, and/or such securities.

2.2 Report Viability

According to ASTM E1527-21 4.6, the report components below must be completed within 180 days of the intended transaction.

Report Component Viability Table

Report Component	Date
First Interview Conducted (Owner, Operator, or Occupant)	April 18, 2024
Environmental Lien Search (if applicable)	Not Applicable
Governmental Records Search (Database Report)	April 12, 2024
Site Reconnaissance	April 19, 2024
EP Certification (Issuance of Report)	April 25, 2024
Report Viability Expiration Date	**October 9, 2024**

2.3 Purpose

The purpose of this report is to identify potential RECs in connection with the Subject Property, using the methodology recommended by ASTM International for a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous Subject Property owner, or bona fide prospective purchaser defenses to CERCLA liability and/or to help understand potential environmental conditions that could materially impact the operation of the business associated with the Subject Property. Specifically, this methodology is referred to as *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* Designation: E 1527-21.

2.4 Procedure

This assessment consisted of reviewing readily ascertainable information and environmental data relating to the Subject Property; interviewing readily available persons knowledgeable about the Subject Property; reviewing readily available maps, aerial photographs and records maintained by federal, state, and local regulatory agencies; and conducting a visit to the Subject Property.

The Client is advised that federal, state, and local laws may impose environmental assessment obligations beyond the scope of this practice.

The specific scope of this assignment included the following:

Subject Property Reconnaissance

A reconnaissance of the Subject Property was performed to characterize conditions and assess the likelihood of identifying RECs in connection with the Subject Property. This includes consideration of observed adjoining and surrounding property uses, natural surface features, surrounding roadways, and other adjoining and nearby improvements. To the extent that they can be visually and/or physically observed, current and past uses of the Subject Property, adjoining and surrounding area, and associated known or potential environmental concerns and RECs were documented. Photographs taken as part of the Subject Property reconnaissance are provided in the Photographs Appendix of this report.

Interviews

CBRE made a reasonable effort to interview past and present owners and occupants, as well as government representatives to obtain information on present and previous on-site activities potentially resulting in environmental degradation of the Subject Property or adjoining properties. A reasonable effort was also made to interview the User or their representative to assist the User and the environmental professional in gathering information from the User that may be material to identifying RECs. In accordance with ASTM E1527-21, questions and/or questionnaires have been established specific to 1) key site contact; 2) past and present owners and occupants (if not the key site contact); and 3) the User or representative(s). These questionnaires are in the User and Pre-Survey Questionnaires Appendix of this report.

Previous Reports and Documentation

If provided, the Phase I ESA process included the review of information such as previously prepared appraisals, building plans and specifications, and environmental reports from the User. Copies of pertinent documents provided to and reviewed by CBRE are included in the Correspondence and Supporting Documents Appendix of this report.

Historical Documents

CBRE reviewed readily available historical documents to identify previous activities on and in the vicinity of the Subject Property. These include topographic maps, Sanborn Fire Insurance Maps, aerial photographs, and city directories, if available, as described within Section 4.0 HISTORICAL USE . Copies of these documents are included in the Maps and/or Historical Aerial Photographs Appendix of this report.

Regulatory Records

The Phase I ESA process included reviewing readily available environmental databases maintained by federal, state, and local agencies within the approximate minimum search distances as described within Section 5.0 REGULATORY RECORDS in this report. A copy of the environmental Regulatory Database Report (Regulatory Database), provided by EDR can be referenced in the Regulatory Database Report Appendix of this report.

Regulatory Agency File Review

CBRE reviewed readily available environmental databases maintained as files, records, or reports by federal, state, and local agencies, as applicable, to assess environmental conditions at the Subject Property, and as appropriate the adjoining or surrounding properties, as described within Section 5.2 Regulatory Agency File and Records Review. A copy of the records can be referenced in the Supplementary Documentation Appendix of the report.

Vapor Encroachment Screening

CBRE conducted a “Tier I” (non-intrusive) Vapor Encroachment Screening (VES) on the Subject Property in accordance with the methodology set forth in ASTM E 2600-15 “*Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions"* as described in Section 9.0 VAPOR ENCROACHMENT CONDITIONS (VECs). CBRE utilized applicable industry standard methodology for conducting the VES.

ASTM Non-Scope Considerations

Environmental issues or conditions that are not included in CERCLA’s definition of hazardous substances (42 U.S.C. §9601(14)), or that do not otherwise present potential CERCLA liability at a property, that are outside the scope of this practice and that have been considered,

are documented in Section 8.0 ASTM NON-SCOPE CONSIDERATIONS. This may also include standards or protocols for the assessment of potential hazards and conditions associated with non-scope conditions developed by governmental entities, professional organizations, private entities, or the User of this Phase I ESA.

Asbestos

CBRE conducted a visual survey of readily accessible common areas to identify the presence of the most obvious and common types of suspect asbestos-containing materials (ACM). The basis for "suspect" determination is taken from the materials listed in Appendix G of the USEPA publication Managing Asbestos in Place (also known as the Green Book). Building materials listed within Appendix G of the Green Book are considered to be suspect ACMs at the Subject Property. The suspect ACM screening is not intended for formal identification or management of asbestos in building materials that might be disturbed by demolition, abatement, renovation, or repair work.

Lead Based Paint

CBRE evaluated the age of the Subject Property to determine whether it is predisposed to contain lead-based paint (LBP), and if the presence of LBP is likely, made observations of the condition of the painted surface. In the course of conducting observations for the presence of LBP, only representative accessible portions of the Subject Property improvements were inspected. In those observed portions, such observations were limited to representative areas that were readily accessible, easily visible, and safe with respect to the field observer. For this reason, CBRE does not warrant that findings represent conditions in unobserved areas. The limited observations for lead-based paint are not to be construed as an in-depth LBP survey.

Microbial Growth

In the course of conducting observations for the presence of microbial growth, only representative accessible portions of the Subject Property improvements were inspected. In those observed portions, CBRE made representative observations of areas that are readily accessible, easily visible, and safe with respect to the field observer. For this reason, CBRE does not warrant that findings represent conditions in unobserved areas. The limited observations for mold are not to be construed as an in-depth microbial survey.

Lead in Drinking Water

A determination on the potential for lead in drinking water was made based on a review of the available consumer confidence report or equivalent. In addition, the age of the Subject Property improvements was considered to determine whether it is predisposed to contain lead piping. Site-specific testing was not performed. For this reason, CBRE does not warrant that findings represent conditions.

Wetlands

A wetland delineation survey was beyond the scope of this assessment. CBRE reviewed the applicable United States Fish and Wildlife Service National Wetlands Inventory (NWI) map and USGS quadrangle map. Observations were made for general wetland features.

Radon

CBRE reviewed published radon occurrence maps to determine whether the site is located in an area with a propensity for elevated radon concentrations.

Emerging Contaminants

Substances Not Defined as Hazardous Substances—As defined in 3.2.36 of ASTM 1527-21, hazardous substance means “those substances defined as a hazardous substance pursuant to CERCLA 42 U.S.C. § 9601(14), as interpreted by EPA regulations and the courts.” There are some substances that are not defined (or not yet defined) as hazardous substances under CERCLA through interpretation by EPA regulations and the courts. These substances may include: (1) some substances that occur naturally or through biological digestion (for example, methane), and (2) substances about which human understanding is evolving (e.g., per- and polyfluoroalkyl substances, also known as “PFAS”).

Sample Collection and Analysis

Testing, if any, of building materials, was designed solely to meet the requirements of the client’s scope of work, not to meet any local, state or federal regulations and shall not be utilized as such, unless indicated herein.

2.5 Data Gaps

According to §3.2.19 of ASTM Standard E 1527-21, a Data Gap is: "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information." Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to, site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview the key site manager, regulatory officials, etc.).

The following data gaps were identified in connection with this report:

Data Gap Detail	Significance of Data Gap
Site history not conducted in 5-year intervals (See § 4)	Low - not likely to alter the conclusions of this Report
User Questionnaire not returned to CBRE	Low - not likely to alter the conclusions of this Report

Data Gap Detail	Significance of Data Gap
No response to FOIA (See § 5.2)	Low - not likely to alter the conclusions of this Report
Unable to locate or interview former site owner or operator	Low - not likely to alter the conclusions of this Report

None of the data gaps affected the ability of the Environmental Professionals involved in this assessment to identify RECs in connection with the Subject Property, as defined by ASTM.

3.0 SUBJECT PROPERTY AND AREA DESCRIPTION

3.1 Subject Property Location Details

Refer to the Subject Property Plan and available Tax Maps provided within the Site Plan / Location Map Appendix of this report.

Name	Madera Industrial Whse
Address	325, 335, 345, and 355 South Schnoor Avenue, Madera, Madera County, California 93637
Acreage	18.66 acres per ALTA. 16.57 acres per Tax Assessor 18.66 acres, with 9.12 acres developed on the south portion with four industrial buildings, per PSQ
Number of Parcels	1
Shape	Rectangular
Parcel ID Number(s)	009-330-011
Parcel ID Source	Tax assessor information

3.2 Subject Property Improvements

The following information was obtained from various sources, including the County Assessor, personnel associated with the Subject Property, and visual observations.

Building Information

Number of Buildings	4 Identified as 325, 335 ,
Construction Dates	2023
Building Square Footage	144,300 Pre-Survey Questionnaire Building 325 - 37,050 SF Building 335 - 35,100 SF Building 345 - 37,050 SF Building 355 - 35,100 SF
Number of Stories	1
Number of Units	74
Substructure	Slab-on-grade
Superstructure	Concrete tilt-up precast concrete wall panels with steel columns and beams.
Exterior Walls	Facades are finished with metalsiding.
Roof Systems	Low-slope; corrugated metal roofing panels.

Interior Finishes	Walls of painted drywall; floors of sealed and polished concrete in the warehouse areas; vinyl plank flooring in the office areas and restrooms; and open ceiling system exposing insulation, structure, ductwork, lighting, and sprinklers.
HVAC	Electric package units are mounted on the roof.
Vertical Transportation	None
Parking Structures	Surface parking

Utilities

Date of Utility Connections	Since Construction
Domestic (Potable) Water	Madera Water Service
Sanitary Waste	Madera Water Service
Storm Drainage and Runoff	City of Madera
Electricity	Pacific Gas and Electric Company (PG&E)
Natural Gas	Pacific Gas and Electric Company (PG&E)

According to the most recent Consumer Confidence Report from Madera Water Service, the water supplied to the Subject Property meets federal and state water quality standards.

3.3 Current Subject Property Use and Operations

The following table summarizes the Subject Property's operations:

Name of Entity	Description of Operation
Building 325	
325 101 - Freedom Auto Sales	Used cars auto sales
325 103 - One Main Janitorial Inc	Commecial cleaning services
325 105 - Flipper Queen	General storage
325 107 - Central Pro Tire Inc.	Auto tire services
325 109 - CenCal Audio	Auto audio accesories
325 111 - Vacant	Vacant
325 113 - Guyaki, LLC	Yerba Mate distributor
325 115 - Vacant	Vacant
325 117 - E and M Plus Manufacturing	Manufactured industrial products
325 119 - Vacant	Vacant

Name of Entity	Description of Operation
325 121 - Infinity Communications LLC	Wireless tower engineering construction
325 123 - Boba Brothers, LLC	General storage
325 125 - Madera Unified School District	General storage
325 127 - Madera Unified School District	General storage
325 129 - Vacant	Vacant
325 131 - Vacant	Vacant
325 133 - 2 Golden Eagles	Building products general storage
325 135 - Management Unit	Office
325 137 - Sweet Sleeps LLC DBA Mattress by Appointment Madera	Mattress store
Building 335	
335 101 - CRC Construction and Consulting	Construction and consulting
335 103 - Tint Works LLC	Tint works for cars
335 105 - K&K Vending and Distributing	Vending machine services
335 107 - Madera Gloss House	Paint polishing/ Correction class
335 109 - Madera Gloss House	Paint polishing/ Correction class
335 111 - Maurizio Martines	General storage
335 113 - RVD Heating & Air And Son	Heating and cooling services
335 115 - Solirvine, LLC	Solar panel installer
335 117 - Vacant	Vacant
335 119 & 121- Cypress Systems	Quality supplements minerals
335 123 & 125 - Sun Flare Solar	Solar panels installer/ storage
335 127 - 365 Logistics	Logistics
335 129 - Vacant	Vacant
335 131 - Keahola Events	General storage
335 133 - Prime Imports Inc.	General storage
335 135 - La Rosa Tortilla Factory, Inc	General storage
Building 345	
345 101 - Vacant	Vacant
345 103 - Vacant	Vacant
345 105 & 107 - KKM Driver Development	Nascar racing car storage

Name of Entity	Description of Operation
345 109 - Vacant	Vacant
345 111 & 113 - Plainstar Supply	Covers and liners for agriculture industry
345 115 - Vacant	Vacant
345 117 & 119 - The Water Connection, Inc	Backflow testing, repair and installations
345 121 - Red Wings Brand of America	General storage
345 123 & 125 - Madera Unified School District	General storage
345 127 - Good Printing Co.	Commercial printing
345 129 & 131 - Sutter Buttes Rubber	Supply rubber products
345 133 - Vacant	Vacant
345 135 & 137 - Naji Ashikhaiti & Ahmed Alshikhaiti	General storage
Building 355	
355 101 - Aftermath Services LLC	Crime scene, trauma and biohazard remediation
355 103 & 105 - Arista Networks Inc.	Networking solutions
355 107 - Meridian Growers	Sales and marketing growers of almonds, pecans and pistachios
355 109 & 111 - Meridian Growers	Sales and marketing growers of almonds, pecans and pistachios
355 113 - South Bay Naturals	Beverage storage
355 115 & 117 - Vacant	Vacant
355 119 - Gummy Bear Distributers	Candy distribution
355 121 & 123 - DS Glass & Window Inc	Commercial Glass and windows for residential and commercial
355 125 - DS Glass & Window Inc	Commercial Glass and windows for residential and commercial
355 127 & 129 - Super Store, LLC	General storage
355 131, 133, & 135 - Quady South Winery	Wine Distribution

No tenants, occupants, or operations were identified on the Subject Property that are considered an environmental concern to the Subject Property.

Of note, the north portion consists of approximately 9.54 acres of vacant land with one stormwater pond area on the northeast corner.

3.4 Adjoining and Surrounding Land Use

The Subject Property is located in an urban setting characterized by mixed-use development as tabulated below:

Direction	Adjoining Properties	Surrounding Properties
North	Vacant land	Commercial
East	Vacant land, with accumulated construction material	Commercial/Industrial
Southeast	Across a railroad are solar panels property of Sealed Air Corporation	Commercial/Industrial
South	Across a railroad is Sealed Air Corporation (1835 W Almond Avenue)	Commercial/Industrial
Southwest	Across S Schnoor Avenue is ZNDUS (2121 W Almond Avenue)	Commercial/Industrial
West	Across S Schnoor Avenue are Nutra Blend parking lot (332 S Schnoor Avenue), and Purl's Sheet Metal & Air Conditioning (232 S Schnoor Avenue)	Commercial/Industrial
Northwest	Across S Schnoor Avenue is City of Madera Fire Department (200 S Schnoor Avenue)	County Park, Governmental Public use

No tenants, occupants, or operations were identified on the adjoining or surrounding properties that are considered an environmental concern to the Subject Property.

3.5 Physical Setting

CBRE evaluated the general physical setting of the Subject Property and vicinity using Information regarding the topography, surface water, geology, and hydrology to evaluate the likelihood of hazardous substances or petroleum products originating from off-site sources, from within the Subject Property, or from the Subject Property to off-site receptors. The information was obtained from readily-accessible sources. Actual conditions may vary from general conditions in the area.

Physical Attribute	Description
Topography	The Subject Property is essentially flat and at the same approximate topographic gradient as the surrounding properties. The topography of the area is best described as flat. According to the United States Geological Survey (USGS) *Madera, California* 7.5 Minute Series topographic map, the Subject Property's topographic elevation is approximately 260' above mean sea level.

Physical Attribute	Description
Surface Waters	No surface water bodies were observed on or bordering the Subject Property. The closest open surface water to the Subject Property is an engineered channel, which is located approximately 1,800 feet to the southeast.
Wetlands	CBRE reviewed the applicable United States Fish and Wildlife Service National Wetlands Inventory (NWI) map and USGS quadrangle map. Based on this information, no wetland resources were identified on or adjoining the Subject Property.
Flood Zones	CBRE reviewed the applicable Federal Emergency Management Association (FEMA) Flood Insurance Rate Map (FIRM). Based on the information contained therein, the Subject Property is located in Zone X (unshaded), defined as an area determined to be outside of the 500-year flood level.
Geology	There are no predominant geological surface features such as rock outcroppings on the Subject Property. According to the USGS, the Subject Property is located in an area mainly composed of fan deposited.
Soils	According to the Geotechnical Engineering Investigation, the soils encountered in the Subject Property predominantly consisted of firm to stiff sandy silty clay, underlain by medium dense sandy silt, clayey silty sand, and poorly graded sand with silt, to the maximum depth explored of 35 feet below site grade. Cemented soil that is locally called Hardpan, was encountered at various depths between 8 feet and 16 feet below site grade.
Groundwater	According to the USEPA *Groundwater Handbook, Vol. 1 Groundwater and Contamination*, *September 1990*, the water table typically conforms to surface topography. This means that the direction of flow for shallow groundwater is generally from higher elevations to lower elevations. Localized flow direction, however, may vary as a result of rainfall, development, geologic characteristics, nearby surface water bodies, underground utilities such as storm drains, septic systems, and sewers, or other influences such as the presence of high-volume wells. According to the *Geotechnical Engineering Investigation*, no groundwater was encountered during the investigation. Available groundwater depth records with the Department of Water Resources indicate Local Well No. 369518N1200777W001, located approximately 0.35 miles northeast of the project, reported historical high groundwater depth of 19.2 feet below ground surface in May 1945. Groundwater flow direction is inferred to be to the southwest.

4.0 HISTORICAL USE

Subject Property Summary Findings

Historically, the Subject Property was agricultural land as early as 1937 until circa the late 1950s. Vacant land from the early 1960s until late 2021, when the construction of the existing improvements started. The industrial buildings were completed in 2022, and the Certificate of Occupancy was issued on May 18, 2023.

The Subject Property and the surrounding area have a long history of agricultural usage. A wide variety of pesticides may have been used during this period and residual levels of these materials may still be present. No information was obtained indicating evidence of improper storage, disposal, or application of these materials and a review of available aerial photographs did not show improvements such as hangars, runways, or large barns that would indicate significant storage, formulation, and handling of these materials. Based on the redevelopment of the Subject Property, the presence of the building and pavement covering the majority of the Subject Property, and the fact the Subject Property is served by a municipal drinking water supply, the historical agricultural usage is not considered a REC.

Adjoining and Surrounding Property Summary Findings

Historically, the adjoining and surrounding properties consisted of agricultural lands as early as 1937. Areas to the south and west have been used for industrial/ commercial purposes since the late 1970s to date. The area to the east has been used as a construction materials storage area since the mid-2000 to date. The north adjoining property has remained vacant since the 1970s.

Of note, adjoining properties were identified on regulatory databases indicative of environmentally sensitive operations. Please refer to Section 5.1.2 for additional discussion.

Sources of Historical Information

The following table summarizes the time interval and sources of information reviewed to determine the historical use of the Subject Property, as well as the adjoining and surrounding area.

4.1 Topographic Maps

CBRE reviewed the following historical topographic maps of the Subject Property and vicinity, as provided by EDR and included in the Maps and/or Historical Aerial Photographs Appendix of this report. The following is the summary of the topographic maps reviewed:

Topographic Maps		
Year	**Subject Property**	**Adjoining and Surrounding Properties**
1922	Vacant land	The immediate adjoining properties are vacant lands. Farther to the north is the Madera Canal. Farther to the northeast is Madera City. Farther to the south is Cottonwood Creek and a railroad. Sparse buildings are observed in the surroundings.
1946 1947	Vacant land	Areas farther to the northeast is shaded, indicating a developed area. No other significant change.

Topographic Maps		
Year	**Subject Property**	**Adjoining and Surrounding Properties**
1963	Vacant land	To the west, across a dirt road and a canal/ ditch, are vacant lands. Farther to the northwest, is a *sewage disposal area.* Farther to the north is shaded indicating a developed area. Farther to the southeast, an area is labeled as *Storage Bins*. Additional canals/ ditches and agricultural fields are observed in the surrounding areas.
1981	Vacant land	To the northeast, are two buildings. To the southwest, across a road and a canal/ditch is one large building. To the west, across a road and a canal/ditch is one building. Areas farther to the northwest are shaded indicating developed land.
2012 2015 2018 2021	The most recent US topographic maps reviewed are a graphic representation of The National Map digital data. Some features depicted on traditional topographic maps, such as pipelines and buildings, are absent because suitable data is not currently available.	

A review of topographic maps did not identify environmental concerns to the Subject Property.

4.2 Fire Insurance Maps

Historical fire insurance maps produced by the Sanborn Map Company were requested from EDR to evaluate past uses and relevant characteristics of the Subject Property and surrounding properties. Sanborn Maps were not available for the Subject Property and vicinity.

4.3 Aerial Photographs

Aerial photographs provided by EDR were reviewed to identify historical features of the Subject Property and vicinity that are considered an environmental concern. Aerial maps are located in the Maps and/or Historical Aerial Photographs Appendix of this report. The following is the summary of the aerial photographs reviewed:

Aerial Photographs		
Year	**Subject Property**	**Adjoining and Surrounding Properties**
1937 1946	Agricultural land (row crops)	To the north, is agricultural land. To the east is agricultural land (orchards). To the south is agricultural land. To the west, across a canal is agricultural land. Farther to the southeast and south is a canal/creek. Sparse dwellings/ farm-related constructions are observed in the surroundings.

Aerial Photographs		
Year	**Subject Property**	**Adjoining and Surrounding Properties**
1950	Agricultural land	To the southeast, are two buildings. Farther to the northwest, an area is observed under construction with ASTs. No other significant change.
1957	Agricultural land	Farther to the northwest, a sewer disposal area is observed with associated ASTs and pits. Farther to the north, there is an increase in urban development. No other significant change.
1962 1972	Apparent vacant land	Similar to the previous aerial photograph.
1978	Vacant land	To the northeast, is a building. To the southwest, across a road is one large building. To the west, across a road is one building. To the northwest, across a road is one building. Farther to the northwest, the sewer disposal area has been razed.
1981	Cleared vacant land, with remains of vegetation along the east portion.	To the north, is vacant land. To the northeast is a building. To the east, is agricultural land. To the south, is vacant land. Farther to the northwest, is vacant land and a park.
1984	Vacant land	Similar to the previous aerial photograph.
1998	Vacant land; disturbed/accumulated material is observed on the east portion	To the south, is a large industrial building. To the west, across a road, the building has been improved with additions. Farther to the northwest, the vacant area has been incorporated as part of the park.
2006	Similar to the previous aerial photograph.	To the east, is apparent construction material storage area. To the south, AST
2009 2012 2016 2020	Similar to the previous aerial photograph.	To the northeast, the prior improvements have been razed. No other significant change.

A review of aerial photographs dated 1998 to 2020 indicated the presence of disturbed/ accumulated material on the east-southeast portion. According to the ALTA Survey dated 2023, junk material, including wood, carpet, remains of old fences (wood and wire), an abandoned corral, railroad ties, and old fence posts, among others, was noted accumulated on the southeast portion. Accumulated material is not suspected of having impacted the Subject Property.

Of note, adjoining properties were identified on regulatory databases indicative of environmentally sensitive operations. Please refer to Section 5.1.2 for additional discussion.

4.4 City Directories

A historical City Directory Abstract provided by EDR was reviewed to assess the presence of historical occupants with potentially adverse environmental operations or conditions at the Subject Property and vicinity. The years and associated general uses and/or operations are summarized in the following table.

City Directory Abstracts		
Year	**Subject Property**	**Adjoining/Surrounding Properties**
1981	No listings	232 Schnoor Avenue- Robinson DE Manufacturing 300 Schnoor Avenue- City Fire Station No. 2
1985	No listings	200 Schnoor Avenue- City Fire Station No. 2 232 Schnoor Avenue- White Brothers Lbr Shol.
1990 1997	No listings	200 Schnoor Avenue- Madera Fire Department Operations 232 Schnoor Avenue- Bomanite Corporation
2000 2005	No listings	100 Schnoor Avenue- Madera Breakfast Lions, Matera Lions Club 200 Schnoor Avenue- Forestry & Fire Protection CA Department 323 Schnoor Avenue- Bomanite Corporation
2010	No listings	200 Schnoor Avenue- Madera Fire Department Operations, Pistoresi Ambulance.
2014 2017	No listings	232 Schnoor Avenue- Purl's Sheet Metal & Air Conditioning
2020	No listings	200 Schnoor Avenue- Pistoresi Ambulance 232 Schnoor Avenue- Purl's Sheet Metal & Air Conditioning

A review of City Directory Abstracts did not identify environmental concerns to the Subject Property.

Of note, adjoining properties were identified on regulatory databases indicative of environmentally sensitive operations. Please refer to Section 5.1.2 for additional discussion.

4.5 Chain-of-Ownership / Chain-of-Title

A copy of the Subject Property's Chain-of-Title has not been provided to CBRE for review.

4.6 Previous Reports, Plans, Surveys, and Other Historical Documentation

CBRE was provided the following previous environmental assessment of the Subject Property, which is included in the appendices. The information obtained was not verified for accuracy by CBRE and a critique of the report was beyond the scope of this assessment. The following is a summary of the documents provided for review:

Report Name / Address	Report Date	Preparer	Client
Geotechnical Engineering Investigation Proposed Storage Buildings Near the Southeast corner of Schnoor Street and Modoc Street, Madera CA	April 28, 2021	Salem Engineering Group, Inc.	Ms. Erin Volpp
Phase I ESA, West Industrial Avenue and Schnoor Avenue	September 21, 2021	EBI Consulting	Knighthead Funding, LLC
ALTA Survey, APN 009-330-011 S Schnoor Street, Madera CA 93637	September 29, 2021	Bed Rock Engineering	WHSE Partners

Reviewed Report Discussion:

Geotechnical Engineering Investigation - April 2021

According to this report, a geotechnical engineering investigation was conducted for the proposed storage buildings, which include four (4) storage unit buildings, with plan view areas ranging from 35,100 square feet to 37,050 square feet. At the time of this assessment, the area of the project site was vacant land. Based on the Google Historic Imagery database, there was no indication that the project site has been used for farming or commercial use in the past 25 years. The developed parcels surrounding the site were generally been used for residential and commercial/light industrial uses.

In general, the soils encountered predominantly consisted of firm to stiff sandy silty clay, underlain by medium dense sandy silt, clayey silty sand, and poorly graded sand with silt, to the maximum depth explored of 35 feet below site grade. Cemented soil which is locally called Hardpan, was encountered at various depths between 8 feet and 16 feet below the site grade.

The test boring locations were checked for the presence of groundwater during and after the drilling
operations. Free groundwater was not encountered during this investigation.

Please refer to Section 3.5 for additional pertinent information.

Phase I ESA - September 2021

According to this report, the Subject Property included one rectangular-shaped parcel, totaling approximately 16.57 acres. At the time of this assessment, the Subject Property was vacant land that had been cleared and graded for development. There were no manufacturing or industrial operations conducted at the Subject Property.

Historically, the Subject Property was agricultural land from 1937 to 1957. Vacant land from the early 1960s to 2016.

The assessment did not identify any RECs, CRECs, or HRECs in connection with the Subject Property. No further investigation was recommended.

ALTA Survey - 2023

According to this report, the Subject Property consisted of 18.66 acres of vacant land identified with APN 009-330-011. No buildings or structures were present. An existing underground gas line for public utilities is located on the northeast corner. A 15' wide easement for public utilities in favor of Pacific Gas & Electric, recorded on May 15, 1953, was noted on the survey.

The southwest portion of the property was noted to contain junk material, including wood, carpet, remains of old fences (wood and wire), an abandoned corral, railroad ties, and old fence posts, among others.

According to the information per municipal code 2020 S-45, the Subject Property was zoned as industrial (IP).

5.0 REGULATORY RECORDS

Summary Findings

Results of the regulatory database and regulatory records review did not identify environmental concerns to the Subject Property.

5.1 Regulatory Database

The Regulatory Database Report documents the listing of sites identified on federal, state, and local (when applicable) standard source environmental databases within the approximate minimum search distance (AMSD) specified by ASTM Standard Practice for Environmental Site Assessments E 1527-21. A copy of the Regulatory Database Report is in the Appendices and is used to identify RECs in connection with the Subject Property. The listings serve to identify the known indications of the storage, use, generation, disposal, or release of hazardous substance at the Subject Property and the potential for contaminants to migrate onto the Subject Property from off-site sources in groundwater, or soil in the form of liquids or vapor.

The following table lists the number of sites as categorized by the regulatory database within the prescribed AMSD.

Database Reviewed	AMSD (Mile)	Subject Property	Adjoining	Surrounding	Total Within AMSD
Federal NPL Sites	1.00				0
Federal SEMS Sites	0.50				0
SEMS-ARCHIVE (No Further Action) Sites	0.50				0
Federal RCRIS TSD Sites	0.50				0
Federal RCRIS Generators Sites	Subject Property / Adjoining		✔		2
Federal CORRACTS Sites	1.00				0
Federal ERNS Site	Subject Property				0
Federal IC/EC Registries	Subject Property				0
Federal FINDS Site	Subject Property				0
State and Tribal Equivalent NPL Sites	1.0				0

Database Reviewed	AMSD (Mile)	Subject Property	Adjoining	Surrounding	Total Within AMSD
State and Tribal Lists of SEMS Equivalent Sites (former Equivalent CERCLIS)	0.50			✔	3
State and Tribal Landfills or Solid Waste Sites	0.50				0
State and Tribal Registered Storage Tank Sites	Subject Property / Adjoining		✔		1
State and Tribal Leaking Storage Tank Sites	0.50			✔	9
State and Tribal IC/ EC Registries	Subject Property				0

State and Tribal Brownfields Sites	0.50				0
Other Regulatory Databases	Subject Property / Adjoining	✔	✔		8

5.1.1 Subject Property Listings and Findings

Madera Industrial Warehouse, at 325 S Schnoor Avenue, was identified on the NPDES and CIWQS regulatory databases. The Subject Property was identified with one NPDES Construction Permit No. CAS000002 was issued on November 16, 2021, under the status of *Terminated* as of March 10, 2023. This former stormwater permit associated with construction activities is not suspected to be of environmental concern.

5.1.2 Adjoining / Surrounding Property Listings and Findings

CBRE considered the following factors to determine if sites on the list have a likelihood to represent an environmental concern to the Subject Property:

- The regulatory status and specific database listing on which the site is identified.
- The topographic position, direction, and distance of the identified site relative to the Subject Property.
- Local soil conditions in the Subject Property area.
- The known or inferred groundwater flow direction in the Subject Property area.

- Surface and subsurface obstructions and preferential pathways (e.g., buildings, roads, sewers, utility service lines, rivers, lakes, and ditches) between the identified site and the Subject Property.

Adjoining Properties

Sealed Air Corporation, at 1835 W Almond Avenue adjacent to the south, was identified on the CERS HAZ WASTE, ICIS, US AIRES, FINDS, ECHO, CUPA MADERA, and RCRA listings. This facility, with EPA ID CAL000195855, is listed on the NonGen/NLR database and has been identified as a non-generator of hazardous waste since 1999. The site is listed as a permanent state generator, and according to manifest documentation, in 2023, the site generated 0.50 tons of Non-regulated materials and waste petroleum distillates. This site is operated as a manufacturer of packaging products and is listed in the CUPA database for hazardous materials inventory including amines, gearbox oil, heat transfer fluids, polymers, resins, solvents, glycol, and isobutene (*during time assessment, isobutene ASTs and industrial silos were observed adjacent to the south*). While the isopropane tanks could be considered a fire or safety concern, they would not be considered a REC. The site is listed on the EMI and AIRS databases due to air emissions likely associated with the curing and reactions of packaging materials components. The site is also listed on the ICIS database with an Industrial Facility Storm Water permit likely associated with industrial activities. This facility is located at a distance of at least 80' from the Subject Property boundary. Groundwater in the area is expected to flow towards the southwest, which is away, not towards the Subject Property. This site was not cross-referenced on any regulatory databases that report hazardous waste releases or other contamination conditions. Based on the lack of regulatory records, distance, and groundwater direction, this site is not considered a REC at this time.

Bomanithe Corporation, at 232 South Schnoor Avene, to the west, across S Schonoor Avenue was identified on the CUPA MADERA, HWTS, HAZNET, ECHO, and RCRA listings. This facility, with EPA ID CAR000070987, was listed in 2000 as a Small Quantity Generator of corrosive wastes, chromium, and spent nonhalogenated solvents. According to manifest documentation, in 2007 the site generated 3.89 tons of waste paint, waste corrosive liquids, and NonRCRA hazardous waste liquids. This site's operations were located at a distance of at least 120' from the Subject Property boundary and at least 300' from the nearest Subject Property building. Based on the assumed down-gradient position, and actual distance, this site is not considered a REC to the Subject Property.

Fire Station 2, at 200 South Schnoor Avenue, to the northwest, across S Schnoor Avenue, was identified on the SWEEPS UST, HIST UST, CUPA MADEA, HWTS, and HAZNET regulatory databases. This facility has a record of one 1,000-gallon diesel and one 1,000-gallon gasoline UST installed in 1978. The site, with EPA ID CAC001157344, was listed as a temporary state generator and, during 1996, generated 0.10425 tons of Unspecified oil-containing waste. No additional information was available regarding the status of these tanks. However, the site was not cross-referenced on any regulatory databases that report hazardous waste releases or other contamination conditions. In addition, the site has a record of two 850-gallon tanks for motor vehicle fuel under the status of active. The site is listed in the CUPA database for hazardous materials inventory, including oxygen. This site's operations are located at a distance of at least

180' from the Subject Property boundary and at least 530' from the nearest Subject Property building. Based on the assumed cross-gradient position, and actual distance, this site is not considered a REC to the Subject Property.

Surrounding Properties

Given a variety of factors including intervening distance, groundwater flow, the farthest known extent to the contamination, and/or regulatory status, the sites in the surrounding area identified during CBRE's regulatory database review are not considered a REC to the Subject Property.

5.1.3 Discussion of Orphan Sites

The regulatory database identified six "Orphan Sites." Orphan Sites are those sites that could not be mapped or "geocoded" due to inadequate address information. CBRE attempted to locate these sites via a review of street maps, vehicular reconnaissance and/or interviews with people familiar with the area. Based on the information reviewed by CBRE, no Orphan Sites were identified within the AMSD.

5.2 Government Records Review and Findings

Summary of Findings

The following table summarizes regulatory agencies that were contacted for records and the response status on the Subject Property and/or surrounding sites of interest.

Agency	Contact Name/Title	Contact Phone/Email/ URL	Date	Response
Building Dept.	Online	buildinginfo@madera.gov	04/19/24	No
Tax Assessor	Online	assr.parcelquest.com/	04/19/24	Yes
Fire Dept.	Online	www.madera.gov/home/departments/city-clerk/public-records-request-form	04/19/24	No
Madera County Health Dept.	Online	publichealth@maderacounty.com	04/19/24	No
CALEPA	Online	siteportal.calepa.ca.gov	04/19/24	Yes
HWTS	Online	hwts.dtsc.ca.gov	04/19/24	Yes
SWRCB	Online	geotracker.waterboards.ca.gov	04/19/24	Yes

5.2.1 Municipal Records Review and Interviews

The status of the request for information and/or interviews from municipal agencies is described below:

Building Department
Although no response has been received as of the date of this report, there is a Certificate of Occupancy issued for a new commercial building, identified as Madera Industrial WHSE, for a construction type/occupancy type of industrial, dated May 18, 2023. According to the CofO the property is owned by Madera Industrial WHSE.
Tax Assessor
According to the tax assessor records, the Subject Property is identified on local tax maps as parcel # 009-330-011. The Subject Property consists of one parcel totaling 16.57-acre parcel. The existing Subject Property improvements were constructed in 2023 with the effective year of 2023 on the south portion. The Subject Property consists of 35,100 SF buildings. Of note, other sources indicate: • 18.66 acres (18.37 acres net) per ALTA Survey and • 18.66 acres, with 9.12 acres developed on the south portion with four industrial buildings, per PSQ
Fire Department
No response received as of the date of this report.
Madera County Health Department
No response received as of the date of this report.
Zoning Department
According to the available zoning information, the Subject Property is zoned Industrial.

5.2.2 State Agency Records Review and Interviews

The status of the request for information from state agencies and the information received is described below:

California Environmental Protection Agency (CALEPA)
CBRE reviewed the CalEPA portal for information related to hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials on the Subject Property. No such items were identified on the Subject Property.

California State Water Resources Control Board (SWRCB)
CBRE reviewed the Regional Water Quality Control Board (GeoTracker) online database system for any available records on the Subject Property. GeoTracker is the Water Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. GeoTracker contains records for sites that require cleanup, such as Leaking Underground Storage Tank (LUST) Sites, Department of Defense Sites, and Cleanup Program Sites. GeoTracker also contains records for various unregulated projects as well as permitted facilities including: Irrigated Lands, Oil and Gas production, operating Permitted USTs, and Land Disposal Sites. No such items were identified on the Subject Property.
Hazardous Waste Tracking System (HWTS)
CBRE reviewed the Hazardous Waste Tracking System (HWTS), the California Department of Toxic Substances Control's (DTSC) data repository for hazardous waste manifest and ID Number information. No records were identified for the Subject Property. No such items were identified on the Subject Property. Records associated with adjoining properties were identified and have been incorporated into the discussions located in Section 5.1.2. Copies of pertinent records can be found in the Appendices.

5.2.3 Environmental Permits

Based on available information reviewed by CBRE, no environmental permits such as wastewater discharge, National Pollutant Discharge Elimination System (NPDES), air emissions, or petroleum storage tank (UST or AST) registrations are required at the Subject Property.

6.0 QUESTIONNAIRES AND INTERVIEWS

CBRE sent a User Questionnaire to the User or conducted interviews as tabulated below. The purpose of the User Questionnaire is to determine the User's knowledge of environmental concerns related to the Subject Property. The purpose of the interviews is to obtain information indicating potential RECs in connection with the Subject Property, which were not apparent during CBRE's site reconnaissance or historical review. This includes hazardous waste or toxic material releases and affected media, and conditions, which may not have been apparent at the time of the site reconnaissance, and to satisfy the User interview and all appropriate inquiry requirements.

Interview / Questionnaire Response Summary

Interviews / Questionnaires				
Name	**Affiliation**	**Telephone No.**	**Questionnaire**	**Interview**
Ladder Capital Corp	User	917.369.3253	Not Completed	Not Completed
Erin Volpp	Chief Operating Officer, WHSE Partners	323.601.2750	Completed	Completed
Michael Smith	Property Manager, WHSE Partners	559.554.5223	Not Completed	Completed

The information obtained from interviews identified no environmental concerns associated with the Subject Property.

6.1 Subject Property Representative Interviews

6.1.1 User

The User did not provide a completed User Questionnaire; however, a completed Pre-Survey Questionnaire (PSQ) was provided by Erin Volpp, COO, WHSE Partners and is included in the Appendices.

6.1.2 Key Site Manager

Historical Site Use

According to Erin Volpp, the Chief Operating Officer, who has been involved with the Subject Property for the past 3 years, the Subject Property consists of 18.66 acres tract of land, with 9.12 acres developed with four industrial buildings. There is one stormwater retention area on the northeast portion. Historically the Subject Property was vacant land prior to the construction of the current improvements.

Proceedings Involving the Subject Property

According to Erin Volpp, they had no knowledge of pending, threatened, or past litigation, administrative proceedings, or notices from governmental agencies regarding violations of environmental laws regarding hazardous substances or petroleum products involving the Subject Property. Further, they were unaware of any environmental liens or Activity and Use Limitations (AULs) related to the Subject Property.

6.1.3 Occupants/Operators

Additional occupants were not interviewed as part of this assessment.

6.1.4 Past Owners

CBRE was unable to locate the former owner of the Subject Property.

7.0 SITE RECONNAISSANCE

Summary Findings

Based on the observations or other information obtained during the site reconnaissance no environmental concerns were identified.

7.1 Site Reconnaissance Information

Site Visit Date	April 19, 2024
CBRE Representative	Carolina Cortes Ortiz
Site Escort, Title, Contact Information	Michael Smith, Property Manager,
Weather Conditions	Sunny, 80' F

7.2 Site Reconnaissance Observations

During the Subject Property reconnaissance, CBRE conducted a visual assessment for indications of environmental concerns at the Subject Property. Consistent with the ASTM Standard, an effort was made to identify the presence of the following tabulated items, which could indicate the potential presence of RECs on the Subject Property. Observations at the Subject Property are described in greater detail below the table.

Subject Property Reconnaissance Observations	Observed on Subject Property
Chemical Storage and Use	Yes
Bulk Storage Tanks	
• USTs	No
• ASTs	No
Waste	
Non-Hazardous Wastes	
• Solid Waste (e.g. Municipal and Non-Hazardous Waste)	Yes
• Liquid Waste (e.g. Cooking Grease)	No
• Sanitary Waste (e.g. Municipal System and/or Septic Systems Features)	Yes
Hazardous Wastes	
• Solid Waste	No
• Liquid Waste (e.g. Wastewater, Petroleum Products, Process Waste)	No
• Universal Waste (e.g. Electronics, Batteries, Fluorescent Light Bulbs)	No

Subject Property Reconnaissance Observations	Observed on Subject Property
Other Wastes (e.g. Medical Wastes, Pharmaceuticals, Scrap Metal, Construction Debris)	Yes
Floor Drains and Sumps	Yes
Transformers and other Electrical Equipment	Yes
Elevators and Lifts	Yes
Compactors, Balers, and Other Mechanical Equipment	No
Stained Soil, Stained Pavement, Stressed Vegetation, and Pooled Liquid, and/or Odors	No
On-Site Fill	No
Wells	No
Pits, Ponds and Lagoons	No
Stormwater (e.g. On-site retention and/or detention features)	Yes
Air Emissions	No
Other Potential Environmental Concerns Observed	No

7.3 Chemical Storage and Usage

The Subject Property operates as multi-tenant industrial buildings. No manufacturing, fabrication, or assembly operations are conducted. Limited amounts of maintenance and cleaning supplies are present but are used in small quantities. The storage of these materials appeared satisfactory.

7.4 Waste

7.4.1 Non-Hazardous Waste

Solid Waste

Non-hazardous solid waste is disposed of in dumpsters and is removed from the Subject Property on a regular basis by Mid Valley Disposal. Potential sources of contamination, such as waste oil or automobile batteries, were not observed in the vicinity of the dumpsters.

Sanitary Waste

No operations, likely to require a significant wastewater discharge, were noted by or reported to CBRE. Water that enters the sanitary system is routed to the city's treatment plant.

7.4.2 Other Waste

Aftermath Services, tenant of Suite 101 Building 355, provides crime scene, trauma, and biohazard remediation services conducted off-site. Biohazard containers were observed temporarily stored in the tenant space and are periodically removed by Streiclycle. Housekeeping was observed to be generally satisfactory. Based on reported off-site disposal and observations, CBRE does not have any environmental concerns regarding on-site biomedical waste generation and storage.

7.5 Floor Drains and Sumps

Standard interior sanitary drains were noted. The drains tie into the municipal sanitary system. No staining indicative of dumped materials was noted.

No sumps, oil/water separators, grease traps/interceptors, or clarifiers were noted or reported.

7.6 Transformers and Other Electrical Equipment

CBRE observed utility-owned, pad-mounted transformers at the Subject Property. Based on the date of construction of the Subject Property improvements, it is unlikely that the transformers, which were not labeled, contain PCBs. The electrical equipment CBRE observed appeared to be in good condition, free of leakage.

In accordance with *Title 40—Protection of Environment, Chapter 1—Environmental Protection Agency, Subchapter R—Toxic Substance Control Act (TSCA), Part 761—Polychlorinated Biphenyls (PCBs), Manufacturing, Processing, Distribution in Commerce, and Use Prohibitions*, the owner of the transformers, Pacific Gas and Electric Company (PG&E), is responsible for the transformers' maintenance and remediation in the event of a leak.

7.7 Elevators and Lifts

KKM Driver Development, tenant of Suite 105, Building 345, occupies the suite for storage of racing cars and operates two hydraulic aboveground lifts for car adequation. The lifts appeared to be in good condition and showed no signs of leaks or staining in the immediate vicinity. The manufacture of PCBs was banned in 1979. Based on the age of the Subject Property, it is unlikely that PCB-containing hydraulic fluid is present within the equipment on-site.

7.8 Stormwater

Stormwater runoff collected by catch basins and roof drains is discharged into a stormwater retention pond located on the northeast portion of the Subject Property.

8.0 ASTM NON-SCOPE CONSIDERATIONS

Summary Findings

Observations and/or documentation related to the ASTM Non-Scope Considerations addressed in this section resulted in no identification of BERs or other environmental concerns.

8.1 Asbestos-Containing Materials (ACM)

Based on the age of the Subject Property improvements, it is unlikely that appreciable quantities of asbestos-containing materials (ACM) have been used in the construction of the existing improvements; however, flooring materials, mastics, and caulking may contain asbestos. These materials are in good condition and the potential for fiber release is low. In the event that building maintenance, renovation, or demolition requires the removal or disturbance of the suspect ACM, the materials should be characterized for asbestos by a reliable method. All activities involving ACM should be conducted in accordance with governmental regulations.

8.2 Lead-Based Paint (LBP)

Since the Subject Property was constructed after the Consumer Product Safety Commission's 1978 ban on the sale of LBP to consumers and the use of LBP in residences, it is unlikely that LBP exists in locations and quantities suspected to represent an environmental concern.

8.3 Water Intrusion, Staining and Potential Microbial Growth

Although microbial growth is ubiquitous and may occur in a very short time span, an effort was made to identify conspicuous microbial growth and areas of apparent water intrusion/staining in the common areas surveyed.

No visual or olfactory indications of water damage or microbial growth were observed. No concerns regarding microbial growth or musty smells were reported to CBRE.

8.4 Lead in Drinking Water

The Subject Property receives its drinking water from Madera Water Service. According to the 2022 water quality report, the utility tests its water before it enters the distribution system. The water supplied to the Subject Property reportedly meets federal and state drinking water standards, including those for lead and copper.

8.5 Wetlands

CBRE reviewed the applicable United States Fish and Wildlife Service National Wetlands Inventory (NWI) map and USGS quadrangle map. Based on this information, no wetland resources were identified on or adjoining the Subject Property.

8.6 Radon

According to the radon zone maps provided by the USEPA, radon concentrations in Madera County average between 2.0 to less than 4.0 pCi/L, which is below the 4.0 pCi/L action level established by the USEPA and places the Subject Property in an EPA Radon Zone 2. Based solely on this data, radon does not represent an environmental concern at this time.

8.7 Emerging Contaminants

Substances Not Defined as Hazardous Substances—As defined in 3.2.36 of ASTM 1527-21, hazardous substance means "those substances defined as a hazardous substance pursuant to CERCLA 42 U.S.C. § 9601(14), as interpreted by EPA regulations and the courts." There are some substances that are not defined (or not yet defined) as hazardous substances under CERCLA through interpretation by EPA regulations and the courts. These substances may include: (1) some substances that occur naturally or through biological digestion (for example, methane), and (2) substances about which human understanding is evolving (e.g., per- and polyfluoroalkyl substances, also known as "PFAS").

The following PFAS ECHO listings were reported for the surrounding properties:

- Newark Solidboards Products, approximately 766 feet to the southwest
- HMC, at approximately 1,299 feet to the west

No violations were listed regarding PFAS. EPA did not carry out the sampling or testing of a majority of the data in the PFAS dataset. ECHO records are restricted to potential PFAS-handling industry sectors identified from literature reviews and field investigations by several EPA offices. The inclusion of a facility in the ECHO PFAS Industry Sectors dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. As such, absent additional information to the contrary, these facilities and the associated PFAS ECHO listing are not considered a REC at this time.

9.0 VAPOR ENCROACHMENT CONDITIONS (VECS)

CBRE conducted a "Tier I" (non-intrusive) Vapor Encroachment Screening (VES) on the Subject Property in accordance with the methodology set forth in ASTM E 2600-22 "*Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*". During the VES, the Area of Concern (AOC) was minimized using the methodology in the ASTM Screening for Vapor Encroachment onto Property Involved in Real Estate Transactions. The purpose of the Tier I VES is to conduct an initial screen to identify, to the extent feasible, the potential for a vapor encroachment condition (VEC) in connection with the Subject Property with respect to chemicals of concern that may migrate as vapors into the vadose zone of the Subject Property as a result of contaminated soil and/or groundwater on or near the Subject Property.

This VES utilized readily available data sources previously discussed in this Phase I ESA to include the type of soils, geology and groundwater characteristics of the Subject Property area (Section 3.5 Physical Site Setting) as well as known or potentially contaminated sites as identified on Federal, State, tribal and local databases. CBRE also utilized previously discussed standard historical sources of information to identify potential historical sources of contamination on the Subject Property and surrounding properties which may be indicative of a VEC. This data collection and analysis was coupled with our site reconnaissance of the Subject Property and surrounding properties.

Historical and current uses of the Subject Property were not identified to likely represent a VEC. Additionally, impacted properties were identified in CBRE's regulatory database review; however, based upon groundwater flow direction and/or the furthest known extents of the contamination, none of these properties are suspected of having petroleum or chemical contaminant plumes that would be identified as a VEC. Therefore, CBRE concludes that a VEC can be ruled out.

10.0 ENVIRONMENTAL PROFESSIONAL STATEMENT AND SIGNATURE

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of 40 C.F.R. 312.

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. I have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 C.F.R. Part 312.

Signature of EP:

Name of EP: Rachael Bailey

Title: VP, Environmental Assessment, EP

Date: April 25, 2024

11.0 LIMITING CONDITIONS

This report has been prepared in compliance with the ASTM standard entitled "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" E1527-21.

The observations described in this report were made under the conditions stated herein. The conclusions presented in the report were based solely upon the services described therein, and not on scientific tasks or procedures beyond the scope of described services within the constraints imposed by the client. The work described in this report was carried out in accordance with the Terms and Conditions of the contract.

In preparing this report, CBRE has relied on certain information provided by federal, state, and local officials and other parties referenced therein, and on information contained in the files of governmental agencies, that were readily available to CBRE at the time of this assessment. Although there may have been some degree of overlap in the information provided by these various sources, CBRE did not attempt to independently verify the accuracy or completeness of all information reviewed or received during the course of this site assessment.

Observations were made of the Subject Property and of the structures on the site as indicated in this report. Where access to portions of the site or to structures on the site was unavailable or limited, CBRE renders no opinion as to the presence of direct or indirect evidence relating to petroleum substances, hazardous substances, or both, in that portion of the Subject Property and structure. In addition, CBRE renders no opinion as to the presence of indirect evidence relating to hazardous material or oil, where direct observation of the ground surface, interior walls, floors, ceiling, or a structure is obstructed by objects or materials, including snow, covering on or over these surfaces.

CBRE submitted requests for information in accordance with the Freedom of Information Act (FOIA) to various governmental agencies. As of the date of this report, responses to some or all these requests may not have been received.

CBRE does not represent that the Subject Property referred to herein contains no petroleum or hazardous or toxic substances or other conditions beyond those observed by CBRE during the site reconnaissance, the information referenced or discussed in the report, and analysis of the database search results.

CBRE has produced this document under an agreement between CBRE and Ladder Capital Corp. All terms and conditions of that agreement are included within this document by reference. This report is the property of CBRE and Ladder Capital Corp and was prepared for a specific purpose and reliance as defined within the agreement between CBRE and Ladder Capital Corp. Except as permitted in the Agreement between CBRE and the Client, this report is not to be relied upon by any party other than Ladder Capital Corp and is not to be used for any purpose not specifically stated in the agreement with Ladder Capital Corp or within this Report's Section 2.1. The Phase I report is only viable based on the intended transaction (acquisition or non-acquisition) necessitating the report and associated time frames as specified in ASTM E1527-21, Section 4.6.

Unless specifically identified within Section 2, Chinese drywall, indoor air quality, and any other non-ASTM scope issues as identified in ASTM E1527-21, Section 13.1.5, are excluded from the scope of this assessment.

ACRONYMS AND DEFINITIONS

This ESA uses various acronyms and abbreviations to describe site, regulatory, or regulatory database phrases. Not all acronyms or abbreviations are applicable to every ESA. Refer to the commonly used acronyms and related phrases below.

Acronym	Phrase
AAI	All Appropriate Inquiry
ACM	Asbestos-Containing Material
AHERA	Asbestos Hazard Emergency Response Act
AST	Aboveground Storage Tank
ASTM	American Standard for Testing Materials International
BRA	Brownfield Redevelopment Authority
CAA	Clean Air Act
CERCLA	Comprehensive Environmental Response Compensation and Liability Act
CERCLIS	Comprehensive Environmental Response Compensation and Liability Information System
CESQG	Conditionally Exempt Small Quantity Generator
COC	Chemicals of Concern
CORRACTS	Corrective Action Sites
CREC	Controlled Recognized Environmental Condition
DEQ	Department of Environmental Quality
DNPL	Delisted National Priority List
DNR	Department of Natural Resources
DTSC	Department of Toxic Substances Control
ENG	Engineering
ERNS	Emergency Response Notification System
FEMA	Federal Emergency Management Agency
FOI	Freedom of Information
FOIA	Freedom of Information Act
FOIL	Freedom of Information Letter
HASP	Health and Safety Plan
HREC	Historic Recognized Environmental Condition
HUD	U.S. Department of Housing and Urban Development
HVAC	Heating Ventilation & Air Conditioning
IAQ	Indoor Air Quality
INST	Institutional

Acronym	Phrase
LBP	Lead-Based Paint
LQG	Large Quantity Generator
LUST	Leaking Underground Storage Tank
MSDS	Material Safety Data Sheet
NFA	No Further Action
NFRAP	No Further Remedial Actions Planned
NPDES	National Pollutant Discharge Elimination System
NPL	National Priority List
OSHA	Occupational Safety and Health Administration
PCA	Property Condition Assessment
PCBs	Polychlorinated Biphenyls
PCR	Property Condition Report
PNAs	Polynuclear Aromatics
RAP	Remedial Action Plan
RCRA	Resource Conservation and Recovery Act
RCRIS	Resource Conservation and Recovery Information System
REC	Recognized Environmental Condition
RWQCB	Regional Water Quality Control Board
SARA	Superfund amendments and Reauthorization Act
SCAQMD	South Coast Air Quality Management District
SQG	Small Quantity Generator
SVOC	Semi-Volatile Organic Compounds
TSCA	Toxic Substance Control Act
TSDF	Treatment Storage and/or Disposal Facility
USEPA	United States Environmental Protection Agency
UST	Underground Storage Tank
VOC	Volatile Organic Compound
WWTP	Wastewater Treatment Plan

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by CBRE were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by CBRE were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/04/2023 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/04/2023 has revealed that there are 7 RCRA-SQG sites within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/22/2024 has revealed that there are 5 ENVIROSTOR sites within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 3 SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/04/2023 has revealed that there are 7 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 12/28/2023 has revealed that there are 2 PFAS ECHO sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 15 CUPA Listings sites within approximately 0.25 miles of the target property.

HIST CORTESE: The sites for the list are designated by the State Water Resource Control Board [LUST], the Integrated Waste Board [SWF/LS], and the Department of Toxic Substances Control [CALSITES]. This listing is no longer updated by the state agency.

A review of the HIST CORTESE list, as provided by EDR, and dated 04/01/2001 has revealed that there are 7 HIST CORTESE sites within approximately 0.5 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 5 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators,

Environmental Interest/Information System:
The Risk Management Plan (RMP) database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
ICIS-Air (AIR) AIR is the modernization of the Air Facility System (AFS) into the Integrated Compliance Information System (ICIS). AIR contains enforcement, compliance, and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the

SEALED AIR - MADERA (Continued) **1006825950**

Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Citation: 19 CCR 4.5 2765.1(b) - California Code of Regulations, Title 19, Chapter 4.5, Section(s) 2765.1(b)
Violation Description: Failure of a stationary source whose employees will not respond to accidental releases of regulated substances to meet the following: 1. With only regulated toxic substances held in a process above the threshold quantity, is included in the community emergency response plan developed under Section 11003 of Title 42 of the United States Code (USC), is included in the city or county Hazardous Materials Area plans, and/or is included in the business plan program, pursuant to Section 25507 of the Health & Safety Code. The owner or operator must document that response actions have been coordinated with the local fire department and hazardous materials response agencies; 2. With only regulated flammable substances held in a process above the threshold quantity, the owner or operator must document that response actions have been coordinated with the local fire department and hazardous materials response agencies; and, 3. Appropriate mechanisms and written procedures are in place to notify emergency responders when there is a need for a response.
Violation Notes: Returned to compliance on 08/14/2018. The owner/operator of a facility that does not respond to accidental releases of regulated substances failed to meet the following: If only regulated flammable substances, the owner or operator failed to document that response actions have been coordinated with the local fire department and hazardous materials response agencies; and/or appropriate mechanisms and written

SEALED AIR - MADERA (Continued) **1006825950**

procedures are not in place to notify emergency responders when there is a need for a response. Owner/operator indicated that a copy of the emergency action/response plan has been provided and sites visits have been conducted by the local fire department but no documentation was available. CORRECTIVE ACTION: By August 17, 2018 submit documentation demonstrating the owner/operator has met the requirements noted above.

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 04/01/2022. H511: Ensure hazardous waste is properly disposed of within 180 days of start accumulation date. Inspector observed 1 55-gallon steel drum of used solvents and 1 55-gallon steel drum of used paint in the bone yard with start accumulation date of "1/4/2021". Corrective Action: Provide manifests for 55-gallon steel drum of used solvents and used paint as proof of properly disposing waste.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Section Seven Tracking System (SSTS) tracks the registration of all pesticide-producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and related devices that are produced, sold, or distributed.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

EVAPCO WEST INC (Continued) **1000594320**

The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

CONTECH CONSTRUCTION PRODUCTS, INC (Continued) **S101481095**

Violation Source:	CERS,
Site ID:	389413
Site Name:	CARRIS REELS OF CALIFORNIA INC
Violation Date:	09-06-2022
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal of acute/extremely hazardous waste after the first 1-kilogram threshold amount was accumulated within a 90 day period.
Violation Notes:	Returned to compliance on 09/14/2022. OBSERVATION: Owner/Operator who is a generator of <100 kg/mth failed to send hazardous waste offsite for treatment, storage, or disposal within 180/270 days of accumulating 100 kilograms, or within 90 days of accumulating 1 kg of extremely/acutely hazardous waste. Inspector observed used oil containers in the waste storage area on the south side of the property. CORRECTIVE ACTION: Dispose of hazardous waste and submit a copy of the manifest/receipt to the CUPA. Ensure that hazardous waste is not stored for more than 180/270 days after the accumulation period begins, and that acute/extremely hazardous waste is not stored for more than 90 days after accumulating 1 kilogram.

Citation: 19 CCR 6.95 25508(a)(1) - California Code of Regulations, Title 19, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit the Business Activities Page and/or Business Owner Operator Identification Page.
Violation Notes: Returned to compliance on 03/15/2016. HM15: Update the business/owner operation page on CERS.
Violation Division: Madera County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 389413
Site Name: CARRIS REELS OF CALIFORNIA INC
Violation Date: 09-06-2022
Citation: 22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter 11, Section(s) 66261.7
Violation Description: Failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner liner to a person who reclaims its scrap value; or (3) By reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being emptied.
Violation Notes: Returned to compliance on 09/14/2022. OBSERVATION: Owner/Operator failed to properly manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste. Inspector observed an empty 55 gallon steel drum that used to contain kerosene at the maintenance shop. CORRECTIVE ACTION: Submit photos/documentation to the UPA demonstrating that the empty containers have been marked with the date they were emptied and are being properly managed pursuant to 22 CCR 11 66261.7.

Violation Program:	HMRRP
Violation Source:	CERS,

Site ID:	389413
Site Name:	CARRIS REELS OF CALIFORNIA INC
Violation Date:	03-10-2016
Citation:	22 CCR 15 66265.52 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.52
Violation Description:	Failure to include all of the following in the Contingency Plan: 1) A description of actions the facility personnel shall take response to fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water at the facility; 2) The plan shall describe arrangements agreed to by local police departments, fire departments, hospitals, contractors, and State and local emergency response teams to coordinate emergency services; 3) The plan shall list names, addresses, and phone numbers (office and home) of all persons qualified to act as emergency coordinator and this list shall be kept up to date. Where more than one person is listed, one shall be named as primary emergency coordinator and others shall be listed in the order in which they will assume responsibility as alternates; 4) The plan shall include a list of all emergency equipment at the facility (such as fire extinguishing systems, spill control equipment, communications and alarm systems (internal and external), and decontamination equipment), where this equipment is required. This list shall be kept up to date. In addition, the plan shall include the location and a physical description of each item on the list, and a brief outline of its capabilities; 5) The plan shall include an evacuation plan for facility personnel where there is a possibility that evacuation could be necessary. This plan shall describe signal(s) to be used to begin evacuation, evacuation routes, and alternate evacuation routes (in cases where the primary routes could be blocked by releases of hazardous waste or fires). 6) The plan shall include the current telephone number of the California Emergency Management Agency; and 7) If the owner or operator has already prepared a Spill Prevention, Control, and Countermeasures (SPCC) or some other emergency or contingency plan, the owner or operator need only amend that plan to incorporate hazardous waste management provisions that are sufficient to comply wit
Violation Notes:	Returned to compliance on 03/25/2016. HW03: Post Contingency Plan near phone and make sure personnel know where it is located.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Violation Program:	HW
Violation Source:	CERS,
Site ID:	63315
Site Name:	rubens automotive
Violation Date:	05-26-2021
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 06/01/2021. Inspector observed used oil tank (175 gallons) that had a start accumulation date of 10/14/20. Ensure hazardous wastes are not stored longer than 180 days from the start accumulation date of 10/14/20. Ensure hazardous wastes are not stored longer than 180 days from start accumulation date. Corrective Action: Provide manifest for used oil to show used oil was properly disposed of.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D007
Waste Description: Chromium

Waste Code: D008
Waste Description: Lead

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or

JOHN BEAN TECHNOLOGIES CORPORATION (Continued) **1000109395**

More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D007
Waste Description:	Chromium
Waste Code:	D008
Waste Description:	Lead
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	F003

JOHN BEAN TECHNOLOGIES CORP (Continued) **1024822135**

Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violation Date: 10-15-2015
Citation: HSC 6.5 25160(b)(3) - California Health and Safety Code, Chapter 6.5, Section(s) 25160(b)(3)
Violation Description: Failure to determine the status of any hazardous waste if a signed copy of the manifest isn t received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isn t received within 45 days of the date the waste was accepted by the initial transporter.
Violation Notes: Returned to compliance on 05/09/2017. Generator received Manifest # 002413432, with the signature of the owner or operator of the designated facility on Jan. 15, 2016. Shipment was sent for initial transport on Sept. 30, 2015. Designated facility copies should be received within 35 days of shipment. If not, generator shall contact the transporter and/or the designated facility to determine status.
If a copy is not received within 45 days, an exception report shall be submitted to DTSC. The generator shall meet the timelines above for manifest shipments meeting these conditions. No further actions required for Manifest #002413432.

Citation: 22 CCR 15 66265.173 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 09/11/2020. Observed in Yard area outside of Building A s entrance #11, a blue metal container (approximately 41 x 23 x 21 in size) that was approximately one-fourth partially full with oily liquid and only labeled with the word Water. Per maintenance personnel, container is used to collect only filtered water that is being drained from a detachable aboveground oil-water separator system via a hose. Per oil-water separator manufacturer specifications, oil is retained within the oil-water separator system and the filtered water may be directly introduced into the sewer system. Evapco personnel use this container to retain and inspect filtered water prior to discharging it as non-hazardous waste thus may indicate why no hazardous waste label was observed. The container, while having a hinged lid attached, was not properly closed and secured. The lid needs to be fastened to the container in a manner as to not prevent liquid hazardous waste contents from escaping unless adding or [Truncated]

CERS Description:	Chemical Storage Facilities

Violations:

Site ID:	104129
Site Name:	CENTRAL COATING COMPANY INC
Violation Date:	07-24-2023
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 08/29/2023. OBSERVATION: Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. Per O/O, Luke Nolan, the 8-55 gallon drum barrel that contains B Side Foam and A Side Foam has been store on site since summer of 2022. CORRECTIVE ACTION: Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Violation Date:	02-15-2019
Citation:	22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter 11, Section(s) 66261.7
Violation Description:	Failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner liner to a person who reclaims its scrap value; or (3) By reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being emptied.
Violation Notes:	Returned to compliance on 03/06/2019. H014:Outside east of "shop/storage building" the following was observed: -(42) Empty 55-gallon containers and (1) 275-gallon tote that once contained various types of acrylic primer & acrylic paint. -55-gallon containers were observed in up-side down position. Properly provide label indicating the date when containers and totes were first emptied and manage properly within a year. Corrected on Site 03-06-2019.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-24-2023
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: * No other violations observed * Shane Bartow (Operation Manager) present during inspection * Per OO, Luke Nolan (President) generation of hazardous waste varies and is based on how many jobs is done in a month. Inspector observed on manifest record dating from April 2023 - June 2023 an approximate 3,000 lbs of hazardous waste being picked up by Safety Kleen. Facility may no longer meet the Certified Exemption Small Quantity Generator Hazardous Waste status and may be bump to a Small Quantity Generator Hazardous Waste status. Waiting for 2021 & 2022 manifest records from O/O to properly determine if facility still meet the exemption as a small quantity generator.

Waste Code:	D018
Waste Description:	Benzene
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	D040
Waste Description:	Trichlorethylene
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

CARRIS REELS INC (Continued) **1004675701**

types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Citation:	HSC 6.95 25504(c) - California Health and Safety Code, Chapter 6.95, Section(s) 25504(c)
Violation Description:	Failure to include provisions in the business plan to ensure that appropriate personnel receive initial and annual training.
Violation Notes:	Returned to compliance on 07/03/2014.
Violation Division:	Madera County Environmental Health
Violation Program:	HMRRP
Violation Source:	CERS,
Site ID:	130166
Site Name:	LEES CONCRETE MATERIALS
Violation Date:	09-09-2021
Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description:	Failure to comply with one or more of the following requirements: 1. Have record of inspections and tests, including integrity tests, signed by the appropriate supervisor or inspector. 2. Keep written procedures and records of inspections and tests, including integrity tests, for at least three years. 3. Keep comparison records.
Violation Notes:	Returned to compliance on 02/28/2022. H112: SPCC Plan states that a "Pressure leak-down test" is performed annually on buried transfer pipe from the 10,000 gallon AST diesel tank to the fuel dispenser. Inspector was not provided proof of these tests. Corrective Action: Provide proof of all past tests conducted for aboveground storage tank and retain all testing/inspections performed on aboveground storage tank.

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE

LEE'S CONCRETE MATERIALS (Continued) **1000596844**

STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Violations:
Site ID: 390748
Site Name: Nutrien Ag Solutions -Madera Retail
Violation Date: 03-20-2018
Citation: HSC 6.67 25270.4.5 (a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5 (a)
Violation Description: Failure to amend the SPCC Plan within 6 months: 1. When the facility has had a change in design, construction, operation, or maintenance which affects the facility s discharge potential. AND/OR 2. To include more effective proven technology at the time of the 5-year SPCC Plan review and evaluation.
Violation Notes: Returned to compliance on 10/25/2018. The 2015 plan indicated the retail and herbicide/production aboveground tanks are steel on page 6. Crop oil tanks observed on-site are polyethylene for both retail and production. Plan not amended for production tanks. 2018 SPCC plan reviewed did not include the crop oil tanks for the herbicide/production process. Provide a complete plan by May 10, 2018.

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 04/10/2023. OBSERVATION: The business failed to electronically submit complete an accurate chemical inventory information for all hazardous materials on site at or above reportable quantities. During the site inspection, inspector observed at Facility 12 (Bulk Liquid Fertilizer) 6(six) 50,000 gallons aboveground tanks and 10(ten) 30,000 gallon tanks location at the west end of Facility 12 and 6(six) 30,000 gallons aboveground tanks on the north end of facility 12. The following material labels were observed on the set of tanks on the west end: Zinc 10, Maritime, Borosol, Riser 7-17-3, Loveland Accomplish, Actuate, Peax, Structure, NPact, Humic 600, and Terramar. On the North end, only one tank had a material label for Altura 6-20-0. All other north end tanks appear to be new and never filled based on the inspection of the site gauges. Per Mr. Arredondo, the North end tanks were added about 3-6 months. The materials listed was not observed on the CERS inventory page. CORRECTIVE [Truncated]

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing
A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Next Scheduled EDR Contact: 07/15/2024
Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills
This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/06/2023

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services

Longitude (West):	120.080913 - 120˚ 4’ 51.29’’
Universal Tranverse Mercator:	Zone 10
UTM X (Meters):	759942.4
UTM Y (Meters):	4092915.8
Elevation:	260 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50005263 MADERA, CA
Version Date:	2021

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

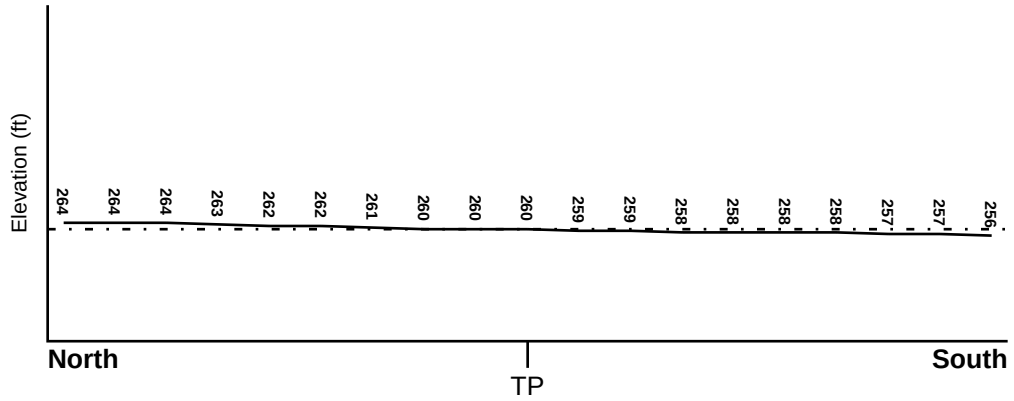
TOPOGRAPHIC INFORMATION

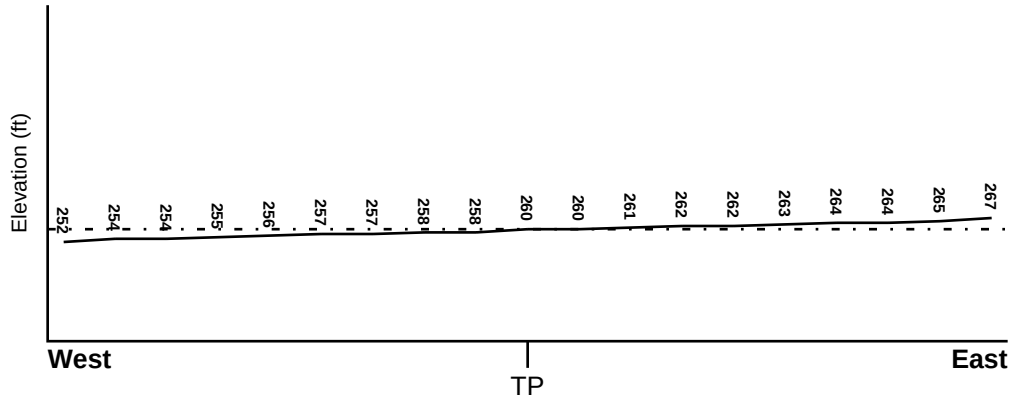
Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES





Target Property Elevation: 260 ft.

0 1/2 1 Miles

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06039C1155E	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06039C1165E	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
MADERA	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Tujunga

Soil Surface Texture: loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	11 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
2	11 inches	24 inches	stratified sand to loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
3	24 inches	59 inches	stratified gravelly sand to gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

Soil Map ID: 2

Soil Component Name: Traver

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	3 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 9.6 Min: 8.4
2	3 inches	16 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 9.6 Min: 8.4
3	16 inches	64 inches	stratified fine sandy loam to silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 9.6 Min: 8.4

Soil Map ID: 3

Soil Component Name: Pachappa

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW[R] Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Madera Area, California
Survey Area Data: Version 17, Aug 31, 2023

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Mar 16, 2022—Mar 21, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 4/19/2024 at 4:25 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

CALIFORNIA - EPA Map of Radon Zones

http://www.epa.gov/radon/zonemap.html

The purpose of this map is to assist National, State and local organizations to target their resources and to implement radon-resistant building codes.

This map is not intended to determine if a home in a given zone should be tested for radon. Homes with elevated levels of radon have been found in all three zones.

All homes should be tested, regardless of zone designation.

IMPORTANT: Consult the publication entitled "Preliminary Geologic Radon Potential Assessment of California" (USGS Open-file Report 93-292-I) before using this map. See http://energy.cr.usgs.gov/radon/grpinfo.html This document contains information on radon potential variations within counties. EPA also recommends that this map be supplemented with any available local data in order to further understand and predict the radon potential of a specific area.

TO: CITY OF MADERA WATER CUSTOMERS

SUBJECT: 2022 CITY OF MADERA WATER SYSTEM CONSUMER CONFIDENCE REPORT

Este informe contiene información importante sobre su agua potable, tradúzcalo, o hable con alguien que se lo pueda explicar.

The City of Madera is required by the State Water Resources Control Board to report annually to all customers regarding water quality. The enclosed report summarizes water quality sample results for 2022. You may also view this report on the City of Madera's web site www.cityofmadera.ca.gov. All samples were collected from eighteen groundwater wells. Minimum, maximum, and average values are listed for all elements that were detected.

Significant time and expense by the City ensures that consumers are provided with water that meets or exceeds drinking water standards. The City's stringent testing program is in full compliance with State and Federal requirements.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. City of Madera is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may request to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

Questions regarding this report should be directed to John Botwright, Water System Supervisor of the City Water Quality Division at (559) 661-5466.

Ismael Hernandez
Public Works Operations Director

CITY OF MADERA WATER QUALITY REPORT 2022

Primary Standards	MCL	PHG (MCLG)	RANGE OF DETECTION			AVERAGE	U.O.M.	TYPICAL SOURCE OF CONTAMINANT
Arsenic	10.00	0.004	N/D	TO	2.60	0.14	ug/L	Erosion of natural deposits; runoff from orchards; glass and electronics production wastes.
Barium	1.00	2.00	N/D	TO	0.00	0.00	mg/L	Discharges of oil drilling wastes and from metal refineries; erosion of natural deposits.
Nitrate (as N)	10.00	10.00	0.00	TO	4.10	1.53	mg/L	Runoff from fertilizer use; leaching from septic tanks and sewage erosion of natural deposits.
Dibromochloropropane (DBCP)*	0.2	0.0017	N/D	TO	0.07	0.00	ug/L	Runoff/leaching from soil fumigant used on soybeans, cotton, pineapples, and orchards.
Chlorine Residual	4.0	4.0	0.1	TO	0.8	0.25	mg/L	Drinking water disinfectant added for prcautionary disinfection
Total Coliform Bacteria [Total Coliform Rule] % positive samples	More than 5% of samples are positive	0	Amount detected 0			N/A	NO VIOLATIONS	Naturally present in the environment
Secondary Standards								
Chloride	500.00		0.00	TO	20.60	4.93	mg/L	Runoff/leaching from natural deposits; seawater influence.
Odor	3.00		N/D	TO	1.00	0.11	units	Naturally occurring organic materials.
pH (Laboratory)	6.5 - 8.5		0.00	TO	9.60	2.07	Std. units	
Specific Conductance	1600.00		0.00	TO	304.00	52.96	umho/cm	Substances that form ions when in water; seawater influence.
Total Filterable Residue (TDS)	1000.00		0.00	TO	230.00	50.00	mg/L	Runoff/Leaching from natural deposits.
Sulfate	500.00		0.00	TO	8.30	1.40	mg/L	Runoff/leaching from natural deposits; industrial wastes.
Lab Turbity	5.00		N/D	TO	0.45	0.04	NTU	*Turbidity is a measure of the cloudiness of the water. We monitor it* because it is a good indicator of water quality. High turbidity can hinder the effectiveness of disinfectants.
General Minerals								
Bicarbonate	N/A		0.00	TO	2930.00	166.69	mg/L	
Calcium	N/A		0.00	TO	25.60	4.63	mg/L	
Fluoride	2.00	1.00	N/D	TO	0.16	0.03	mg/L	Erosion of natural deposits; water additive that promotes strong teeth; discharge from fertilizer and aluminum factories.
Magnesium	N/A		0.00	TO	7.50	1.41	mg/L	
Potassium	N/A		N/D	TO	3.60	0.49	mg/L	
Sodium	N/A		0.00	TO	25.00	5.68	mg/L	
Total Alkalinity	N/A		0.00	TO	4570.00	257.67	mg/L	
Total Hardness (as CaCO3)	N/A		0.00	TO	94.70	17.37	mg/L	
MBAS	0.50		N/D	TO	0.000	0.000	mg/L	Municipal and industrial waste discharges
Organics								
Tetrachloroethylene (PCE)	5.00	0.06	N/D	TO	0.96	0.09	ug/L	Discharge from factories, dry cleaners and auto shops (metal degreaser)
Radioactivity								
Gross Alpha	15.00		N/D	TO	1.81	0.10	pCi/L	Erosion of natural and man-made deposits
Uranium	20.00	0.43	0.00	TO	0.00	0.00	pCi/L	Erosion of natural deposits
Unregulated Organics								
Vanadium	N/A	50.00	0.00	TO	0.00	0.00	ug/L	
tert-Butyl Alcohol (TBA)	N/A		N/D	TO	0.00	0.00	ug/L	
Unregulated Inorganics								
Hexavalent, Chromium	10.00		N/D	TO	0.00	0.00	ug/L	N/A
STAGE 2 DBPR Monitoring								
Total Trihalomethanes (TTHM) (ug/L)	80.00	N/A	N/D	TO	0.60	1.00	ug/L	***8/13/2022 Byproduct of drinking water chlorination***
Haloacetic Acids (HAA5) (ug/L)	60.00	N/A	N/D	TO	0.00	0.00	ug/L	***8/13/2022 Byproduct of drinking water chlorination***

LEAD AND COPPER

Contaminant	No. of samples collected	90th Percentile level detected	No. of sites exceeding action	Action level	MCLG	TYPICAL SOURCE OF CONTAMINANT
Lead (ug/L) Sampled 8/2022	35	<.005	2	15	0.2	Internal corrosion of household water plumbing systems ; discharges from industrial manfacturers, erosion of natural deposits.
Copper (mg/L) Sampled 8/2022	35	0.15	0	1.3	0.3	

The State allows the City to monitor for some contaminants less than once per year because the concentration of these contaminants do not change frequently. Some of the above data, though representative, is more than one year old, the data ranges from 1996 to 2022.

ABBREVIATION KEY

MCL = Maximum Contaminant Level
mg/L = Milligrams per Liter or parts per million
ug/L = Micrograms per Liter or parts per billion
NTU = Nephelometric Turbidity Units
PHG = Public Heath Goal
MCLG= Maximum Contaminant Level Goal
RAL= Regulating Action Level
TT= Treatment Technique

N/A = Not Applicable
pCi/L = Picocuries per Liter
N/D = Non-Detect
U.O.M. = Unit of Measurement
TON = Threshold odor number
umho/cm= Micromhos per Centimeter
PDWS= Primary Drinking Water Standards
MRDL= Maximum Residual Disinfection Level
MRDG= Maximum Residual Disinfection Goal

REQUIRED PUBLIC NOTICE

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their heath care providers. USEPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline 1(800) 426-4791.

DEFINITIONS

Maximum Contaminant Level or (MCL): The highest level of a contaminant that is allowed in drinking water. Primary MCLs are set as close to the PHGs(or MCLGs) as is economically and technologically feasible. Secondary MCLs are set to protect the odor, taste, and appearance of drinking water.

Primary Drinking Water Standard or PDWS: MCLs for contaminants that affect health along with their monitoring and reporting requirements, and water treatment requirements.

Public Health Goals or PHG: The level of a contaminant in drinking water below which there is no known or expected risk to health. PHGs are set by the California Environmental Protection Agency.

Maximum Contaminant Level Goal or MCLG: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs are set by the U.S. Environmental Protection Agency.

HEALTH EFFECTS FOR INORGANIC CONTAMINANTS

Nitrate: Nitrate in drinking water at levels above 45 mg/L is a health risk for infants of less than six months of age. Such nitrate levels in drinking water can interfere with the capacity of the infant's blood to carry oxygen, resulting in a serious illness; symptoms include shortness of breath and blueness of the skin. Nitrate levels above 45 mg/L may also affect the ability of the blood to carry oxygen in other individuals, such as pregnant women and those with certain specific enzyme deficiencies. If you are caring for an infant, or you are pregnant, you should ask advice from your health care provider.

ARSENIC: While drinking water meets the Federal and State standards for arsenic, it does contain low levels of arsenic. The Arsenic standard balances the current understanding of arsenic's possible health affects against the cost of removing arsenic from drinking water. The U.S. Environmental Protection Agency continues to research the health affects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

TREATMENT

Chlorination: Each well site has a chlorine generation system which produces a 0.8% chlorine solution and dosage to the distribution system is set at 0.25 Parts Per Million.

REQUIRED PUBLIC INFORMATION

1. The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

2. Contaminants that could be present in source water include:

(**a**) Microbial contaminants, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

(**b**) Inorganic contaminants, such as salts and metals, that can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

(**c**) Pesticides and herbicides, that may come from a variety of sources such as agriculture, urban water runoff, and residential uses.

(**d**) Organic chemical contaminants, including synthetic and volatile organic chemicals, that are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, agricultural application, and septic systems.

(**e**) Radioactive contaminants, that can be naturally-occurring or be the result of oil and gas production and mining activities.

3. In order to ensure that tap water is safe to drink, the U.S. Environmental Protection Agency(USEPA) and the State Water Resources Control Board prescribe regulations that limit the amount of certain contaminants in water provided by public water systems. Department regulations also establish limits for contaminants in bottled water that provide the same protection or public health.

City of Madera
Source Water Assessment

A source water assessment was conducted for the City of Madera water system in 2003 and is ongoing as water wells are being developed. A completed copy of this report may be viewed at City of Madera, Public Works Department 1030 South Gateway Drive Madera, CA 93637 or, a copy may be requested by contacting the City Clerk at: (559) 661-5405

The following chart summarizes potential sources of contamination, in the vicinity of each water well, that could affect water quality:

Activities	Water Wells
Airports - Maintenance/fueling areas	#26
Automobile - Body shops, Historic gas stations, Machine shops, Junk/scrap salvage yards	#25
Automobile – Gas stations	#17, #18, #20, #21, #22, #26
Automobile - Repair shops	#18, #25
Boat services/repair/refinishing, sewer collection systems, pesticide/fertilizer/petroleum storage & transfer area	#18, #31
Chemical/petroleum processing/storage, dry cleaners, injection wells/dry wells/sumps	#28, #17
Dry cleaners, injection wells/dry wells/sumps	#28
Fertilizer/pesticide/herbicide application, storm drain discharge points	#29, #31, 32, #33, #34
Grazing (>5 large animals or equivalent per acre)	#23
Historic waste dumps/landfills	#25, #26
Housing – high density (>1 house / 0.5 acres)	#15, #16, #17, #21, #22, #23, #24, #25, #29, #31, #32, #33, #34
Metal plating/finishing/fabricating	#26, #27, #30
Military installations	#24
Transportation corridors - Road right - of - ways (herbicides use areas)	#15, #16, #17, #29
Waste Transfer/Recycling stations	#17, #31, #34

DISCUSSION OF VULNERABILITY

There is no current Maximum Contaminant Level (MCL) exceedance noted in the State Water Resources Control Board database for City of Madera Water Wells: 15, 16, 17, 18, 20, 21, 22, 23, 24, 25, 26, 28, 29, 30, 31, 32, 34 and 38.

Detected Contaminants 2022

Water Well	Chemical	Sample Date	Level Detected	MCL	DLR

ADDITIONAL COMMENTS:

Lead Sampling in Schools: We conducted Lead sampling in accordance with SWRCB requirements at 18 MUSD Schools.

VIOLATION OF TT OR MONITORING AND REPORTING REQUIREMENTS:

MONITORING AND REPORTING VIOLATION: ***NONE*** We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards.

24 de Mayo de 2023

PARA: CLIENTES DE AGUA DE CIUDAD DE MADERA

ASUNTO: 2022 CIUDAD DE MADERA SISTEMA DE AGUA INFORME DE CONFIANZA DEL CONSUMIDOR

Este informe contiene información importante sobre su agua potable, tradúzcalo, o habla con alguien que lo entiende bien.

La junta de control de recursos hídricos estatales requiere que la Ciudad de Madera informe anualmente a todos los residentes sobre la calidad del agua. El informe adjunto resume los resultados de muestras de calidad del agua para el 2022. También puede ver este informe en el sitio web de la ciudad en www.cityofmadera.ca.gov. Todas las muestras fueron recolectadas de dieciocho pozos de agua subterránea. Los valores mínimos, máximos y promedios se enumeran para todos los elementos que se detectaron.

El tiempo y gastos significativos de la Ciudad aseguran que los residentes consumidores reciban agua que cumpla o exceda los estándares de agua potable. El estricto programa de pruebas de la Ciudad cumple totalmente con los requisitos estatales y federales.

Si están presente, los niveles elevados de plomo pueden causar graves problemas de salud, especialmente para las mujeres embarazadas y niños pequeños. El plomo de agua potable proviene principalmente de los materiales y componentes asociados con las líneas de servicio y la plomería del hogar. La Ciudad de Madera es responsable de proporcionar agua potable de alta calidad, pero no puede controlar la variedad de elementos y materiales utilizados en los componentes de plomería. Cuando el agua haya estado sin usar por mucho tiempo puede minimizar la posibilidad de exposición al plomo enjuagando su grifo por 30 segundos o 2 minutos antes de usar el agua para beber o cocinar. Si usted está preocupado por plomo en el agua, puede solicitar que le hagan una prueba a su agua. Información sobre el plomo en el agua potable, métodos de prueba y pasos que puede tomar para minimizar la exposición están disponible en la línea de llamada de agua potable segura o en http://www.epa.gov/safewater/lead.

Preguntas sobre este informe se pueden dirigir a John Botwright, Supervisor del Departamento de agua, de la división de calidad de agua de la ciudad al (559) 661-5466.

Ismael Hernandez
Director de operaciones de obras públicas

CITY OF MADERA WATER QUALITY REPORT 2022

Primary Standards	MCL	PHG (MCLG)	RANGE OF DETECTION			AVERAGE	U.O.M.	TÍPICA FUENTE DE CONTAMINANTE
Arsenic	10.00	0.004	N/D	TO	2.60	0.14	ug/L	Erosión de depósitos naturales; escorrentía de huertos; desechos de producción de vidrio y electrónica.

LEAD AND COPPER

Contaminant	Jajaja de las muestras tomadas	percentil 90 nivel detectado	No. de sitios superiores a nivel de	Action level	MCLG	TÍPICA FUENTE DE CONTAMINANTE
Plomo (ug/L) muestreadas 8/2022	35	<.005	2	15	0.2	Corrosión interna de los sistemas de plomería de agua domésticos; descargas de fabricantes industriales,
Cobre (mg/L) muestreadas 8/2022	35	0.15	0	1.3	0.3	erosión de depósitos naturales.

El estado permite a la ciudad monitorizar algunos contaminantes menos de una vez por año porque la concentración de estos contaminantes no cambian con frecuencia. Algunos de los datos anteriores, aunque su representante, es más de un año de edad, los datos van desde 1996 hasta el 2022.

ABBREVIATION KEY

MCL = nivel máximo de contaminante
mg/L = miligramos por litro o partes por millón
ug/L = microgramos por litro o partes por mil millones
NTU = unidades nefelométricas de turbidez
PHG = objetivo de salud pública
MCLG = meta de nivel máximo contaminante
RAL = regulación de nivel de acción
TT= Treatment Technique

N/A = no aplicable
pCi/L = picocurios por litro
N/D = no detectar
U.O.M. = unidad de medida
TON = umbral olor número
UMHO/cm = Micromhos por centímetro
PDWS = normas primarias de agua potable
MRDL = nivel máximo de desinfección Residual
MRDG = meta máxima desinfección Residual

REQUIRED PUBLIC NOTICE

Algunas personas pueden ser más vulnerables a los contaminantes en el agua potable que la población general. Personas inmunodeficientes, tales como personas con someterse a quimioterapia, personas que han recibido trasplantes de órganos, personas con VIH/SIDA u otro sistema inmune trastornos, algunos ancianos y niños pueden tener mayor riesgo de infección. Estas personas deben buscar asesoramiento sobre beber agua de su proveedores de cuidado de salud. USEPA/Centros para las pautas de Control de enfermedades (CDC) en medios apropiados para disminuir el riesgo de infección por Cryptosporidium y otros contaminantes microbianos están disponibles de la línea gratuita agua potable segura (1-800-426-4791).

Agua potable, incluyendo agua embotellada, puede razonablemente esperarse que contienen por lo menos pequeñas cantidades de algunos contaminantes. La presencia de contaminantes no indica necesariamente que el agua constituye un riesgo para la salud. Puede obtener más información acerca de contaminantes y efectos de salud potenciales obtener llamando a línea gratuita agua potable segura de la USEPA 1 (800) 426-4791.

DEFINITIONS

Máximo nivel contaminante o (MCL): el más alto nivel de un contaminante que se permite en el agua potable. Primaria MCL ' s se establecen tan cerca de la PHG ' s (o MCLG ' s) como es factible económicamente y tecnológicamente. MCL secundarios se establecen en proteger el olor, sabor y apariencia del agua potable.

Agua potable estándar primario o PDWS: MCL de contaminantes que afectan la salud así como su monitoreo y informes de requisitos y necesidades de tratamiento de agua.

Objetivos de salud pública o PHG: el nivel de un contaminante en el agua potable por debajo del cual no existe riesgo conocido o esperado para la salud. PHGs son fijados por la Agencia de protección ambiental de California.

Máximo nivel de contaminante objetivo o MCLG: el nivel de un contaminante en el agua potable por debajo del cual no hay conocido o riesgo previsto para la salud. MCLG ' s son fijados por la Agencia de protección ambiental de Estados Unidos.

EFECTOS SOBRE LA SALUD DE CONTAMINANTES INORGÁNICOS

Nitrato: Nitrato en el agua potable a niveles por encima de 45 mg/L es un riesgo para la salud de los bebés de menos de seis meses de edad. Tales niveles de nitratos en el agua potable pueden interferir con la capacidad de la sangre del bebé para transportar oxígeno, resultando en una enfermedad grave; los síntomas incluyen falta de aliento y color azulado de la piel. Los niveles de nitrato superiores a 45 mg/L también pueden afectar la capacidad de la sangre para transportar oxígeno en otras personas, como mujeres embarazadas y personas con ciertas deficiencias de enzimas específicas. Si usted está cuidando a un niño, o está embarazada, debe pedir consejo de su proveedor de atención médica.

Arsénico: Mientras que el agua potable cumple con los estándares federales y estatales para el arsénico, contienen niveles bajos de arsénico. El estándar de arsénico equilibra la corriente comprensión de la salud del arsénico afecta contra el costo de la eliminación de arsénico del agua potable. La Agencia de protección ambiental de Estados Unidos continúa investigación que afecta la salud de niveles bajos de arsénico, que es un mineral conocido por causar cáncer en seres humanos en concentraciones altas y está vinculado para otros efectos en la salud como daño de la piel y problemas circulatorios.

TREATMENT

Cloración: Cada sitio bien tiene un sistema de generación de cloro que produce una solución de cloro al 0,8% y dosis para el sistema de distribución se encuentra en 0,25 partes por millón.

REQUIRED PUBLIC INFORMATION

1. las fuentes de agua potable (agua del grifo y agua embotellada) incluyen ríos, lagos, arroyos, estanques, embalses, manantiales y pozos. Como el agua recorridos sobre la superficie de la tierra o a través del suelo, disuelve minerales naturales y, en algunos casos, material radioactivo, y puede recoger sustancias resultantes de la presencia de animales o de la actividad humana.

2. los contaminantes que podrían estar presentes en el agua de la fuente incluyen:

(a) contaminantes, tales como virus y bacterias, que pueden provenir de plantas de tratamiento de aguas residuales, sistemas sépticos, agricola ganadera operations, and wildlife.

(b) inorgánicos contaminantes, como sales y metales, que pueden ocurrir naturalmente o como resultado del desagüe pluvial, industrial o doméstica descargas de aguas residuales, producción de petróleo y gas, minería o agricultura.

(c) pesticidas y herbicidas, que pueden provenir de una variedad de fuentes como la agricultura, el escurrimiento de las aguas urbanas y usos residenciales.

(d) contaminantes químicos orgánicos, incluyendo productos químicos orgánicos sintéticos y volátiles, que son subproductos de procesos industriales y petróleo producción y también puede provenir de gasolineras, desagüe pluvial, aplicaciones agrícolas y sistemas sépticos.

(e) radiactivos contaminantes, que pueden ocurrir naturalmente o ser el resultado de la producción de petróleo y gas y minería.

3. a fin de asegurarse de agua del grifo es segura para beber, la Agency(USEPA) de protección ambiental de Estados Unidos y la Junta Estatal de Control de recursos de agua prescribir normas que limitan la cantidad de ciertos contaminantes en el agua proveída por los sistemas públicos de agua. Regulaciones del Departamento también establecen límites para contaminantes en el agua embotellada que proporcionan la misma protección o salud pública.

City of Madera
Source Water Assessment

Se realizó una evaluación del agua de la fuente para el sistema de agua de la Ciudad de Madera en el 2003 y sigue en proceso la evaluacion a medida que se desarrollan pozos de agua. Puede obtener una copia completa de este informe en la Ciudad de Madera, Departamento de Obras Públicas 1030 South Gateway Drive Madera, CA 93637 o, puede solicitar una copia contactando a la Secretaria Municipal al: (559) 661-5405

La siguiente tabla resume las fuentes potenciales de contaminación, en la area de cada pozo de agua, que podría afectar a la calidad del agua:

Actividades	Pozos de agua
Aeropuertos - áreas de mantenimiento/combustible	#26
Automóviles - Hojalatería, gasolineras históricas, tiendas de máquina, yardas del salvamento de basura y chatarra	#25
Automóvil, estaciones de Gas	#17, #18, #20, #21, #22, #26
Automóvil - talleres	#18, #25
Servicios de Barco /reparación/acabado, sistemas de recolección de alcantarillado, almacenamiento de fertilizantes/pesticidas/petróleo y área de transferencia	#18, #31
Almacenamiento/procesamiento químico/petróleo, tintorerías, pozos de inyección de pozos/seco/sumideros	#28, #17
Tintoreros, pozos de inyección de pozos/seco/sumideros	#28
Aplicación de fertilizantes/pesticidas/herbicidas, puntos de descarga de drenaje de tormenta	#29, #31, 32, 33 #, #34
Pastoreo (> 5 animales grandes o su equivalente por hectárea)	#23
Vertederos/rellenos sanitarios residuos histórico	#25, #26
Vivienda – densidad alta (> 1 casa / 0,5 acres)	#15, #16, #17, #21, #22, #23, #24, #25, #29, #31, #32, #33, #34
Metal plating/acabado/fabricación	#26, #27, #30
Instalaciones militares	#24
Corredores de transporte - carretera derecho - de - formas (herbicidas utilizan áreas)	#15, #16, #17, #29
Estaciones de transferencia/reciclaje de residuos	#17, #31, #34

DISCUSIÓN DE VULNERABILIDAD

Actualmente no hay un nivel de contaminante máximo (MCL) en la base de datos de la Junta de Control de recursos de agua de estado para los siguientes pozos de agua de la Ciudad de Madera: 15, 16, 17, 18, 20, 22, 23, 24, 25, 26, 28, 29, 30, 31, 32, 34 y 38.

Contaminante detectado 2022

Pozo de agua	Producto químico	Fecha de la muestra	Nivel detectado	MCL	DLR

COMENTARIOS ADICIONALES:

Muestreo en las escuelas: Se realizó un muestreo de plomo de acuerda con los requisitos de SWRCB en 18 escuelas de MUSD.

VIOLACIÓN DE TT Y LOS REQUISITOS DE SEGUIMIENTO Y PRESENTACIÓN DE INFORMES:

Violación de supervisión y presentación de informe: Estamos obligados a supervisar su agua potable para detectar contaminantes específicos de forma regular. Resultados de la vigilancia regular son un indicador de si o no el agua potable cumple con los estándares de salud.

SURVEYOR'S CERTIFICATION

TO:

WHSE PARTNERS

PLACER TITLE COMPANY

THIS IS TO CERTIFY THAT THIS MAP OR PLAT AND THE SURVEY ON WHICH IT IS BASED WERE MADE IN ACCORDANCE WITH THE 2021 MINIMUM STANDARD DETAIL REQUIREMENTS FOR ALTA/NSPS LAND TITLE SURVEYS, JOINTLY ESTABLISHED AND ADOPTED BY ALTA AND NSPS, AND INCLUDES ITEMS 1, 2, 3, 4, 6(A), 6(B), 7(A), 7(B)(1), 8, 9, 10, 11(A), 13, 16, 17, 18, AND 19 OF TABLE A THEREOF. THE FIELD WORK WAS COMPLETED ON SEPTEMBER 16TH, 2021.

FOR REVIEW ONLY

CHARLES E. MILLER, PLS 9079

CHASE@BEDROCKENG.COM

LICENSED LAND SURVEYOR — CHARLES E. MILLER — No. 9079 — STATE OF CALIFORNIA

DATE OF PLAT OR MAP: SEPTEMBER 29, 2021

PRELIMINARY REPORT REFERENCE

PLACER TITLE COMPANY ORDER NUMBER P-433375 UPDATE (VERSION 2), DATED AUGUST 3, 2021 AT 7:30 AM

RECORD TITLE INTEREST

THE ESTATE OR INTEREST IN THE LAND WHICH IS COVERED BY THE PRELIMINARY REPORT REFERENCED ABOVE:

FEE SIMPLE.

TITLE TO SAID ESTATE OR INTEREST AT THE DATE SHOWN IN THE PRELIMINARY REPORT REFERENCED ABOVE IS VESTED IN:

FRANCO DEVELOPMENT PROPERTIES, L.P., A CALIFORNIA LIMITED PARTNERSHIP

LEGAL DESCRIPTION FOR PROPERTY IN PRELIMINARY REPORT REFERENCED ON THIS SHEET

THE LAND DESCRIBED HEREIN IS SITUATED IN THE STATE OF CALIFORNIA, COUNTY OF MADERA, CITY OF MADERA, DESCRIBED AS FOLLOWS:

LOTS 13 AND 14 OF MIDVALE COLONY, IN THE CITY OF MADERA, COUNTY OF MADERA, STATE OF CALIFORNIA, ACCORDING TO THE MAP THEREOF RECORDED APRIL 8, 1909 IN BOOK 2, PAGE 18 OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

EXCEPTING THEREFROM THE SOUTH 675.0 FEET OF LOTS 13 AND 14, INCLUDING THE 30 FOOT ROAD ON THE SOUTH, ACCORDING TO THE MAP OF SAID MIDVALE COLONY REFERRED TO ABOVE.

ALSO EXCEPTING THEREFROM THAT PORTION CONVEYED TO THE CITY OF MADERA, A MUNICIPAL CORPORATION IN DEED RECORDED JULY 12, 2004 AS INSTRUMENT NO. 2004029511 AND RE-RECORDED JANUARY 7, 2005 AS INSTRUMENT NO. 2005000957, BOTH OF OFFICIAL RECORDS.

ALSO EXCEPTING THEREFROM ONE-HALF OF ALL OIL, GAS AND MINERALS IN AND UNDER SAID LAND, AS RESERVED BY CALIFORNIA LANDS, INC., A CORPORATION, IN DEED RECORDED JANUARY 26, 1935 IN BOOK 168, PAGE 112 AND AS MODIFIED BY QUITCLAIM DEED RECORDED MARCH 9, 1953 IN BOOK 567, PAGE 582, BOTH OF OFFICIAL RECORDS.

APN: 009-330-011-000

THIS PROPERTY IS SUBJECT TO THE FOLLOWING CONDITIONS IN THE PRELIMINARY REPORT REFERENCED ON THIS SHEET

NOTE: THE NUMBERS OF THE EXCEPTIONS DESCRIBED BELOW CORRESPOND TO THE NUMBERING SEQUENCE USED IN THE PRELIMINARY REPORT. EXCEPTIONS 1 THROUGH 3, 12, AND 13 HAVE BEEN OMITTED FROM THIS SURVEY AS THEY ARE NOT SURVEY RELATED EXCEPTIONS. EXCEPTIONS 5, AND 6 ARE PLOTTABLE AND ARE SHOWN HEREON. REFERENCE IS HEREBY MADE TO SAID COMMITMENT FOR FULL PARTICULARS.

4) AN EASEMENT TO CONVEY WATER OVER THE PROPERTY IN FAVOR OF MADERA CANAL AND IRRIGATION COMPANY, IN DEED RECORDED NOVEMBER 15, 1895, IN BOOK 2 AT PAGE 18 OF WATER RIGHTS. THE EXACT LOCATION OF THIS EASEMENT IS NOT DISCLOSED OF RECORD.

7) THE TERMS, CONDITIONS, PROVISIONS AND STIPULATIONS AS CONTAINED IN THE AGREEMENT ENTITLED "RESOLUTION NO. 97-171", BY THE CITY OF MADERA, RECORDED OCTOBER 14, 1997, AS INSTRUMENT NO. 9727319, OFFICIAL RECORDS.

8) RIGHTS OF THE PUBLIC AND OF THE COUNTY OF MADERA, AS TO THAT PORTION OF THE HEREIN DESCRIBED PROPERTY LYING WITHIN SOUTH SCHNOOR AVENUE AND FRANCO DRIVE, PUBLIC ROADS.

9) RIPARIAN OR WATER RIGHTS, CLAIMS, OR TITLE TO WATER WHETHER OR NOT SHOWN BY THE PUBLIC RECORDS.

10) RIGHTS OF TENANTS IN POSSESSION, INCLUDING ANY UNRECORDED LEASES AND/OR SUBLEASES AFFECTING THE HEREIN DESCRIBED PROPERTY.

11) WITH RESPECT TO FRANCO DEVELOPMENT PROPERTIES, L.P., A CALIFORNIA LIMITED PARTNERSHIP:
A) THAT CERTIFIED COPY OF THE CERTIFICATE OF LIMITED PARTNERSHIP (FORM LP-1) AND ANY AMENDMENTS THERETO (FORM LP-2) BE RECORDED IN THE PUBLIC RECORDS;
B) A FULL COPY OF THE PARTNERSHIP AGREEMENT AND ANY AMENDMENTS;
C) SATISFACTORY EVIDENCE OF THE CONSENT OF A MAJORITY IN INTEREST OF THE LIMITED PARTNERS TO THE CONTEMPLATED TRANSACTION;
D) OTHER REQUIREMENTS WHICH THE COMPANY MAY IMPOSE FOLLOWING ITS REVIEW OF THE MATERIAL REQUIRED HEREIN AND OTHER INFORMATION WHICH THE COMPANY MAY REQUIRE.

SURVEY NOTES

RELATIVE POSITIONAL ACCURACY:

ALL FIELD MEASUREMENTS WERE RUN THROUGH A LEAST SQUARES ADJUSTMENT USING STARNET VERSION 8.0. ALL MONUMENTS MEET THE A.L.T.A. RELATIVE POSITIONAL ACCURACY REQUIREMENTS OF 2CM (0.07 FEET) PLUS 50 PARTS PER MILLION (PPM).

ESTABLISHMENT OF BOUNDARY LINES
FOUND MONUMENTS 2, 3 AND 5 WERE ACCEPTED AS BEING THE SOUTHWEST, SOUTHEAST, AND NORTHEAST CORNERS OF THE PROPERTY. ESTABLISHING THE NORTHWEST CORNER OF THE PROPERTY WAS A MUCH BIGGER STRUGGLE. THE WEST LINE OF LOT 13 (LINE 1), WAS ESTABLISHED BY RUNNING A LINE THROUGH MONUMENTS 1, 2, AND A POINT 30.00' EASTERLY OF MONUMENT 4. THE SOUTH RIGHT OF WAY LINE OF HOWARD AVENUE (LINE 2), BEING 75 FEET SOUTH OF THE NORTH LINE OF THE NORTHEAST 1/4 OF SECTION 26-11/17, WAS ESTABLISHED BY CREATING A LINE THOUGH MONUMENTS 6, 8, 9, AND 10. LINE 2 WAS OFFSET 75 FEET TO THE NORTH TO ESTABLISH THE NORTH LINE OF THE NORTHEAST 1/4 OF SECTION 26-11/17. LINES 1 AND 3, WERE THEN PROLONGATED NORTHERLY AND WESTERLY (RESPECTIVELY) TO INTERSECT EACH OTHER AND ESTABLISH THE NORTH 1/4 CORNER OF SECTION 26-11/17. A DISTANCE OF 60.00' PER (3) WAS HELD FROM SAID NORTH 1/4 CORNER, ALONG LINE 1, IN ORDER TO ESTABLISH THE NORTHWEST CORNER OF LOT 12. THE NORTHWEST CORNER OF THE SUBJECT PROPERTY (ALSO BEING THE NORTHWEST CORNER OF LOT 13) WAS ESTABLISHED AT THE MIDPOINT OF A LINE RUNNING FROM THE NORTHWEST CORNER OF LOT 12, TO THE SOUTHWEST CORNER OF LOT 13. NOTE: ALL REFERENCE TO LOTS REFER TO THE MAP OF "MIDVALE COLONY" PER (3).

BOUNDARY MONUMENTS

1. CENTER 1/4 CORNER SECTION 26, TOWNSHIP 11 SOUTH, RANGE 17 EAST, M.D.B.&M.. FOUND AND ACCEPTED 2" IRON PIPE, DOWN 10", NO TAG,
2. FOUND AND ACCEPTED 3/4" IRON PIPE, DOWN 10", NO TAG, AS BEING THE NORTHWEST CORNER OF THE SOUTH 675' OF LOTS 13 AND 14 OF "MIDVALE COLONY", SAID 675' INCLUDING THE 30.0' ROAD TO THE SOUTH OF LOTS 13 AND 14. PIPE WAS FOUND SLIGHTLY LEANING TO THE SOUTH, SHOT AT THE ROOT.
3. FOUND AND ACCEPTED 3/4" IRON PIPE PER (1), DOWN 11", TAG ILLEGIBLE, AS BEING THE NORTHEAST CORNER OF THE SOUTH 675' OF LOTS 13 AND 14 OF "MIDVALE COLONY", SAID 675' INCLUDING THE 30.0' ROAD TO THE SOUTH OF LOTS 13 AND 14.
4. FOUND AND ACCEPTED 2.5" BRASS CAP MONUMENT, TAGGED PLS 7027, AS BEING THE CENTERLINE OF INDUSTRIAL AVENUE AND 30.00'(5) FROM THE WEST LINE OF THE NORTHEAST 1/4 OF SECTION 26-11/17.
5. FOUND AND ACCEPTED 3/4" IRON PIPE PER (7), DOWN 11", NO TAG, AS BEING THE NORTHEAST CORNER OF LOT 14 OF "MIDVALE COLONY".
6. FOUND COTTON SPINDLE, FLUSH IN PAVEMENT, NEAR RECORD LOCATION FOR THE NORTHEAST CORNER OF PARCEL 1 PER PARCEL MAP RECORDED IN BOOK 27 OF MAPS AT PAGE 187, MADERA COUNTY RECORDS. HELD FOR THE ALIGNMENT OF THE SOUTH RIGHT-OF-WAY (75') LINE OF HOWARD ROAD.
7. FOUND AND ACCEPTED CHISELED "+" PER (8), FLUSH IN CONCRETE, AS BEING THE SOUTHEAST CORNER OF LOT 1 PER (8).
8. FOUND AND ACCEPTED 3/4" IRON PIPE PER (6), FLUSH, AS BEING AN ANGLE POINT ON THE NORTH RIGHT-OF-WAY LINE (75' WIDE) OF HOWARD ROAD.
9. FOUND AND ACCEPTED 3/4" IRON PIPE PER (6), FLUSH, AS THE NORTHEAST CORNER OF PARCEL 1 PER (6), ALSO ON THE NORTH RIGHT-OF-WAY LINE (75' WIDE) OF HOWARD ROAD.
10. FOUND AND ACCEPTED 3/4" IRON PIPE PER (6), FLUSH, AS THE NORTHWEST CORNER OF PARCEL 1 PER (6), ALSO ON THE NORTH RIGHT-OF-WAY LINE (75' WIDE) OF HOWARD ROAD.
11. FOUND AND ACCEPTED 2" BRASS CAP MONUMENT, FLUSH, AS BEING IN THE POSITION OF THE SOUTHWEST CORNER OF PARCEL 3 PER (1).
12. FOUND AND ACCEPTED 3/4" IRON PIPE PER (1), DOWN 6", NO TAG.

TABLE A INFORMATION

1 BOUNDARY MONUMENTS: "MAJOR CORNERS" HAVE NOT BEEN MARKED OR IDENTIFIED ON THIS MAP. MONUMENTS MISSING AT MAJOR CORNERS WILL BE SET AND IDENTIFIED ON A RECORD OF SURVEY TO BE FILED WITH MADERA COUNTY IN THE NEAR FUTURE.

2 PROPERTY ADDRESS: VACANT LAND, APN 009-330-011, MADERA, CA 93637

3 FLOOD ZONE DESIGNATION: SITE IS IN SPECIAL FLOOD HAZARD AREA ZONE X (UNSHADED), PER FEMA FLOOD MAP 06039C1155E, BEARING AN EFFECTIVE DATE OF SEPTEMBER 26, 2008.

4 GROSS LAND AREA: ±18.66 ACRES (±18.37 ACRES NET)

6 ZONING: INFORMATION PER MUNICIPAL CODE 2020 S-45 (CURRENT)
(A) CURRENT ZONING: INDUSTRIAL (IP)
(B) ZONING SETBACK REQUIREMENTS:
HEIGHT: NO STRUCTURE IN THE IP ZONES SHALL EXCEED 50 FEET IN HEIGHT EXCEPT UPON APPROVAL OF A CONDITIONAL USE PERMIT BY THE PLANNING COMMISSION.
FRONT YARDS: FRONT YARDS SHALL HAVE A MINIMUM DEPTH OF 50 FEET.
SIDE YARDS: THERE SHALL BE A MINIMUM COMBINED SIDE YARD WIDTH OF 40 FEET FOR BOTH SIDES, AND NO ONE SIDE YARD SHALL HAVE A WIDTH OF LESS THAN TEN FEET. FOR EVERY ONE FOOT THE BUILDING EXCEEDS 30 FEET IN HEIGHT, ONE ADDITIONAL FOOT OF SIDE YARD SHALL BE REQUIRED ON EACH SIDE. SIDE YARDS ON THE STREET SIDE OF CORNER. LOTS SHALL BE EQUAL IN DEPTH TO THE FRONT YARD REQUIREMENTS SET FORTH IN SUBSECTION §10-3.11.512(A) OF THIS SECTION.
REAR YARDS: REAR YARDS SHALL HAVE A MINIMUM DEPTH OF 20 FEET.

7 BUILDINGS:
(A) EXTERIOR DIMENSIONS: NO BUILDINGS ON THE PROPERTY
(B)(1) SQUARE FOOTAGE: NO BUILDINGS ON THE PROPERTY

8 SUBSTANTIAL FEATURES: SHOWN ON MAP

9 PARKING STALLS: THERE ARE NO PARKING STALLS ON THE PROPERTY

10 PARTY WALLS: NONE DESIGNATED BY CLIENT

11 UNDERGROUND UTILITIES:
A) PER PLANS OR REPORTS PROVIDED BY CLIENT: NO PLANS WERE PROVIDED BY THE CLIENT. ALL SURFACE UTILITY EVIDENCE IS SHOWN ON MAP.

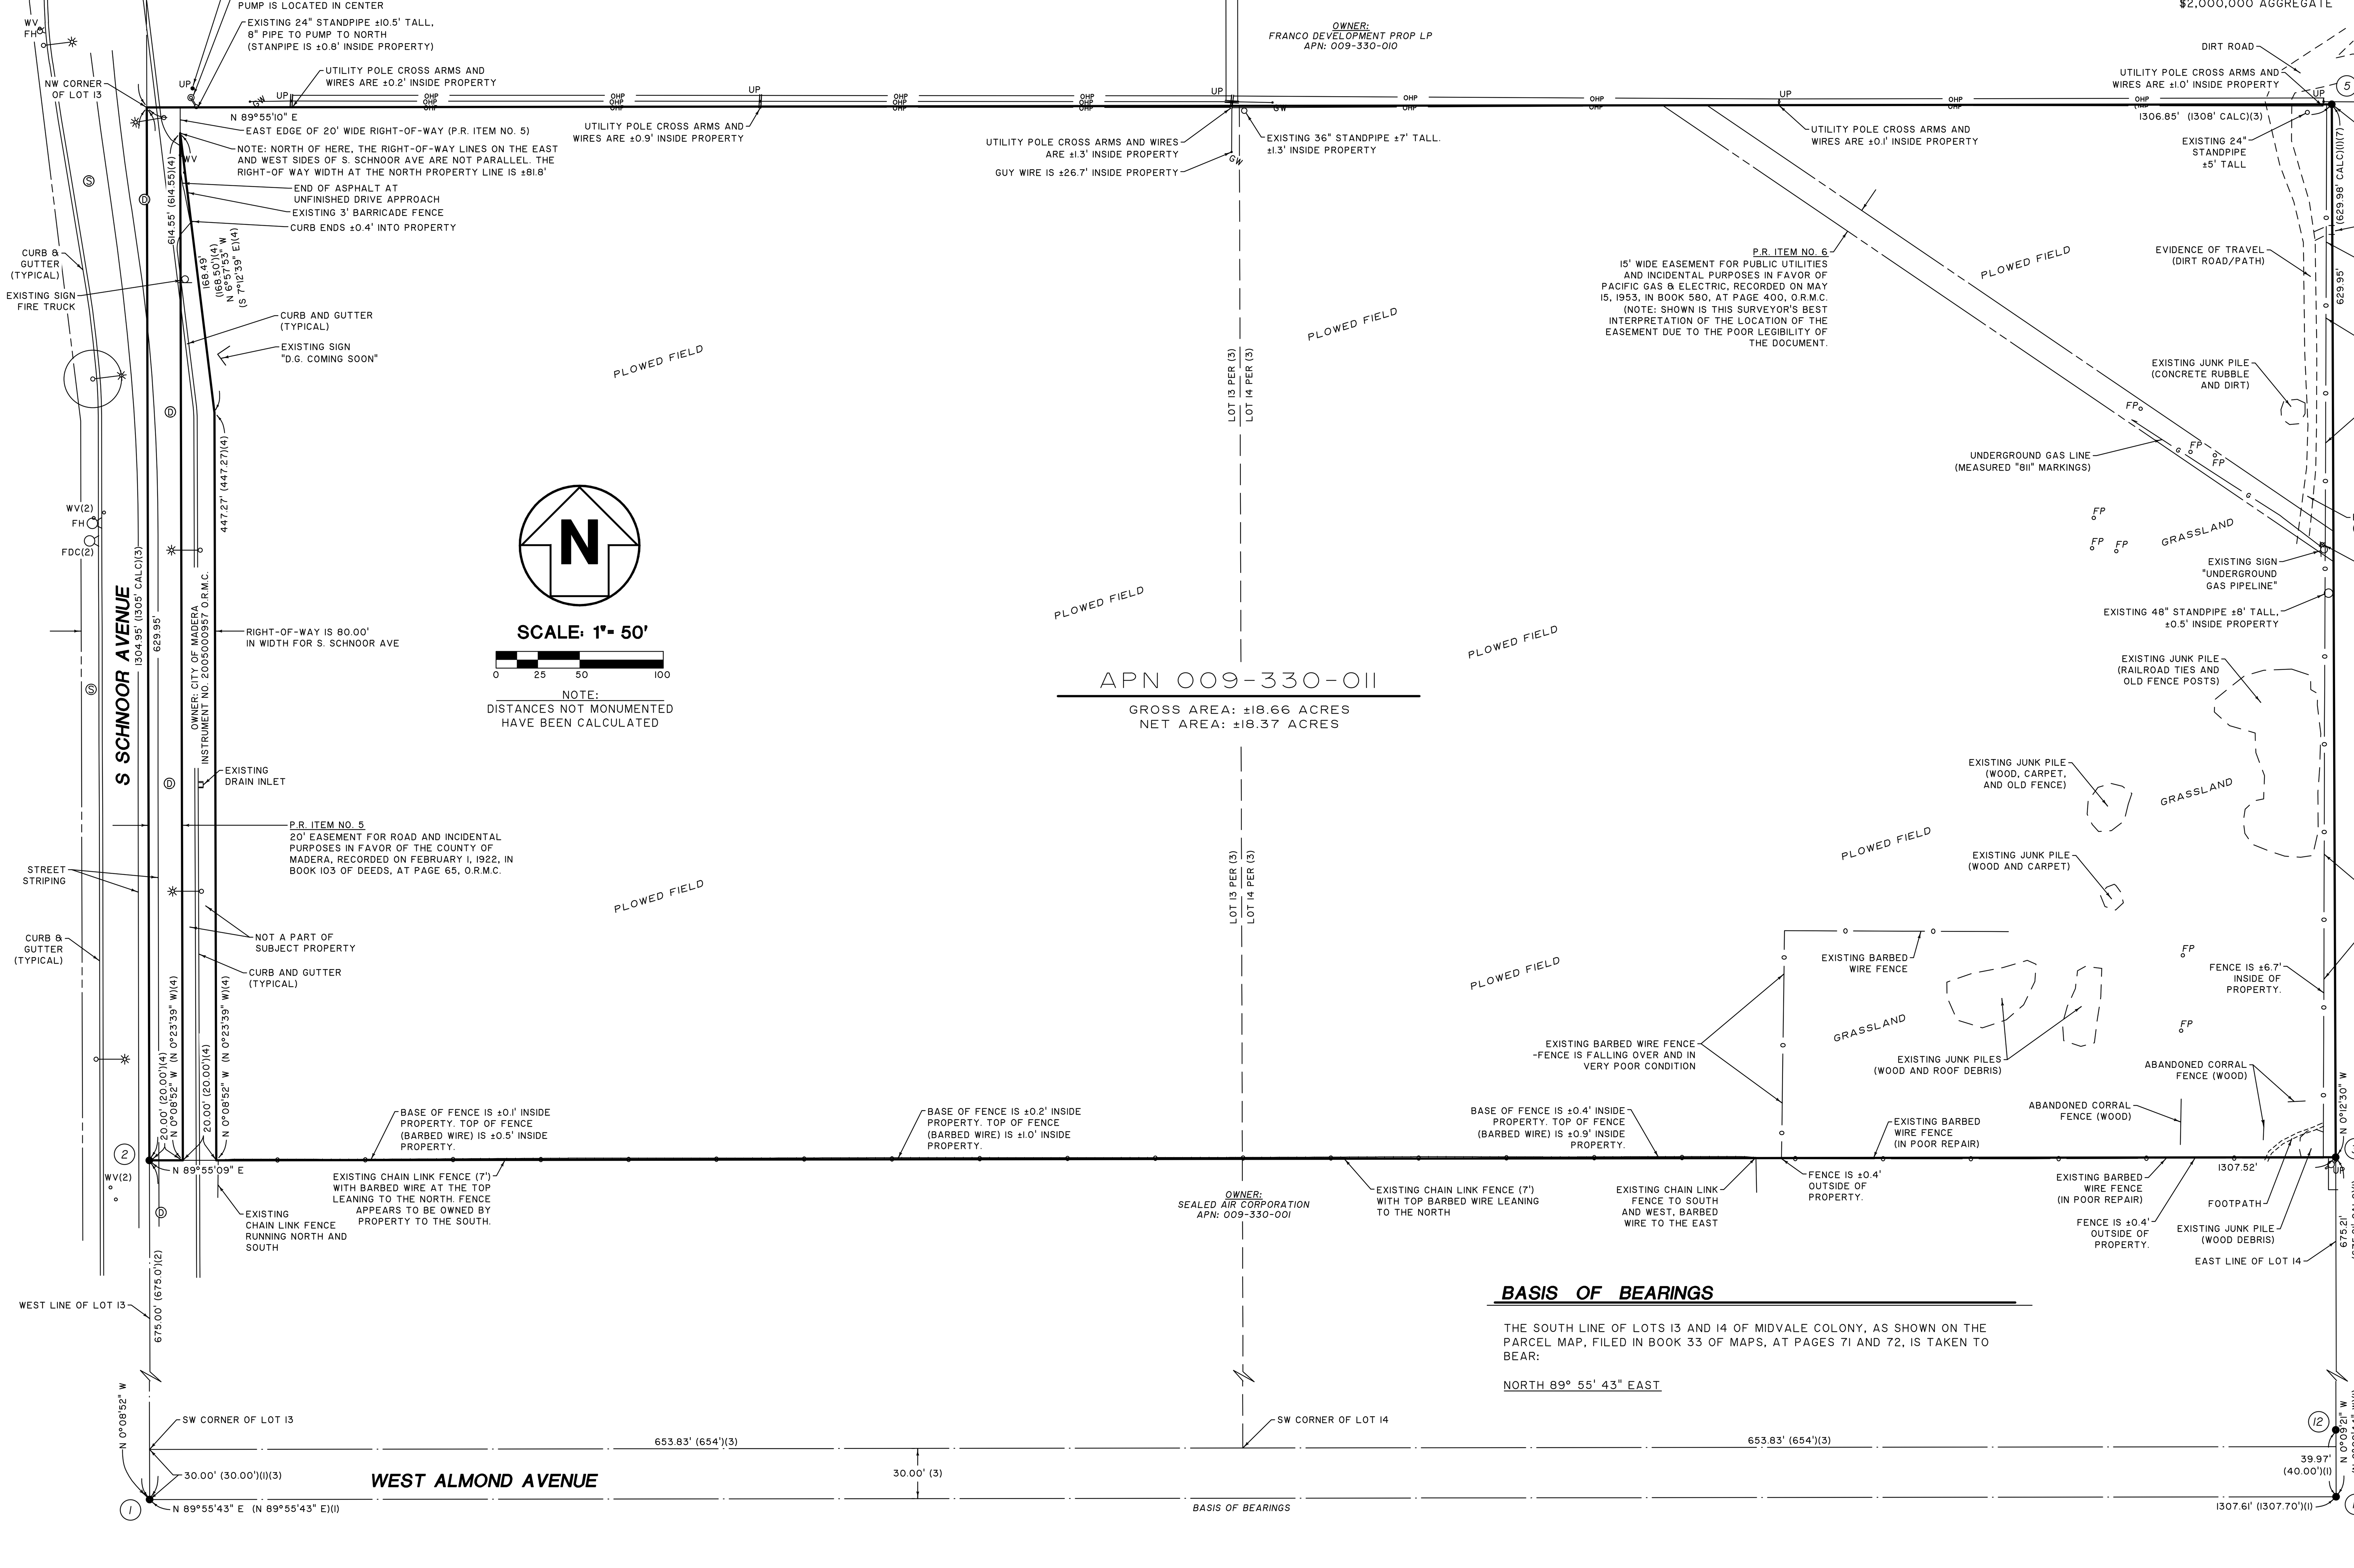
13 ADJOINING OWNERS: SHOWN ON MAP

16 OBSERVABLE EVIDENCE OF EARTH MOVING WORK, BUILDING CONSTRUCTION OR BUILDING ADDITIONS : NO OBSERVABLE EVIDENCE TO SO INDICATE

17 PROPOSED CHANGES IN STREET RIGHT OF WAY LINES, OBSERVABLE EVIDENCE OF RECENT STREET OR SIDEWALK CONSTRUCTION OR REPAIRS: NO OBSERVABLE EVIDENCE TO SO INDICATE

18 PLOTTABLE OFFSITE (I.E. APPURTENANT) EASEMENTS DISCLOSED IN DOCUMENTS PROVIDED TO OR OBTAINED BY THE SURVEYOR: NONE IDENTIFIED

19 PROFESSIONAL LIABILITY INSURANCE: $1,000,000 PER CLAIM
$2,000,000 AGGREGATE



BASIS OF BEARINGS

Subject: Phase I Environmental Site Assessment
West Industrial Avenue and Schnoor Avenue
West Industrial Avenue and Schnoor Avenue, Madera, California
EBI Project No. 1121006564

Dear Mr. Boeckman:

Attached please find our *Phase I Environmental Site Assessment* (the report) for the above-mentioned asset (the Subject Property). During the survey and research, our surveyor spoke with agents representing the Subject Property, or agents of the owner, and reviewed the Subject Property and its history. The report was completed according to the terms and conditions authorized by you, the Client. This report has been completed in conformance with the ASTM Standard E 1527-13 and the Special Terms and Conditions for Third Party Due Diligence Services between Knighthead Funding, LLC and EnviroBusiness, Inc. dated August 27, 2021.

The purpose of this report is to assist Knighthead Funding, LLC in its underwriting of a proposed mortgage loan on the Subject Property described herein.

This report is addressed to Knighthead Funding, LLC and their respective successors and assigns.

Reliance on the report and the information contained herein shall mean (i) the report may be relied upon by Knighthead Funding, LLC, in determining whether to make a loan evidenced by a note secured by the Subject Property ("the Mortgage Loan"); (ii) the report may be relied upon by any loan purchaser in determining whether to purchase the Mortgage Loan from Knighthead Funding, LLC, or an interest in the Mortgage Loan or securities backed or secured by the Mortgage Loan, and any rating agency rating securities representing an interest in the Mortgage Loan or backed or secured by the Mortgage Loan; (iii) the report may be referred to in and included, in whole or in part, with materials offering for sale the Mortgage Loan or an interest in the Mortgage Loan or securities backed or secured by the Mortgage Loan; and (iv) the report speaks only as of its date in the absence of a specific written update of the report signed and delivered by EBI Consulting.

There are no intended or unintended third party beneficiaries to this report, except as expressly stated herein.

EBI is an independent contractor, not an employee of either the issuer or the borrower, and its compensation was not based on the findings or recommendations made in the report or on the closing of any business transaction.

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Thank you very much for the opportunity to provide environmental consulting services to Knighthead Funding, LLC. Should you have any questions or require additional information, please do not hesitate to contact the undersigned.

EXECUTIVE SUMMARY

At the request of Knighthead Funding, LLC, EBI has performed a Phase I Environmental Site Assessment (ESA) of the property located at West Industrial Avenue and Schnoor Avenue in Madera, California, herein referred to as the Subject Property. The main objective of this ESA was to identify *recognized environmental conditions* in connection with the Subject Property, defined in ASTM Practice E 1527-13 as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment, 2) under conditions indicative of a release to the environment, or 3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions. This ESA also includes a preliminary evaluation of certain potential environmental conditions that are outside the scope of ASTM Practice E 1527-13.

The Subject Property includes one rectangular-shaped parcel, totaling approximately 16.57 acres. The Subject Property is currently vacant land that has been cleared and graded for development. There are currently no manufacturing or industrial operations conducted at the Subject Property.

Below is the Assessment Summary Table presenting our recommended actions for the Subject Property. EBI's Findings and Opinions are presented in Section 8.0, and recommendations for further action or investigation are presented in Section 9.0.

1.0 INTRODUCTION

This report documents the findings, opinions, and conclusions of a Phase I Environmental Site Assessment (ESA) of the property located at West Industrial Avenue and Schnoor Avenue in Madera, California.

1.1 PURPOSE

The purpose of this ESA was to identify *recognized environmental conditions* and certain environmental conditions outside the scope of ASTM Practice E 1527-13 in connection with the property at the time of the property reconnaissance.

1.2 SCOPE-OF-SERVICES

This ESA was conducted utilizing a standard of good commercial and customary practice that was consistent with the ASTM Practice E 1527-13. Any significant scope-of-work additions, deletions or deviations to ASTM Practice E 1527-13 are noted below or in the corresponding sections of this report. The scope-of-work for this assessment included an evaluation of the following:

- Physical characteristics of the Subject Property through a review of referenced sources for topographic, geologic, soils and hydrologic data.
- Subject Property history through a review of referenced sources such as land deeds, fire insurance maps, city directories, aerial photographs, prior reports, and interviews.
- Current Subject Property conditions, including observations and interviews regarding the following: the presence or absence of hazardous substances or petroleum products; generation, treatment, storage, or disposal of hazardous, regulated, or biomedical waste; equipment that utilizes oils which potentially contain PCBs; and storage tanks (aboveground and underground).
- Usage of surrounding area properties and the likelihood for releases of hazardous substances and petroleum products (if known and/or suspected) to migrate onto the Subject Property.
- Information in referenced environmental agency databases and local environmental records, within specified minimum search distances.
- Past ownership through a review of available prior reports and local municipal file review.

The scope-of-work also included consideration of the following potential environmental conditions that are outside the scope of ASTM Practice E 1527-13: asbestos-containing materials (ACM), lead-based paint (LBP), lead in drinking water and radon.

1.3 ASSUMPTIONS, LIMITATIONS AND EXCEPTIONS

This Phase I Environmental Site Assessment (the report) has been prepared for the use of Knighthead Funding, LLC, in accordance with our Special Terms and Conditions for Third Party Due Diligence Services approved and signed by Knighthead Funding, LLC (the Agreement), and with the limitations described below, all of which are integral parts of this report. A copy of the signed Special Terms and Conditions for Third Party Due Diligence Services is maintained at the EBI Consulting office in Burlington, Massachusetts. To the extent any provisions of this report conflict with the terms of the Agreement, the Agreement will control.

EBI has performed this Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Standard E 1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. This report was prepared with no exceptions or deletions from ASTM Standard E 1527-13.

This Phase I Environmental Site Assessment has been prepared to assess a parcel of commercial real estate with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and petroleum products. As such, this practice is intended to permit Knighthead Funding, LLC to satisfy one of the requirements to qualify for the innocent

landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability: that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the Subject Property consistent with good commercial or customary practice" as defined in 42 U.S.C. §9601(35)(B).

In defining a standard of good commercial and customary practice for conducting an environmental site assessment of a parcel of property, the goal of the processes established by this practice is to identify *recognized environmental conditions*. The term recognized environmental conditions means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property (1) due to a release to the environment, (2) under conditions that indicate an existing release or a past release, or (3) under conditions that pose a material threat of a future release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term does not include *de minimis* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

The information reported was obtained through sources deemed reasonably ascertainable, as defined in ASTM Standard E 1527-13; a visual site survey of areas readily observable, easily accessible or made accessible by the Subject Property contact and interviews with owners, agents, occupants, or other appropriate persons involved with the Subject Property and a review of standard federal, state, and tribal environmental record sources. Municipal information was obtained through review of reasonably ascertainable standard government record sources and interviews with the authorities having jurisdiction over the Subject Property. Findings, conclusions, and recommendations included in the report are based on our visual observations in the field, the standard environmental record sources and municipal information reasonably obtained, information provided by the Client, and/or a review of readily available and supplied documents and drawings. EBI relies completely on the information, whether written, graphic, or verbal, provided by the Subject Property contact or as shown on any documents reviewed or received from the Subject Property contact, owner or agent, or municipal source, and assumes that information to be true and correct unless the information is known to be inaccurate or if it is obvious, based on other information obtained as part of the assessment, that the information is not accurate. Although there may have been some degree of overlap in the information provided by these various sources, EBI did not attempt to verify independently the accuracy or completeness of all information reviewed or received during the course of these environmental services.

The information reported, as well as EBI's findings, conclusions, and recommendations are based upon sources deemed reasonably ascertainable, as defined in ASTM Standard E 1527-13; a visual site survey of areas readily observable, easily accessible or made accessible by the Subject Property contact and interviews with owners, agents, occupants, or other appropriate persons involved with the Subject Property and a review of standard federal, state, and tribal environmental record sources. Municipal information was obtained through review of reasonably ascertainable standard government record sources and interviews with authorities having jurisdiction over the Subject Property. Knighthead Funding, LLC agrees that EBI has no obligation to independently verify the accuracy or completeness of the information reviewed or received during the course of these environmental services.

EBI renders no opinion as to the presence of hazardous substances or petroleum products in, on or under un-surveyed and/or inaccessible portions of the Subject Property. Unsurveyed and inaccessible portions of the Subject Property are described below. In addition, EBI renders no opinion as to the presence of hazardous substances or petroleum products in, on or under the Subject Property where direct observation of the interior walls, floor, or ceiling of a structure was obstructed by objects or coverings on or over these surfaces.

EBI Services and opinions are based on the scientific or technical tests or procedures specifically set forth in the scope of the Services described in this report. The ASTM Standard E 1527-13 does not encompass analytical testing to evaluate asbestos containing materials, radon, lead-based paint, drinking water quality, indoor air quality, stored chemicals, debris, fill materials, surface water, or subsurface samples (soil and groundwater) as part of a Phase I ESA. Because geologic and soil formations are inherently random, variable, and indeterminate in nature, the Services and opinions provided under this Agreement are not guaranteed to be a representation of actual conditions on the Subject Property, which are also subject to change with time as a result of natural or man-made processes, including water permeation. In performing the Services, EBI used that degree of care and skill ordinarily exercised by environmental consultants or engineers performing similar services in the same or similar locality at the same time and under similar circumstances. No other representation, expressed or implied, and no warranty or guarantee is included or intended. The report

speaks only as of its date, in the absence of a specific written update of the report, signed and delivered by EBI. Additional information that becomes available after our survey and draft submission concerning the Subject Property should be provided to EBI so that our conclusions may be revised and modified if necessary, at additional cost.

Client and EBI agree that to the fullest extent permitted by law, EBI shall not be liable to Client for any special, indirect, consequential, punitive, exemplary, incidental or indirect damages or losses whatsoever, whether caused by EBI's negligence, errors, omissions, strict liability, breach of contract, breach of warranty or other cause or causes whatsoever.

The assessment was conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the profession, and in accordance with generally accepted practices of other consultants currently practicing in the same locality under similar conditions.

1.4 SPECIAL TERMS AND CONDITIONS

This Phase I Environmental Site Assessment (the report) has been prepared to assist Knighthead Funding, LLC in its underwriting of a proposed mortgage loan on the Subject Property. This report can be relied upon by only the parties stated in the transmittal letter at the front of this report. In the event that EBI provides a purchaser written permission to use this report, EBI's liability to such purchaser is limited to the cost of the report. Amendments to EBI's limitations as stated herein that may occur after issuance of the report are considered to be included in this report. Payment for the report is made by, and EBI's contract and report extends to Knighthead Funding, LLC only, in accordance with our Standard Terms and Conditions for Third Party Due Diligence Services.

1.5 DATA GAPS

Any data gaps identified herein, as defined by ASTM Practice E 1527-13 § 3.2.20, are not considered to have significantly affected the ability to identify recognized environmental conditions in connection with the Subject Property and do not alter the conclusions of this report.

2.0 SUBJECT PROPERTY DESCRIPTION

2.1 OWNERSHIP AND LOCATION

According to the Madera County Assessor's Office and Ms. Allison Higgins, the Subject Property is currently owned by Madera Industrial WHSE LLC.

The Subject Property is located at West Industrial Avenue and Schnoor Avenue in Madera, Madera County, California. The Subject Property includes one rectangular-shaped parcel, identified by the Madera County Assessor's Office as Map 009, Parcel 330, Lot 011, totaling approximately 16.57 acres. The Subject Property is located at the southeast quadrant of the intersection of Industrial Avenue and Schnoor Avenue. Figure 1 depicts the location of the Subject Property on a street map of Madera, California. Figure 2 depicts the location of the Subject Property on the Madera, California United States Geological Survey (USGS) 7.5 Minute Topographic Quadrangle. Figure 3 depicts the configuration of the Subject Property and adjoining properties.

2.2 SUBJECT PROPERTY IMPROVEMENTS

The Subject Property is vacant land that has been cleared and graded for development.

2.3 CURRENT USE OF THE SUBJECT PROPERTY

At the time of assessment, the Subject Property consisted of vacant land that has been cleared and graded. There are currently no manufacturing or industrial operations conducted at the Subject Property.

2.4 MUNICIPAL SERVICES & UTILITIES

The Subject Property is serviced by the following municipal services and utilities:

MUNICIPAL SERVICES AND UTILITIES	
Utility	**Provider/Source**
Potable Water Supply	Madera Water District
Sewage Disposal System	Madera Water District
Electrical Service	Pacific Gas & Electric (PG&E)
Natural Gas Service	Pacific Gas & Electric (PG&E)
Oil Service	N/A
Heating/Cooling Systems	NA
Emergency Power	N/A

2.5 ADJOINING PROPERTIES

Property use in the vicinity of the Subject Property is primarily characterized by residential and retail / commercial development, as well as agricultural land.

ADJOINING PROPERTIES	
Direction	**Findings**
North	The Subject Property is bound to the north by vacant land.
South	The Subject Property is bound to the south by Sealed Air (1835 North Almond Street).
East	The Subject Property is bound to the east by vacant land.
West	The Subject Property is bound to the west by Schnoor Avenue, beyond which is Fire Station #2 (200 South Schnoor Avenue), Purl's Sheet Metal & Air Conditioning (232 South Schnoor Avenue) and Nutra Blend (214 West Industrial Avenue).

No visual evidence of adverse environmental conditions was observed during the survey of the adjoining properties. Adjacent properties identified in the database report are further discussed in Section 4.1.1.

2.6 PHYSICAL SETTING

2.6.1 Topography

The Subject Property is located at an elevation of approximately 260 feet above mean sea level (msl). The topography of the Subject Property is relatively flat and slopes gently to the southwest. The Subject Property is located in a relatively flat area, and the general slope of the surrounding region is to the west-southwest (see Figure 2, which depicts the location of the Subject Property on the Madera, California USGS 7.5 Minute Topographic Quadrangle).

2.6.2 Geology and Soils

No bedrock outcroppings were observed at the Subject Property. Information concerning the geology of the Subject Property was obtained from the USGS Ground Water Atlas of the United States, California region (1995). The Subject Property is located within the Sierra Nevada batholith. Granitic rock underlies the region and is identified as early cretaceous age. The western metamorphic belt north of the Subject Property includes Jurassic age metavolcanic rocks and surrounding Triassic age slate and phillite with interbedded quartzite and chart alluvial deposits occupy the bottoms of the major drainages that flow westerly from the Sierra Nevada mountains.

According to the Natural Resources Conservation Service (NRCS) Web Soil Survey (WSS) website (http://websoilsurvey.nrcs.usda.gov/app/), the dominant soil composition in the vicinity of the Subject Property is classified as Ahwahnec and Auberry coarse sandy loams. Lower alluvial soils were deposited by streams. These soils are fine to coarse-grained sand, silty sand and some fine grained layer. Typically alluvial soils are loose to medium dense, moist to partially saturated, porous soils.

2.6.3 Hydrogeology and Hydrology

No natural surface water bodies were identified on or adjacent to the Subject Property. The nearest downgradient surface water body is an engineered channel, located approximately 3,800 feet southwest of the Subject Property.

Local groundwater gradient is expected to follow surface topography; therefore, groundwater flow near the Subject Property is expected to flow to the west-southwest. Groundwater depths and flow gradients are best evaluated by a subsurface investigation involving the installation of at least three groundwater monitoring wells and precise measurements of hydrostatic pressure. Monitoring wells were not observed on the Subject Property.

3.0 USER PROVIDED INFORMATION

The following section summarizes information provided by Knighthead Funding, LLC, the User, with regard to this Phase I Environmental Site Assessment. Additionally, a User Questionnaire was forwarded to the designated client contact. The User Questionnaire has not been completed and returned to our offices. The information requested in the User Questionnaire is intended to assist in gathering information that may be material to identifying recognized environmental conditions in connection with the Subject Property. Relevant documentation referenced below is presented in Appendix C.

3.1 TITLE RECORDS

Title record information associated with the Subject Property has not been provided to EBI by the User. A detailed discussion regarding review of information obtained from other sources is presented in Section 4.2.3 of this report.

3.2 ENVIRONMENTAL LIENS AND ACTIVITY AND USE LIMITATIONS

The User has provided no information regarding environmental liens or activity and use limitations in connection with the Subject Property. A discussion regarding environmental liens is presented in Section 4.2.5 of this report. A detailed discussion regarding activity and use limitations is presented in Sections 4.1.1 and 4.1.2 of this report.

3.3 SPECIALIZED KNOWLEDGE

The User provided no specialized knowledge that is material to recognized environmental conditions in connection with the Subject Property. EBI was not provided with or made aware of previous environmental assessments or other documentation that is material to recognized environmental conditions in connection with the Subject Property, except as presented in Section 4.2.6 of this report.

3.4 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

The User has provided no commonly known or reasonably ascertainable information within the local community about the Subject Property that is material to recognized environmental conditions in connection with the Subject Property.

3.5 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

The User has provided no information regarding valuation reduction for environmental issues in connection with the Subject Property.

3.6 OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

The User provided contact information for the Subject Property owner, manager and/or occupants.

3.7 REASON FOR PERFORMING PHASE I ESA

The User retained EBI to complete this Phase I Environmental Site Assessment in connection with a real estate transaction.

4.0 RECORDS REVIEW

4.1 STANDARD ENVIRONMENTAL RECORDS

A review of standard environmental databases maintained by federal, state, and tribal offices was completed through Environmental Data Resources, Inc. (EDR) of Shelton, Connecticut. The databases were searched for properties with reported environmental conditions located within approximate minimum search distances as specified by ASTM Standard E 1527-13, by using geocoding information that identified the coordinates of the properties in the databases or by checking the street addresses of practically reviewable non-geocoded "orphan" properties within the same zip code. The database report is presented in Appendix E.

The database report did not identify any "orphan sites." Orphan sites are those sites that could not be accurately mapped or geocoded due to inadequate location information.

It should be noted that plotted locations of listed sites are not always accurate. With regard to listings that are determined or suspected to be inaccurate, based on information from other sources such as direct observation or consultation with individuals familiar with the property, EBI uses the best available data when evaluating the location of listed sites discussed below.

The following table provides a summary of the findings of the environmental database report. Specific properties identified within the database report are further discussed in the sections below. Properties that are identified within the database report that are not discussed further in the sections below are not considered to be a concern to the Subject Property based on one or more of the following rationale: absence of reported releases, current regulatory status, distance, presumed hydrogeologic gradient and/or nature/extent of contamination.

SUMMARY OF FEDERAL, STATE, AND TRIBAL AGENCY DATABASE FINDINGS								
Database	**Target Property**	**Search Distance (Miles)**	**< 1/8**	**1/8 - 1/4**	**1/4 - 1/2**	**1/2 - 1**	**> 1**	**Total Plotted**

4.1.1 Federal, State and Tribal Agency Database Records

National Priority List (NPL)
The NPL database, also known as the Superfund List, is a subset of CERCLIS and identifies sites that are ranked as high priority for remedial action under the Federal Superfund Act and is searched to 1.0 mile.

Delisted National Priority List (NPL)
The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate. The Delisted NPL database is searched to 0.5 mile.

Superfund Enterprise Management System (SEMS)
SEMS tracks federal hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of the USEPA's Superfund Program. The list was formerly known as CERCLIS and was renamed at the end of 2015. The list contains data regarding potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies, and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). SEMS also contains sites that are either proposed to or on the National Priority List (NPL), as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. SEMS is searched to 0.5 mile.

SEMS - ARCHIVE
SEMS - ARCHIVE tracks sites that have been removed from the SEMS list. This list was formerly known as the CERCLIS- NFRAP list and was renamed SEMS - Archive at the end of 2015. SEMS-ARCHIVE sites may be sites where, following an initial investigation, no contamination was found, contamination was removed without the need for the site to be placed on the NPL, or the contamination was not considered sufficient to warrant Federal Superfund action or NPL consideration. SEMS - Archive is searched to 0.5 mile.

Resource Conservation and Recovery Act (RCRA) - Corrective Action Tracking System (CORRACTS)
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information regarding sites that generate, transport, store, treat, and/or dispose of hazardous waste as defined by RCRA. The RCRA-CORRACTS database identifies TSD facilities that have conducted, or are currently conducting, corrective action(s) as regulated under RCRA and is searched to 1.0 mile.

RCRA non-CORRACTS Treatment, Storage and/or Disposal (TSD) Facilities

RCRA non-CORRACTS Treatment, Storage and/or Disposal (TSD) facilities are required to register hazardous waste activity under the Resource Conservation and Recovery Act (RCRA), and the database is searched to 0.5 mile.

RCRA Hazardous Waste Generators
Hazardous waste generators tracked under the Resource Conservation and Recovery Act (RCRA) are classified as either Large Quantity Generators (LQGs), Small Quantity Generators (SQGs), or Conditionally Exempt Small Quantity Generators (CESQG). A RCRA-LQG is defined as a facility that generates over 1,000 kilograms (Kg) of hazardous waste, or over 1 Kg of acutely hazardous waste per month. A RCRA-SQG is defined as a facility that generates between 100 Kg and 1,000 Kg of hazardous waste per month. A RCRA-CESQG is defined as a facility that generates less than 100 Kg of hazardous waste, or less than 1 Kg of acutely hazardous waste per month. RCRA Hazardous Waste Generator listings are searched for the Subject Property and adjacent properties only.

Federal Engineering Control / Institutional Control Registries
The completion of site cleanup activities may include the implementation of engineering controls or institutional controls as part of the response action. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls. Federal Engineering Control / Institutional Control Registries are searched to 0.5 mile.

Emergency Response Notification System (ERNS)
ERNS is a national database used to collect information regarding reported releases of petroleum products and/or hazardous substances. The database contains information from spill reports submitted to Federal agencies, including the EPA, the U.S. Coast Guard, the National Response Center, and the U.S. Department of Transportation. A review of this database was conducted in order to determine whether any spills or incidents involving releases of hazardous substances or petroleum products have occurred at the Subject Property.

State and Tribal equivalent NPL Sites and CERCLIS Sites
State and tribal equivalent NPL and CERCLIS databases were searched for sites located within 1.0 mile and 0.5 mile of the Subject Property, respectively.

State and Tribal Spills Sites (Spills)
A review of available Spills databases was conducted in order to determine whether any spills or incidents involving releases of hazardous substances or petroleum products have occurred at the Subject Property.

State and Tribal Landfill Sites and Solid Waste Disposal Sites
The state and tribal landfill and solid waste disposal site databases identify active or inactive landfill and transfer station facilities, as well as open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites and are searched to 0.5 mile.

State and Tribal Registered Storage Tank Sites
The State Registered Storage Tank database is a listing of sites with registered above ground and/or underground storage tanks and is searched for Subject Property listings and adjoining property listings.

State and Tribal Leaking Storage Tank Sites
Leaking Storage Tank Sites are properties where releases of hazardous substances or petroleum products from underground storage tanks (USTs) and/or aboveground storage tanks (ASTs) have been identified and reported to state, tribal, or local agencies. State and Tribal Leaking Storage Tank databases are searched to 0.5 mile.

Voluntary Cleanup Program (VCP) Properties
The Voluntary Cleanup Program (VCP) database identifies sites that are undergoing self-directed investigation/cleanups under the guidance of the state regulatory agency. The VCP database is searched to 0.5 mile.

State and Tribal Engineering Control / Institutional Control Registries

The completion of site cleanup activities may include the implementation of engineering controls or institutional controls as part of the response action. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls. State and Tribal Engineering Control / Institutional Control Registries are searched to 0.5 mile.

State and Tribal Brownfields Sites

Brownfields are properties for which the expansion, redevelopment, or reuse may be complicated by the presence or potential presence of a hazardous substance, pollutant or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Listing as a Brownfield site or a property that may be within a larger designated Brownfield area, does not necessarily indicate the property itself is contaminated. State and Tribal Brownfield databases were searched to 0.5 mile.

Detail Summary	
Site Name:	Bomante Corp.
Databases:	RCRA-SQG, FINDS, ECHO
Address:	232 South Schnoor Avenue
Distance:	Adjacent [Across Schnoor Avenue]
Direction:	West
Gradient:	Downgradient
ID No.:	RCRA-SQG: CAR000070987
Comments:	The site is listed on the 2000 RCRA-SQG database for the following COCs: corrosive waste, chromium and non-halogenated solvents. No violations found. The site is listed on the FINDS database for monitoring and compliance under RCRA. The site is listed on the ECHO database for monitoring and enforcement under RCRA. Based upon the absence of reported violations and conditions observed during EBI's reconnaissance, the listed activity is not expected to represent an environmental concern.

Site Name:	Fire Station 2, Fire Station 7
Databases:	SWEEPS UST, HIST UST, CUPA LISTING, HAZNET, HWTS
Address:	200 South Schnoor Street
Distance:	Adjacent [Across Schnoor Avenue]
Direction:	West
Gradient:	Downgradient
ID No.:	N/A
Comments:	Fire Station 2: The site is listed on the SWEEPS UST database for two 850-gallon tanks for motor vehicle fuel with an active status. The site is listed on the HIST UST database for two 1,000-gallon tanks for unleaded fuel which were installed in 1978. Fire Station 7: The site is listed on the CUPA LISTING database for hazardous materials inventory - oxygen storage. The site is listed on the HAZNET database in 1996 for 0.10 tons of oil containing waste which was sent to a recycler. The site is listed on the HWTS database with a create date of 01/10/1996 and an in active date of 10/25/2000. Based upon the absence of reported releases, distance and expected hydrogeologic gradient relative to the Subject Property, the listed activity is not expected to represent an environmental concern.

Federal, State and Tribal Agency Database Records Summary

The above-listed and remaining identified Federal, State and Tribal Agency Database listings are not considered an environmental concern to the Subject Property based on one or more of the following rationale: absence of reported releases, current regulatory status, distance, presumed hydrogeologic gradient and/or nature/extent of contamination.

4.1.2 Local Regulatory Agency Records

Local municipal offices consulted during the completion of this assessment included the following:

City of Madera Building Department
EBI submitted a written request to the City of Madera Building Department for information regarding past uses of the Subject Property, in accordance with the Freedom of Information Act (FOIA). As of the date of this report, EBI has not received a response to this inquiry. Upon receipt of the agency response, if the provided information has a material effect on the findings of this report, EBI will forward this information as an addendum to this report. If no response is received, or no material information is identified, our report will not be modified.

City of Madera Fire Department
EBI submitted a written request to the City of Madera Fire Department for information regarding the generation, transportation, storage, treatment, disposal, and/or spills or releases of hazardous substances or petroleum products at the Subject Property, in accordance with the Freedom of Information Act (FOIA). As of the date of this report, EBI has not received a response to this inquiry. Upon receipt of the agency response, if the provided information has a material effect on the findings of this report, EBI will forward this information as an addendum to this report. If no response is received, or no material information is identified, our report will not be modified.

Madera County Environmental Health Department
EBI submitted a written request to the City of Eastvale Department of Public Works for information regarding above ground storage tanks, underground storage tanks, the generation, transportation, storage, treatment, disposal, and/or spills or releases of hazardous substances or petroleum products at the Subject Property, in accordance with the Freedom of Information Act (FOIA). As of the date of this report, EBI has not received a response to its written inquiry. Upon receipt of the agency response, if the provided information has a material effect on the findings of this report, EBI will forward this information as an addendum to this report. If no response is received, or no material information is identified, our report will not be modified.

Department of Toxic Substances Control (DTSC)
EBI searched the DTSC's databases of Hazardous Waste and Substances Site List Site Cleanup and EnviroStor List that includes NPL sites, State Response Sites, Voluntary Cleanup Sites, School Cleanup Sites and Corrective Action Sites at the website *http://www.envirostor.dtsc.ca.gov/public/default.asp*. The Subject Property was not identified on the databases.

State Water Resources Control Board (CRWQCB)
EBI searched the CRWQCB's GeoTracker database at the website *https://geotracker.waterboards.ca.gov*. This website lists regulated facilities in California including leaking USTs, other contaminated properties reported on the Spills, Leaks, Investigations and Cleanup List (SLIC), wells, land disposal sites, military sites and permitted UST sites. The Subject Property was not identified on the database.

4.1.3 Vapor Migration

EBI conducted a vapor migration screening survey of the Subject Property. EBI's site observations and review of the environmental database report (cited in Section 4.1) did not identify any conditions on the Subject Property or on adjoining properties that would indicate a REC relative to vapor migration at the Subject Property.

This vapor migration screening was conducted in accordance with ASTM E1527-13 and is not intended to satisfy the requirements of ASTM E2600-15. The scope of this screening was limited to visual observations and review of the environmental database report and did not include the collection and laboratory analysis of air samples to confirm or refute the presence of airborne contaminants by vapor intrusion.

4.2 HISTORICAL USE OF THE SUBJECT PROPERTY AND ADJOINING PROPERTIES

EBI attempted to determine the history of the Subject Property dating back to 1940 or first developed use.

No environmentally significant conditions were identified on the Subject Property or surrounding properties during the historical review. The Subject Property appears to have been agricultural land dating back to at least 1937 and by the 1960s was vacant land. The historical use of the Subject Property and surrounding area is summarized in the following sections.

4.2.1 Aerial Photographs and Maps

Historical aerial photographs and historical fire insurance maps may be used to evaluate changes in land use and to identify visible/labeled areas of potential environmental concern. Historical topographic maps provide information related to physical land configuration such as elevation, ground slope, surface water and other features. While most buildings in densely developed urban centers are not depicted, topographic maps typically show structures equal to or larger than the size of a single-family residence in rural areas. Other notable features such as woods, pipelines, municipal boundaries, and areas of filled land are often marked on topographic maps.

A search for historical aerial photographs, historical fire insurance maps and historical topographic maps depicting the Subject Property and vicinity was conducted by Environmental Data Resources, Inc. (EDR). The EDR Report indicated that fire insurance map coverage for the vicinity of the Subject Property was not available. Historical images depicting the Subject Property reviewed are summarized in the following table. Copies of the images are presented in Appendix F.

AERIAL PHOTOGRAPH AND MAP SUMMARY			
Period	**Subject Property Historical Uses**	**Surrounding Area Historical Uses**	**Source(s)**
1937, 1946, 1950, 1957	The Subject Property appears to be agricultural land.	The surrounding properties to the north, east and south appear to be agricultural land and the surrounding property to the west appears to be undeveloped land.	Aerial Photographs
1962, 1972	The Subject Property appears to be vacant land.	The surrounding properties to the north, east and south appear to be vacant land and the conditions on the surrounding property to west appear to be similar to those depicted in the previous photographs.	Aerial Photographs
1978	Conditions on the Subject Property appear to be similar to those depicted in the previous photographs.	Conditions on the surrounding properties to the north, east and south appear to be similar to those depicted in the previous photographs and the surrounding property to the west appears to be developed commercially.	Aerial Photographs
1981, 1984	Conditions on the Subject Property appear to be similar to those depicted in the previous photograph.	Conditions on the surrounding properties to the north, south and west appear to be similar to those depicted in the previous photograph and the surrounding property to the east appears to be agricultural land.	Aerial Photographs
1998, 2006, 2009, 2012, 2016	Conditions on the Subject Property appear to be similar to those depicted in the previous photographs.	Conditions on the surrounding properties to the north and west appear to be similar to those depicted in the previous photographs and the surrounding properties to the east and south appear to be developed commercially.	Aerial Photographs

1922, 1946, 1947	The Subject Property appears to be undeveloped land.	The surrounding properties to the north, east, south and west appear to be undeveloped land.	Topographic Maps
1963, 1981	Conditions on the Subject Property appear to be similar to those depicted on the previous maps.	The surrounding property to the north is undeveloped. Conditions on the surrounding properties to the east and south appear to be similar to those depicted on the previous maps and the surrounding property to the west appears to be a roadway followed by a park.	Topographic Maps
2012	The map depicts topography and infrastructure; distinct buildings are not shown.	The map depicts topography and infrastructure; distinct buildings are not shown.	Topographic Maps

4.2.2 Street Directories

Street directories are commercial publications containing names and addresses, and in many cases, occupations of the occupants of a particular community. The directories may also contain information pertaining to business processes conducted within a community. A search for historical street directories was conducted by Environmental Data Resources, Inc. (EDR). The EDR Report indicated that coverage for the vicinity of the Subject Property was not available. A copy of the search documentation letter is presented in Appendix F.

4.2.3 Recorded Land Title Records

Land title records provide information on previous ownership of a property. Typically, deeds signifying transfer of a land parcel are recorded in county files and can be researched to determine the identity of past owners. A "chain of title" is a continuous record of ownership for a specific parcel. A 50-year chain of title search was not included in the scope of work for this assessment.

4.2.4 Property Tax Records

The property card for the Subject Property was obtained at the Madera County Assessor's Office. The property card identifies the current owner as Madera Industrial WHSE LLC, which acquired the Subject Property on August 10, 2021. A listing of the former Subject Property owners was not available for review. Copies of the property tax records are presented in Appendix C.

4.2.5 Environmental Liens and Activity and Use Limitations

A search for Environmental Liens and Activity and Use Limitations was not included in the scope of this assessment.

4.2.6 Previous Environmental Reports

EBI was not provided with or made aware of previous environmental assessments or other documentation regarding environmental investigations performed for the Subject Property. EBI did not identify previous environmental reports for the Subject Property at local agencies or other sources contacted during this assessment.

4.2.7 Other Historical Records and Interviews

Ms. Allison Higgins, Mortgage Broker and Senior Vice President of George Smith Partners, was interviewed to obtain information regarding the history of the Subject Property. Ms. Higgins reported that she has been familiar with the Subject Property for one month. Ms. Higgins was unaware of any environmental concerns associated with the Subject Property.

5.0 SUBJECT PROPERTY RECONNAISSANCE

The Subject Property reconnaissance was conducted by Mr. Ron Russell, EBI Field Assessor, on September 10, 2021. Mr. Russell was unaccompanied during the site reconnaissance.

5.1 METHODOLOGY AND LIMITING CONDITIONS

The Subject Property reconnaissance consisted of visual and/or physical observations of the Subject Property and improvements, if any, adjoining properties as viewed from the Subject Property boundaries, and the surrounding area based on visual observations made from adjacent public thoroughfares. Unimproved portions of the Subject Property were observed along the perimeter and in a general grid pattern in safely accessible areas.

At the time of the survey, the weather was sunny and approximately 80º Fahrenheit. The Subject Property is vacant land that has been cleared and graded for development. The Subject Property is covered with dirt and shrubs. There were no significant portions of the Subject Property that were inaccessible or excluded from this survey.

5.2 HAZARDOUS SUBSTANCES AND PETROLEUM PRODUCTS

5.2.1 Hazardous Substances and Petroleum Products (Identified Uses)

Notable hazardous substances or petroleum products in connection with identified uses were not observed at the Subject Property during the site reconnaissance.

EBI did not observe evidence of hazardous substances or petroleum products containers at the Subject Property that were not in connection with identified uses.

5.2.2 Hazardous Substances and Petroleum Products (Unidentified Uses)

EBI did not observe evidence of hazardous substance or petroleum products containers at the Subject Property.

5.2.3 Unidentified Substances Containers

EBI did not observe evidence of unidentified substances containers at the Subject Property.

5.3 WASTE GENERATION, STORAGE, AND DISPOSAL

EBI did not identify waste streams generated at the Subject Property. No evidence of improper solid waste management or the improper disposal of hazardous substances or petroleum products was observed at the time of reconnaissance.

No evidence of improper solid waste management or the improper disposal of hazardous substances or petroleum products was observed at the time of reconnaissance.

5.4 UNDERGROUND STORAGE TANKS (USTS) & ABOVEGROUND STORAGE TANKS (ASTS)

5.4.1 Existing Storage Tanks

Based upon site reconnaissance, interviews, and a review of state and local records, EBI identified no evidence of existing USTs or ASTs located at the Subject Property.

5.4.2 Former Storage Tanks

Based upon site reconnaissance, interviews, and a review of state and local records, EBI identified no evidence of former USTs or ASTs located at the Subject Property.

5.5 OIL-CONTAINING EQUIPMENT AND POLYCHLORINATED BIPHENYLS (PCBS)

Polychlorinated biphenyls (PCBs) are a chemical component of many dielectric fluids, heat transfer fluids, hydraulic fluids, lubricating oils, paints, or coatings manufactured prior to July 2, 1979. Equipment that may potentially contain PCBs includes electrical equipment such as transformers or capacitors or hydraulically operated equipment, such as elevators, compaction equipment, or manufacturing equipment. The manufacture and distribution in commerce of PCBs was banned for use in 1979 by the United States Congress, which enacted the Toxic Substance and Control Act (TSCA). In accordance with US Code of Federal Regulations Title 40 - Protection of Environment, Chapter 1 - Environmental Protection Agency, Subchapter R - Toxic Substance Control Act (TSCA), Part 761 - Polychlorinated Biphenyls (PCBs) Manufacturing, Processing, Distribution in Commerce, and Use Prohibitions, the owner of a transformer or other PCB-containing equipment is responsible for equipment maintenance and remediation in the event of a leak or release.

The following oil-containing equipment was identified at the Subject Property:

OIL-CONTAINING EQUIPMENT			
Classification	**Type of Equipment**	**Year Installed / Location**	**Staining / Releases Identified**
Transformers and Fluid-Containing Electrical Equipment	None identified	N/A	No
Hydraulic Equipment	None identified	N/A	NA
Other Oil-containing Equipment	None identified	N/A	NA

5.6 ADDITIONAL SITE CONDITIONS

The following is a summary of visual and/or physical observations of the Subject Property on the day of the site visit. Photographs of pertinent Subject Property features are presented in Appendix A.

ADDITIONAL SITE CONDITIONS	
Condition	**Identified**
Interior Drains, Trenches, or Sumps	No
Interior Stains or Corrosion	No
Unusual Odors	No
Interior Pools of Liquid	No
Stained Soil or Pavement	No
Stressed Vegetation	No
Indications of Solid Waste Disposal	No
Exterior Pits, Ponds, or Lagoons	No
Wastewater or Stormwater Discharge/Disposal	No
Oil-Water Separators or Clarifiers	No
Septic Systems or Cesspools	No
Wells (Drinking Water Wells, Monitoring Wells, Agricultural/Irrigation Wells, or Process Water Wells)	No
Petroleum or Natural Gas Pipelines/Easements	No

6.0 INTERVIEWS

The site contact or Key Site Manager was contacted to be interviewed to obtain information regarding recognized environmental conditions in connection with the property. Additionally, a Pre-Survey Questionnaire was forwarded to the designated Subject Property contact. The Pre-Survey Questionnaire has not been completed and returned to our offices. The information requested in the Pre-Survey Questionnaire is intended to assist in gathering information that may be material to identifying recognized environmental conditions in connection with the Subject Property. The Pre-Survey Questionnaire and any accompanying documentation is presented in Appendix C.

INTERVIEWS			
Contact / Affiliation	**Date of Communication**	**Years Associated with the Subject Property**	**Telephone No.**
Ms. Allison Higgins Senior Vice President George Smith Partners	09/10/2021	One Month	(310) 867-2923 (O) (310) 995-7759 (C)

Pertinent information from the interviews is presented in applicable sections of this report.

7.0 CONSIDERATIONS OUTSIDE THE SCOPE OF ASTM PRACTICE E 1527-13

The following sections address environmental issues or considerations at the Subject Property that parties may wish to assess in connection with commercial real estate that are outside the scope of ASTM Practice E 1527-13 (non-scope considerations).

7.1 ASBESTOS-CONTAINING MATERIAL (ACM)

Asbestos is a term used to describe a group of six naturally occurring crystalline fiber minerals. Asbestos has excellent thermal stability, a high degree of tensile strength, and has been used extensively in the textile, insulation, and building industries, particularly as a component in fireproofing, decorative coatings, insulation materials, and as reinforcement for plaster binders in building products. Asbestos-containing building materials are generally classified as friable or non-friable. Friable materials are those that can be crumbled, pulverized, or reduced to powder by hand pressure, or by normal use or maintenance can be expected to emit asbestos fibers into the air. Non-friable ACM is a potential concern if it is damaged by maintenance work, demolition, or other activities, at which time it may be considered friable.

Based upon the undeveloped nature of the Subject Property and in accordance with the scope of work for this assessment, EBI did not conduct a survey for the presence of ACM.

7.2 RADON

Radon is a naturally-occurring, colorless and odorless radioactive gas that is generated during the breakdown (radioactive decay) of Uranium that is found in soil and rock throughout the United States. The United States Surgeon General has published information that radon is a cause of lung cancer. Radon usually enters a building through openings in the foundation, and therefore the greatest health concern to residents of the lowest level of a building.

The EPA Map of Radon Zones indicates that Madera County is located within a Zone 2 radon area. Zone 2 is defined as an area that has a moderate potential for radon gas, with a predicted average indoor radon screening level between 2.0 picoCuries per liter (pCi/L) and 4.0 pCi/L. The EPA recommended Action Level for radon is 4.0 pCi/L.

Based upon the undeveloped nature of the Subject Property and in accordance with the scope of work for this assessment, EBI did not conduct a limited short-term radon screening at the Subject Property.

7.3 LEAD-BASED PAINT (LBP)

Use of lead in household paint was banned by the U.S. Environmental Protection Agency (EPA) effective January 1, 1978. The EPA and the U.S. Department of Housing and Urban Development (HUD) consider lead-based paint as containing a lead concentration equal to or greater than 1.0 milligram per square centimeter (mg/cm^2) or 0.5% lead by weight, as defined by Title X of the 1992 Housing and Community Development Act.

Based upon the undeveloped nature of the Subject Property and in accordance with the scope of work for this assessment, EBI did not conduct a lead-based paint (LPB) screening at the Subject Property.

7.4 LEAD IN DRINKING WATER

Lead has historically been used in pipes, solder, and brass fixtures used in water distribution systems and building plumbing systems. In 1986, EPA banned the use of lead at concentrations exceeding 0.2% lead in solder and 8% lead in other plumbing materials. Lead in drinking water results primarily from corrosion of lead containing materials in service lines or from corrosion of lead containing materials in building plumbing systems such as lead solder, brass, bronze, and other lead containing alloys. The EPA Action Level for lead in public drinking water supplies is 0.015 parts per million (ppm) or 0.015 milligrams per liter (mg/L).

Based upon the undeveloped nature of the Subject Property, municipal water service is not currently provided to the Subject Property.

8.0 FINDINGS, OPINIONS AND CONCLUSIONS

EBI has performed this Phase I Environmental Site Assessment of the property located at West Industrial Avenue and Schnoor Avenue in Madera, California (the Subject Property) in conformance with the scope and limitations of ASTM Standard E 1527-13. Any exceptions to, or deletions from, this practice are described in Section 1 of this Report.

This assessment has identified no evidence of *recognized environmental conditions (RECs), historical recognized environmental conditions (HRECs), controlled recognized environmental conditions (CRECs), de minimis conditions,* or *considerations outside the scope of ASTM Practice E 1527-13* in connection with the Subject Property.

9.0 RECOMMENDATIONS

Based upon the findings of this investigation, no further action is recommended.

Re: Environmental Site Assessment Questionnaire for property known as or located at

Subject: EBI Project #:
To complete an Environmental survey of the above mentioned property.

1. **Please read these instructions and those on the following page carefully.**
2. **Please assemble this original questionnaire and one copy of pertinent property documents, and forward all information <u>to the site or the site contact</u> for the Engineer and/or Scientist to use during the site visit. This documentation will be included in our report.**
3. **Please fill out this questionnaire to the best of your knowledge and email or fax it back to us <u>within three business days</u>.**
4. **The Scientist will contact you directly to schedule the site visit.**
5. **This information is extremely time sensitive and necessary to provide your lender with accurate and timely report.**

EBI Consulting
environmental | engineering | due diligence

Please fill out and sign this questionnaire to the best of your knowledge for the Scientist's site visit. Email to at or fax to, for our report files, and keep the original to provide to the Scientist.
6.

Subject Property Name:_____**EBI Project #:**_____

Address:_____

Subject Property Owner:_____**Purchase Date:**_____

On-Site Property Contact:_____**Telephone:**_____

Fax:_____**Email:**_____

_____

Your Name and title **Signature** **Date**

Additional plans and documentation (see page 4) must be forwarded to the site for the Scientist during the survey. For questions not applicable please respond "N/A." Attach additional pages if necessary. This questionnaire and your responses will be included as an exhibit in the Environmental report. Accurate and full completion is critical to a timely completion of our reports, and timely loan closing.

LOCAL JURISDICTIONAL INFORMATION

1. What is the property ID #, Lot and Block, or Township/Range ID #?_____

2. What is the legal Municipality or County that has jurisdiction over the property?_____

3. What is the assessors file ID number and tax file ID number if available?_____

PROPERTY INFORMATION

4. What is the size of the subject property lot or lots, in acres?_____

5. How many buildings comprise the subject property?_____

a. If the property is a mall or large retail center, please confirm and list ownership of each building._____

_____

6. What is the gross and net rentable square footage of the building(s)?_____

7. What is the date of construction of the building(s)? When was the building(s) first occupied?_____

8. How many tenant spaces or apartments are at the Subject Property?_____

9. Please list, to the best of your knowledge, any structural, water infiltration, mold, roof, plumbing, HVAC, Fire Alarm or electrical deficiencies or problems._____

10. Please list any deficiencies noted during any Building, Fire or Health Department inspections in the last three years.

_____

11. Please list the following utility providers:

Water:_____ Electricity:_____

Sanitary Sewer:_____ Storm Drainage:_____

Trash Hauler:_____ and, Natural Gas or Oil:_____

Frequency of Pick-ups:_____

_____

12. Please attach a brief history of the property.

ENVIRONMENTAL SITE ASSESSMENT PRE- SURVEY QUESTIONNAIRE

1. Describe the current uses of the property noting tenant names and oil/chemical usage._____

_____

2. Describe the past uses of the property noting tenant names and oil/chemical usage._____

_____

3. (Y) (N) Has a previous environmental site assessment report been prepared for the property? If yes, for what reason? Can EBI have a copy?_____

4. (Y) (N) Has a subsurface investigation (Phase II) ever been conducted on the property, including soil sampling, groundwater sampling, or installation of groundwater monitoring wells? If yes, for what reason? What were the results? Can EBI have a copy of the report? Are there any groundwater monitoring wells currently located on the property?_____

5. (Y) (N) Has contamination been identified at the Subject Property? Describe the nature of the contamination (i.e., source, media impacted, location, sampling, cleanup activities, regulatory status, etc.). Can EBI have copies of related documentation? _____

6. (Y) (N) Has a spill or surficial release occurred at the Subject Property? Describe the nature of the spill/surficial release (i.e., source, location, response/cleanup actions, regulatory status, etc.). Can EBI have copies of related documentation? _

7. (Y) (N) Is the Subject Property listed with the USEPA and/or the state environmental regulatory agency as a contaminated site? If yes, please describe. Can EBI have copies of related documentation? _____

_____

8. (Y) (N) Has there ever been previous sampling for Asbestos, Lead-Based Paint, Lead in Water, or Radon? If yes, please describe. Can EBI have copies of related documentation? _____

9. (Y) (N) Has there been any Asbestos or Lead-Based Paint abatement or Radon mitigation conducted at the Subject Property? Are there Asbestos and/or Lead-Based Paint Operations and Maintenance Plans for the Subject Property? If yes, please describe. Can EBI have copies of related documentation? _____

10. (Y) (N) Any known environmental liens, deed restrictions, or use limitations for the Property? If yes, please describe. Can EBI have copies of related documentation?_____

11. (Y) (N) Any permitted or regulated activities (Hazardous waste generator, air) on the Property? If yes, please describe.

_____

12. (Y) (N) Are there any transformers or other electrical equipment, which may contain PCBs? If yes, please describe. Where are they? Who owns the transformer(s)? Who services them?_____

13. (Y) (N) Has an industrial or manufacturing operation, gas station, motor repair facility, commercial printing facility, dry cleaners, photo-developing laboratory, junk yard, landfill or waste, treatment, storage, disposal processing or recycling facility ever been located at **or** adjacent to the property? If yes, please describe._____

_____

14. (Y) (N) Are there any discarded drums, barrels or containers, construction debris, damaged or discarded automobile or industrial batteries, or pesticides, paints or other chemicals in individual containers or drums of greater than five gallons or fifty gallons in aggregate located on the property? If yes, please describe._____

15. (Y) (N) Have there ever been any waste storage or treatment lagoons, pits, ponds, or surface impoundments on the property? If yes, please describe._____

16. (Y) (N) Does the property have floor drains not discharging to a sewer? Septic System? If yes, please describe._____

_____

17. (Y) (N) Are there currently aboveground or underground storage tanks at the property? If yes, complete table.

Type of Tank	Size	Content	Installation Date	Spill/Leak Detection? Y or N
Above or Underground	gal			
Above or Underground	gal			
Above or Underground	gal			
Above or Underground	gal			

18. Are you aware of any information to indicate that the Subject Property was sold for substantially below its fair market value? If so, please provide an explanation: _____

_____

19. Additional comments and/or pertinent information relevant to this Phase I ESA:_____

_____

_____

DOCUMENT AND INFORMATION CHECKLIST

Please provide the following information (as much as possible in electronic format) so the Scientist can proceed with the survey of the property.

A. Plans	B. Municipal Documents	C. Additional Information
▪ ALTA Survey or Site Plan ▪ Reduced scale Site and Building Plans	▪ Certificate of Occupancy ▪ Building Permit ▪ Copy of tax cards ▪ UST/AST Registrations	▪ Tenant Rent Roll ▪ Historical Uses ▪ Previous Due Diligence Reports ▪ Copy of most Recent Appraisal

EBI ACCESS REQUIREMENTS

At the time of the site visit the Consultant is required to gain access to all areas of the property. This includes:

- All building interiors, including as applicable, common areas, lobbies, a representative sampling of offices, retail spaces, manufacturing or assembly areas, or apartments, community rooms, exercise rooms, pool areas, storage rooms, attics and basements, garages.
- All building perimeters
- All site amenities
- All building roofs, unless pitched asphalt shingles. This may require you to obtain and provide a ladder.
- All mechanical, electric, sprinkler, HVAC, utility, service, elevator, storage and equipment rooms

April 5, 2021

TO: CITY OF MADERA WATER CUSTOMERS

SUBJECT: 2020 CITY OF MADERA WATER SYSTEM CONSUMER CONFIDENCE REPORT

Este informe contiene información importante sobre su agua potable, tradúzcalo, o hable con alguien que se lo pueda explicar.

The City of Madera is required by the State Water Resources Control Board to report annually to all customers regarding water quality. The enclosed report summarizes water quality sample results for 2020. You may also view this report on the City of Madera's web site www.cityofmadera.ca.gov. All samples were collected from eighteen groundwater wells. Minimum, maximum, and average values are listed for all elements that were detected.

Significant time and expense by the City ensures that consumers are provided with water that meets or exceeds drinking water standards. The City's stringent testing program is in full compliance with State and Federal requirements.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. City of Madera is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may request to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

Questions regarding this report should be directed to John Botwright, Water Quality Specialist of the City Water Quality Division at (559) 661-5466.

Daniel Foss
Public Works Operations Director

CITY OF MADERA WATER QUALITY REPORT 2020

Primary Standards	MCL	PHG (MCLG)	RANGE OF DETECTION			AVERAGE	U.O.M.	TYPICAL SOURCE OF CONTAMINANT
Arsenic	10.00	0.004	N/D	TO	4.20	0.35	ug/L	Erosion of natural deposits; runoff from orchards; glass and electronics production wastes.
Barium	1.00	2.00	N/D	TO	0.28	0.02	mg/L	Discharges of oil drilling wastes and from metal refineries; erosion of natural deposits.
Nitrate (as N)	10.00	10.00	0.00	TO	4.40	1.63	mg/L	Runoff from fertilizer use; leaching from septic tanks and sewage erosion of natural deposits.
Dibromochloropropane (DBCP)*	0.2	0.0017	N/D	TO	0.08	0.01	ug/L	Runoff/leaching from soil fumigant used on soybeans, cotton, pineapples, and orchards.
Chlorine Residual	4.0	4.0	0.1	TO	0.8	0.25	mg/L	Drinking water disinfectant added for prcautionary disinfection
Total Coliform Bacteria [Total Coliform Rule] % positive samples	More than 5% of samples are positive	0	Amount detected 0			N/A	NO VIOLATIONS	Naturally present in the environment
Secondary Standards								
Aluminum	200		0.00	TO	0.66	0.03	mg/L	Erosion of natural deposits; residual from surface water treatment
Iron	300		0.00	TO	243.00	24.68	ug/L	Leaching from natural deposits; industrial wastes
Chloride	500.00		0.00	TO	38.90	13.15	mg/L	Runoff/leaching from natural deposits; seawater influence.
Color	15.00		N/D	TO	0.00	0.00	units	Naturally-occurring organic materials
Odor	3.00		N/D	TO	2.00	0.16	units	Naturally occurring organic materials.
pH (Laboratory)	6.5 - 8.5		0.00	TO	7.80	4.41	Std. units	
Specific Conductance	1600.00		0.00	TO	366.00	142.74	umho/cm	Substances that form ions when in water; seawater influence.
Total Filterable Residue (TDS)	1000.00		0.00	TO	345.00	122.95	mg/L	Runoff/Leaching from natural deposits.
Sulfate	500.00		0.00	TO	19.20	3.67	mg/L	Runoff/leaching from natural deposits; industrial wastes.
Lab Turbity	5.00		N/D	TO	4.30	0.26	NTU	*Turbidity is a measure of the cloudiness of the water. We monitor it* because it is a good indicator of water quality. High turbidity can hinder the effectiveness of disinfectants.
General Minerals								
Bicarbonate	N/A		0.00	TO	188.00	57.95	mg/L	
Calcium	N/A		0.00	TO	44.90	13.23	mg/L	
Fluoride	2.00	1.00	N/D	TO	0.30	0.04	mg/L	Erosion of natural deposits; water additive that promotes strong teeth; discharge from fertilizer and aluminum factories.
Magnesium	N/A		0.00	TO	14.20	4.09	mg/L	
Potassium	N/A		N/D	TO	0.00	0.00	mg/L	
Sodium	N/A		0.00	TO	34.00	13.79	mg/L	
Total Alkalinity	N/A		0.00	TO	188.00	57.95	mg/L	
Total Hardness (as CaCO3)	N/A		0.00	TO	171.00	49.89	mg/L	
MBAS	0.50		N/D	TO	0.000	0.000	mg/L	Municipal and industrial waste discharges
Organics								
Tetrachloroethylene (PCE)	5.00	0.06	N/D	TO	0.86	0.05	ug/L	Discharge from factories, dry cleaners and auto shops (metal degreaser)
Radioactivity								
Gross Alpha	15.00		N/D	TO	0.00	0.00	pCi/L	Erosion of natural and man-made deposits
Uranium	20.00	0.43	0.00	TO	0.00	0.00	pCi/L	Erosion of natural deposits
Unregulated Organics								
Vanadium	N/A	50.00	0.00	TO	0.00	0.00	ug/L

Unregulated Inorganics								
Hexavalent, Chromium	10.00		N/D	TO	2.90	0.42	ug/L	N/A
STAGE 2 DBPR Monitoring								
Total Trihalomethanes (TTHM) (ug/L)	80.00	N/A	N/D	TO	0.59	0.30	ug/L	***8/13/2020 Byproduct of drinking water chlorination***
Haloacetic Acids (HAA5) (ug/L)	60.00	N/A	N/D	TO	0.00	0.00	ug/L	***8/13/2020 Byproduct of drinking water chlorination***

LEAD AND COPPER

Contaminant	No. of samples collected	90th Percentile level detected	No. of sites exceeding action	Action level	MCLG	TYPICAL SOURCE OF CONTAMINANT
Lead (ug/L) Sampled 9/2019	35	<.005	3	15	0.2	Internal corrosion of household water plumbing systems ; discharges from industrial manfacturers, erosion of natural deposits.
Copper (mg/L) Sampled 9/2019	35	0.12	0	1.3	0.3	

The State allows the City to monitor for some contaminants less than once per year because the concentration of these contaminants do not change frequently. Some of the above data, though representative, is more than one year old, the data ranges from 1996 to 2013.

ABBREVIATION KEY

MCL = Maximum Contaminant Level
mg/L = Milligrams per Liter or parts per million
ug/L = Micrograms per Liter or parts per billion
NTU = Nephelometric Turbidity Units
PHG = Public Heath Goal
MCLG= Maximum Contaminant Level Goal
RAL= Regulating Action Level
TT= Treatment Technique

N/A = Not Applicable
pCi/L = Picocuries per Liter
N/D = Non-Detect
U.O.M. = Unit of Measurement
TON = Threshold odor number
umho/cm= Micromhos per Centimeter
PDWS= Primary Drinking Water Standards
MRDL= Maximum Residual Disinfection Level
MRDG= Maximum Residual Disinfection Goal

REQUIRED PUBLIC NOTICE

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their heath care providers. USEPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline 1(800) 426-4791.

DEFINITIONS

Maximum Contaminant Level or (MCL): The highest level of a contaminant that is allowed in drinking water. Primary MCLs are set as close to the PHGs(or MCLGs) as is economically and technologically feasible. Secondary MCLs are set to protect the odor, taste, and appearance of drinking water.

Primary Drinking Water Standard or PDWS: MCLs for contaminants that affect health along with their monitoring and reporting requirements, and water treatment requirements.

Public Health Goals or PHG: The level of a contaminant in drinking water below which there is no known or expected risk to health. PHGs are set by the California Environmental Protection Agency.

Maximum Contaminant Level Goal or MCLG: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs are set by the U.S. Environmental Protection Agency.

HEALTH EFFECTS FOR INORGANIC CONTAMINANTS

Nitrate: Nitrate in drinking water at levels above 45 mg/L is a health risk for infants of less than six months of age. Such nitrate levels in drinking water can interfere with the capacity of the infant's blood to carry oxygen, resulting in a serious illness; symptoms include shortness of breath and blueness of the skin. Nitrate levels above 45 mg/L may also affect the ability of the blood to carry oxygen in other individuals, such as pregnant women and those with certain specific enzyme deficiencies. If you are caring for an infant, or you are pregnant, you should ask advice from your health care provider.

ARSENIC: While drinking water meets the Federal and State standards for arsenic, it does contain low levels of arsenic. The Arsenic standard balances the current understanding of arsenic's possible health affects against the cost of removing arsenic from drinking water. The U.S. Environmental Protection Agency continues to research the health affects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

TREATMENT

Chlorination: Each well site has a chlorine generation system which produces a 0.8% chlorine solution and dosage to the distribution system is set at 0.25 Parts Per Million.

REQUIRED PUBLIC INFORMATION

1. The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

2. Contaminants that could be present in source water include:

(**a**) Microbial contaminants, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

(**b**) Inorganic contaminants, such as salts and metals, that can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

(**c**) Pesticides and herbicides, that may come from a variety of sources such as agriculture, urban water runoff, and residential uses.

(**d**) Organic chemical contaminants, including synthetic and volatile organic chemicals, that are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, agricultural application, and septic systems.

(**e**) Radioactive contaminants, that can be naturally-occurring or be the result of oil and gas production and mining activities.

3. In order to ensure that tap water is safe to drink, the U.S. Environmental Protection Agency(USEPA) and the State Water Resources Control Board prescribe regulations that limit the amount of certain contaminants in water provided by public water systems. Department regulations also establish limits for contaminants in bottled water that provide the same protection or public health.

City of Madera
Source Water Assessment

A source water assessment was conducted for the City of Madera water system in 2003 and is ongoing as water wells are being developed. A completed copy of this report may be viewed at City of Madera, Public Works Department 1030 South Gateway Drive Madera, CA 93637 or, a copy may be requested by contacting the City Clerk at: (559) 661-5405

The following chart summarizes potential sources of contamination, in the vicinity of each water well, that could affect water quality:

Activities	Water Wells
Airports - Maintenance/fueling areas	#26
Automobile - Body shops, Historic gas stations, Machine shops, Junk/scrap salvage yards	#25
Automobile – Gas stations	#17, #18, #20, #21, #22, #26
Automobile - Repair shops	#18, #25
Boat services/repair/refinishing, sewer collection systems, pesticide/fertilizer/petroleum storage & transfer area	#18, #31
Chemical/petroleum processing/storage, dry cleaners, injection wells/dry wells/sumps	#28, #17
Dry cleaners, injection wells/dry wells/sumps	#28
Fertilizer/pesticide/herbicide application, storm drain discharge points	#29, #31, 32, #33, #34
Grazing (>5 large animals or equivalent per acre)	#23
Historic waste dumps/landfills	#25, #26
Housing – high density (>1 house / 0.5 acres)	#15, #16, #17, #21, #22, #23, #24, #25, #29, #31, #32, #33, #34
Metal plating/finishing/fabricating	#26, #27, #30
Military installations	#24
Transportation corridors - Road right - of - ways (herbicides use areas)	#15, #16, #17, #29
Waste Transfer/Recycling stations	#17, #31, #34

DISCUSSION OF VULNERABILITY

There is no current Maximum Contaminant Level (MCL) exceedance noted in the State Water Resources Control Board database for City of Madera Water Wells: 15, 16, 17, 18, 20, 21, 22, 23, 24, 25, 26, 28, 29, 30, 31, 32, 34 and 38.

Detected Contaminants 2020

Water Well	Chemical	Sample Date	Level Detected	MCL	DLR

ADDITIONAL COMMENTS:

Lead Sampling in Schools: We conducted Lead sampling in accordance with SWRCB requirements at 18 MUSD Schools.

VIOLATION OF TT OR MONITORING AND REPORTING REQUIREMENTS:

MONITORING AND REPORTING VIOLATION: ***NONE*** We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards.

5 de Abril de 2021

PARA: CLIENTES DE AGUA DE CIUDAD DE MADERA

ASUNTO: 2020 CIUDAD DE MADERA SISTEMA DE AGUA INFORME DE CONFIANZA DEL CONSUMIDOR

Este informe contiene información importante sobre su agua potable, tradúzcalo, o habla con alguien que lo entiende bien.

La junta de control de recursos hídricos estatales requiere que la Ciudad de Madera informe anualmente a todos los residentes sobre la calidad del agua. El informe adjunto resume los resultados de muestras de calidad del agua para el 2020. También puede ver este informe en el sitio web de la ciudad en www.cityofmadera.ca.gov. Todas las muestras fueron recolectadas de dieciocho pozos de agua subterránea. Los valores mínimos, máximos y promedios se enumeran para todos los elementos que se detectaron.

El tiempo y gastos significativos de la Ciudad aseguran que los residentes consumidores reciban agua que cumpla o exceda los estándares de agua potable. El estricto programa de pruebas de la Ciudad cumple totalmente con los requisitos estatales y federales.

Si están presente, los niveles elevados de plomo pueden causar graves problemas de salud, especialmente para las mujeres embarazadas y niños pequeños. El plomo de agua potable proviene principalmente de los materiales y componentes asociados con las líneas de servicio y la plomería del hogar. La Ciudad de Madera es responsable de proporcionar agua potable de alta calidad, pero no puede controlar la variedad de elementos y materiales utilizados en los componentes de plomería. Cuando el agua haya estado sin usar por mucho tiempo puede minimizar la posibilidad de exposición al plomo enjuagando su grifo por 30 segundos o 2 minutos antes de usar el agua para beber o cocinar. Si usted está preocupado por plomo en el agua, puede solicitar que le hagan una prueba a su agua. Información sobre el plomo en el agua potable, métodos de prueba y pasos que puede tomar para minimizar la exposición están disponible en la línea de llamada de agua potable segura o en http://www.epa.gov/safewater/lead .

Preguntas sobre este informe se pueden dirigir a John Botwright, especialista de la calidad de agua, de la división de calidad de agua de la ciudad al (559) 661-5466.

Daniel Foss, Director de operaciones de obras públicas

CITY OF MADERA WATER QUALITY REPORT 2020

Primary Standards	MCL	PHG (MCLG)	RANGE OF DETECTION			AVERAGE	U.O.M.	TÍPICA FUENTE DE CONTAMINANTE
Arsenic	10.00	0.004	N/D	TO	4.20	0.35	ug/L	Erosión de depósitos naturales; escorrentía de huertos; desechos de producción de vidrio y electrónica.
Barium	1.00	2.00	N/D	TO	0.28	0.02	mg/L	Descargas de desechos de perforación de petróleo y de refinerías de metales; erosión de depósitos naturales.
Nitrate (as N)	10.00	10.00	0.00	TO	4.40	1.63	mg/L	Escurrimiento de la utilización de fertilizantes; lixiviación de tanques sépticos y aguas residuales, erosión de depósitos naturales.

LEAD AND COPPER

Contaminant	Jajaja de las muestras tomadas	percentil 90 nivel detectado	No. de sitios superiores a nivel de	Action level	MCLG	TÍPICA FUENTE DE CONTAMINANTE
Plomo (ug/L) muestreadas 9-2019	35	<.005	3	15	0.2	Corrosión interna de los sistemas de plomería de agua domésticos; descargas de fabricantes industriales,
Cobre (mg/L) muestreadas 9-2019	35	0.12	0	1.3	0.3	erosión de depósitos naturales.

El estado permite a la ciudad monitorizar algunos contaminantes menos de una vez por año porque la concentración de estos contaminantes no cambian con frecuencia. Algunos de los datos anteriores, aunque su representante, es más de un año de edad, los datos van desde 1996 hasta el 2020.

ABBREVIATION KEY

MCL = nivel máximo de contaminante
mg/L = miligramos por litro o partes por millón
ug/L = microgramos por litro o partes por mil millones
NTU = unidades nefelométricas de turbidez
PHG = objetivo de salud pública
MCLG = meta de nivel máximo contaminante
RAL = regulación de nivel de acción
TT= Treatment Technique

N/A = no aplicable
pCi/L = picocurios por litro
N/D = no detectar
U.O.M. = unidad de medida
TON = umbral olor número
UMHO/cm = Micromhos por centímetro
PDWS = normas primarias de agua potable
MRDL = nivel máximo de desinfección Residual
MRDG = meta máxima desinfección Residual

REQUIRED PUBLIC NOTICE

Algunas personas pueden ser más vulnerables a los contaminantes en el agua potable que la población general. Personas inmunodeficientes, tales como personas con someterse a quimioterapia, personas que han recibido trasplantes de órganos, personas con VIH/SIDA u otro sistema inmune trastornos, algunos ancianos y niños pueden tener mayor riesgo de infección. Estas personas deben buscar asesoramiento sobre beber agua de su proveedores de cuidado de salud. USEPA/Centros para las pautas de Control de enfermedades (CDC) en medios apropiados para disminuir el riesgo de infección por Cryptosporidium y otros contaminantes microbianos están disponibles de la línea gratuita agua potable segura (1-800-426-4791).

Agua potable, incluyendo agua embotellada, puede razonablemente esperarse que contienen por lo menos pequeñas cantidades de algunos contaminantes. La presencia de contaminantes no indica necesariamente que el agua constituye un riesgo para la salud. Puede obtener más información acerca de contaminantes y efectos de salud potenciales obtener llamando a línea gratuita agua potable segura de la USEPA 1 (800) 426-4791.

DEFINITIONS

Máximo nivel contaminante o (MCL): el más alto nivel de un contaminante que se permite en el agua potable. Primaria MCL ' s se establecen tan cerca de la PHG ' s (o MCLG ' s) como es factible económicamente y tecnológicamente. MCL secundarios se establecen en proteger el olor, sabor y apariencia del agua potable.

Agua potable estándar primario o PDWS: MCL de contaminantes que afectan la salud así como su monitoreo y informes de requisitos y necesidades de tratamiento de agua.

Objetivos de salud pública o PHG: el nivel de un contaminante en el agua potable por debajo del cual no existe riesgo conocido o esperado para la salud. PHGs son fijados por la Agencia de protección ambiental de California.

Máximo nivel de contaminante objetivo o MCLG: el nivel de un contaminante en el agua potable por debajo del cual no hay conocido o riesgo previsto para la salud. MCLG ' s son fijados por la Agencia de protección ambiental de Estados Unidos.

EFECTOS SOBRE LA SALUD DE CONTAMINANTES INORGÁNICOS

Nitrato: Nitrato en el agua potable a niveles por encima de 45 mg/L es un riesgo para la salud de los bebés de menos de seis meses de edad. Tales niveles de nitratos en el agua potable pueden interferir con la capacidad de la sangre del bebé para transportar oxígeno, resultando en una enfermedad grave; los síntomas incluyen falta de aliento y color azulado de la piel. Los niveles de nitrato superiores a 45 mg/L también pueden afectar la capacidad de la sangre para transportar oxígeno en otras personas, como mujeres embarazadas y personas con ciertas deficiencias de enzimas específicas. Si usted está cuidando a un niño, o está embarazada, debe pedir consejo de su proveedor de atención médica.

Arsénico: Mientras que el agua potable cumple con los estándares federales y estatales para el arsénico, contienen niveles bajos de arsénico. El estándar de arsénico equilibra la corriente comprensión de la salud del arsénico afecta contra el costo de la eliminación de arsénico del agua potable. La Agencia de protección ambiental de Estados Unidos continúa investigación que afecta la salud de niveles bajos de arsénico, que es un mineral conocido por causar cáncer en seres humanos en concentraciones altas y está vinculado para otros efectos en la salud como daño de la piel y problemas circulatorios.

TREATMENT

Cloración: Cada sitio bien tiene un sistema de generación de cloro que produce una solución de cloro al 0,8% y dosis para el sistema de distribución se encuentra en 0,25 partes por millón.

REQUIRED PUBLIC INFORMATION

1. las fuentes de agua potable (agua del grifo y agua embotellada) incluyen ríos, lagos, arroyos, estanques, embalses, manantiales y pozos. Como el agua recorridos sobre la superficie de la tierra o a través del suelo, disuelve minerales naturales y, en algunos casos, material radioactivo, y puede recoger sustancias resultantes de la presencia de animales o de la actividad humana.

2. los contaminantes que podrían estar presentes en el agua de la fuente incluyen:

(a) contaminantes, tales como virus y bacterias, que pueden provenir de plantas de tratamiento de aguas residuales, sistemas sépticos, agricola ganadera operations, and wildlife.

(b) inorgánicos contaminantes, como sales y metales, que pueden ocurrir naturalmente o como resultado del desagüe pluvial, industrial o doméstica descargas de aguas residuales, producción de petróleo y gas, minería o agricultura.

(c) pesticidas y herbicidas, que pueden provenir de una variedad de fuentes como la agricultura, el escurrimiento de las aguas urbanas y usos residenciales.

(d) contaminantes químicos orgánicos, incluyendo productos químicos orgánicos sintéticos y volátiles, que son subproductos de procesos industriales y petróleo producción y también puede provenir de gasolineras, desagüe pluvial, aplicaciones agrícolas y sistemas sépticos.

(e) radiactivos contaminantes, que pueden ocurrir naturalmente o ser el resultado de la producción de petróleo y gas y minería.

3. a fin de asegurarse de agua del grifo es segura para beber, la Agency(USEPA) de protección ambiental de Estados Unidos y la Junta Estatal de Control de recursos de agua prescribir normas que limitan la cantidad de ciertos contaminantes en el agua proveída por los sistemas públicos de agua. Regulaciones del Departamento también establecen límites para contaminantes en el agua embotellada que proporcionan la misma protección o salud pública.

City of Madera
Source Water Assessment

Se realizó una evaluación del agua de la fuente para el sistema de agua de la Ciudad de Madera en el 2003 y sigue en proceso la evaluacion a medida que se desarrollan pozos de agua. Puede obtener una copia completa de este informe en la Ciudad de Madera, Departamento de Obras Públicas 1030 South Gateway Drive Madera, CA 93637 o, puede solicitar una copia contactando a la Secretaria Municipal al: (559) 661-5405

La siguiente tabla resume las fuentes potenciales de contaminación, en la area de cada pozo de agua, que podría afectar a la calidad del agua:

Actividades	Pozos de agua
Aeropuertos - áreas de mantenimiento/combustible	#26
Automóviles - Hojalatería, gasolineras históricas, tiendas de máquina, yardas del salvamento de basura y chatarra	#25
Automóvil, estaciones de Gas	#17, #18, #20, #21, #22, #26
Automóvil - talleres	#18, #25
Servicios de Barco /reparación/acabado, sistemas de recolección de alcantarillado, almacenamiento de fertilizantes/pesticidas/petróleo y área de transferencia	#18, #31
Almacenamiento/procesamiento químico/petróleo, tintorerías, pozos de inyección de pozos/seco/sumideros	#28, #17
Tintoreros, pozos de inyección de pozos/seco/sumideros	#28
Aplicación de fertilizantes/pesticidas/herbicidas, puntos de descarga de drenaje de tormenta	#29, #31, 32, 33 #, #34
Pastoreo (> 5 animales grandes o su equivalente por hectárea)	#23
Vertederos/rellenos sanitarios residuos histórico	#25, #26
Vivienda – densidad alta (> 1 casa / 0,5 acres)	#15, #16, #17, #21, #22, #23, #24, #25, #29, #31, #32, #33, #34
Metal plating/acabado/fabricación	#26, #27, #30
Instalaciones militares	#24
Corredores de transporte - carretera derecho - de - formas (herbicidas utilizan áreas)	#15, #16, #17, #29
Estaciones de transferencia/reciclaje de residuos	#17, #31, #34

DISCUSIÓN DE VULNERABILIDAD

Actualmente no hay un nivel de contaminante máximo (MCL) en la base de datos de la Junta de Control de recursos de agua de estado para los siguientes pozos de agua de la Ciudad de Madera: 15, 16, 17, 18, 20, 22, 23, 24, 25, 26, 28, 29, 30, 31, 32, 34 y 38.

Contaminante detectado 2020

Pozo de agua	Producto químico	Fecha de la muestra	Nivel detectado	MCL	DLR

COMENTARIOS ADICIONALES:

Muestreo en las escuelas: Se realizó un muestreo de plomo de acuerda con los requisitos de SWRCB en 18 escuelas de MUSD.

VIOLACIÓN DE TT Y LOS REQUISITOS DE SEGUIMIENTO Y PRESENTACIÓN DE INFORMES:

Violación de supervisión y presentación de informe: Estamos obligados a supervisar su agua potable para detectar contaminantes específicos de forma regular. Resultados de la vigilancia regular son un indicador de si o no el agua potable cumple con los estándares de salud.

Summary of Experience

EnviroTech Solutions - Chino, CA
Environmental Consultant – *October 2007 – Present*
Responsible for management of environmental health, safety and RCRA related hazardous waste compliance for all environmental site assessments. Provide technical and editorial oversight for all environmental reports and studies. Conduct Phase I and Phase II Site Assessments.

Kleinfelder, Inc. - Irvine, CA
Senior Project Manager – *February 2001 – October 2006*
Responsible for project and technical management of ExxonMobil sites throughout Southern California. Ensure that project tasks are completed in a timely manner and that all regulatory and client deadlines are met on projects. Met company goals and achieved project criteria with respect to ExxonMobil scorecard requirements and budget requirements. Prepared and/or reviewed all technical reports. Maintained thorough understanding of client/regulatory requirements and ensured that client/regulatory compliance were met on all projects. Coordinated and mentored junior staff and assisted Kleinfelder in marketing targeted clients for future growth. Certified in Loss Prevention System (LPS), Self-Performance Self-Assessment (SPSA) and Operations Integrity Management System (OIMS).

OHM Corporation – Atlanta, GA
Senior Project Manager, Remediation and Construction – *March 1995 – August 2000*
Responsible for all phases of project management including design, development and application of remediation treatment systems. Knowledgeable in the design and implementation of soil vapor extraction, bio-remediation, air sparging, activated carbon treatment, encapsulation and stabilization. Project oversight including Profit & Loss, Health & Safety, client communication, subcontractor liaison, scope of work and request for proposal documents, as well as cost estimates, timeline development and management. Knowledgeable in the use of primavera, project timeline and project management software. Design/build of roadways and structures related to environmental activities. Responsibilities involved preparation of plans and special provisions, project schedule and coordination with public and regulatory agencies.

Browning Ferris Industries – Houston, TX
Senior Project Manager, Profit and Loss Accountability – *June 1980 – February 1995*
Responsible for environmental projects in both private and government sectors. Provided oversight for field operations, designed and implemented treatment systems. Extensive experience utilizing soil vapor extraction, bio-remediation, steam injection, filter press extraction, liquid-liquid extraction, thermal desorption, soil stabilization/solidification and soil washing. Developed work plans, cost estimates, bid documents, RI/FS, EIS for superfund and RCRA hazardous sites.

Debra Bechtold
Senior Scientist

SUMMARY OF EXPERIENCE

Ms. Bechtold is a project manager and land use specialist with over 20 years of professional experience. She is responsible for conducting Phase I environmental site assessments. She has also performed Phase II Subsurface Investigations leading to site remediation. Ms. Bechtold is a California Registered Environmental Assessor II. She has completed the Certificate in Hazardous Materials Management from the University of California, Irvine.

RELEVANT PROJECT EXPERIENCE

- Prepared over 300 Phase I Environmental Site Assessments of residential, commercial and industrial properties throughout Southern California.
- Project manager for the I-710 Brownfields Study which consisted of 15 Preliminary Site Assessments, 10 Phase I Environmental Site Assessments and an Area Study encompassing 14 city blocks consisting of over 200 parcels.
- Managed numerous Phase II subsurface investigations; including groundwater investigations, working with professional geologists, engineers and chemists.
- Completed Phase III soil remediation projects involving soil excavation and disposal.
- Obtained regulatory closure for former gasoline service stations using natural attenuation modeling for underground storage tanks sites that impacted groundwater.
- Directed the installation, operation and maintenance of soil vapor extraction remediation systems for sites impacted by volatile organic compounds (i.e., dry cleaners and industrial facilities).
- Worked with local regulatory agencies including the Los Angeles Fire Department, Health Hazardous Materials Division, Los Angeles County Department of Public Works, Environmental Programs Division and the California Regional Water Quality Control Board.
- Participated in litigation support projects, specifically the technical review of environmental reports to determine the nature and extent of contamination and evaluation of remediation costs.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 3 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/23/2021 has revealed that there are 5 ENVIROSTOR sites within approximately 1 mile of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are

4 SWEEPS UST sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.25 miles of the target property.

TONYS FREEWAY SHELL	1930 MODOC ST	N 0 - 1/8 (0.082 mi.)	A2	24
J & H EXXON SERVICE	2001 HOWARD RD	N 1/8 - 1/4 (0.214 mi.)	E21	142

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical

Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
MADERA CLEANERS & LA	1930 HOWARD RD STE E	NNE 1/8 - 1/4 (0.190 mi.)	D16	137
MADERA CLEANERS & LA	1920 HOWARD RD STE 1	NNE 1/8 - 1/4 (0.212 mi.)	D19	139

EDR RECOVERED GOVERNMENT ARCHIVES

Exclusive Recovered Govt. Archives

RGA LUST: The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the State Water Resources Control Board in California.

A review of the RGA LUST list, as provided by EDR, has revealed that there are 3 RGA LUST sites within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
J & H GASOLINE	2001 HOWARD RD W	N 1/8 - 1/4 (0.214 mi.)	E23	143

EXECUTIVE SUMMARY

There were no unmapped sites in this report.

OVERVIEW MAP - 06640749.2R

- Target Property
- Sites at elevations higher than or equal to the target property
- Sites at elevations lower than the target property
- Manufactured Gas Plants
- National Priority List Sites
- Dept. Defense Sites
- Indian Reservations BIA
- Special Flood Hazard Area (1%)
- 0.2% Annual Chance Flood Hazard
- National Wetland Inventory
- State Wetlands
- Areas of Concern

This report includes Interactive Map Layers to display and/or hide map information. The legend includes only those icons for the default map view.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
