CENTRAL LOCATION WITH ACCESS TO MAJOR TRADE HUBS

Three major consumer markets in the Southwest including Los Angeles, Phoenix, and Houston are connected by Interstate 10. Heightened interstate movement of goods throughout the Southwest has prompted major manufacturing, distribution, and logistics firms to invest in facilities along Interstate 10, specifically in Metro Phoenix's West Valley leading to Los Angeles and in South Phoenix leading to Texas. With a majority of population growth in the U.S. taking place in Sun Belt markets, movement of goods and materials along Interstate 10 will need to increase to service heightened consumer demand and capital investment in growing metropolitan areas. Correspondingly, manufacturers and logistics-oriented firms will continue to invest along Interstate 10, contributing positively to Metro Phoenix job growth and overall Metro productivity.
